Petition for Rehearing

Background

On July 31, 2018, the District Court dismissed Coulter's Civil Complaint against ADT Security Services on the basis of expiration of the Contractual Period of Limitations – despite the fact that Coulter claimed Damages due to Fraud in Inducement.

The En Banc decision of the Eleventh Circuit affirmed the decision of the District Court on November 6, 2019. And on June 6, 2019, This Honorable Court chose to uphold the decisions dismissing Coulter's Complaint on the basis of the expiration of the Contractual Period of Limitations – again despite the fact that ADT Fraudulently Induced Coulter to sign the contract as ADT never intended to uphold their responsibility to meaningfully "monitor" anytime that the customer's system completely failed to contact ADT's Monitoring Center for the pre-scheduled periodic Timer Tests.

This situation results in ADT Security Services continued ability to defraud its 8 million customers – as well as placing the lives and property of all of their customers (as well as their families) in jeopardy each and every day!

Argument

Coulter has argued that Coulter should be granted permission to be heard in this court, because **the decision by the Eleventh Circuit conflicts with Case Law - and also asked for This Honorable Court to exercise its obligation to act, when a Lower Court has :**

"so far departed from the accepted and usual

course of judicial proceedings, or sanctioned such a departure by a lower court"

This "oversight" is required simply because **it is patently obvious that the decisions below, are not based on a reasonable determination of the Law** as it relates to the circumstances and argument provided by the Parties.

In the District Court, for example, the case was dismissed on the basis of the expiration of the Contractual Period of Limitations (1 year), despite the fact that the District Court recognized that Coulter pled that :

"ADT failed to monitor her home security system as promised and concealed her security system's inability to communicate with ADT's computer system ..."

Then the District Court continued, determining that: "Plaintiff's Contract Claims Are Time-Barred Under Pennsylvania Law ... Importantly, the parties' contract specifies a one-year period of limitations. ..." (decision pages 12 – 13 and 15)

However, when the District Court analyzed the period of limitations which would be applicable, the District Court **chose** to completely overlook the fact that Coulter's Claims of ADT's Fraud in Inducement, applied to **both** the verbal promises of ADT's Authorized Dealer, **as well as the promises in the Parties' Written Contract :**

"Plaintiff then waited until March of 2017 to file this action, her contract claims are clearly barred by the one-year limitations period in the contract ...

Plaintiff attempts to avoid the application of this contractual provision by arguing that ADT's alleged fraudulent inducement voids the entire contract, including the one-year limitations period. [DE 25 at 13.] ADT correctly counters, however, that because the contract contains an integration clause, Pennsylvania's parol evidence rule bars Plaintiff's attempt to avoid application of the one-year limitations ..."

The District Court made this "side-step" around Coulter's Claim of Fraudulent Inducement, by choosing to ignore the fact that ADT failed to provide the monthly Timer Test as guaranteed in the parties' written contract – in addition to violating the verbal representations provided by ADT's Authorized Dealer :

"(1) a fraudulent inducement claim based on ADT's alleged representations in 2007 that plaintiff's alarm system would be checked daily ..."

And the Panel of The Eleventh Circuit similarly made a significant departure from the requirements placed on judges, by **purposefully ignoring Coulter's clear argument** in order to permit their **desired determination** that :

"We reject Plaintiff's contention that the ADT Contract is voidable ... [B]ecause the ADT Contract contained both (1) an integration clause and (2) an unambiguous description of the services provided by ADT under the contract ..." (decision pages 5 and 8)

Further, the En Banc determination of the Eleventh

Circuit also chose to ignore that facts and argument, in order to rule in the manner that the Eleventh Circuit had pre-determined would take place, despite Coulter's clearly worded description in the request for En Banc Rehearing :

"the Panel erroneously determining that Coulter's ... Fraud in Inducement Claims are based on the utterances by ADT's employees ... rather than the promises made by ADT in the Parties' Written Contract ..." (page 2)

Case Law from the Second Circuit, makes it clear that jurists cannot pick and choose which facts and/or arguments they will consider, as explained in Chambers v. Time Warner, Inc., 282 F. 3d 147 – Court of Appeals, 2nd Circuit, 2002 :

"We review *de novo* a district court's dismissal of a complaint pursuant to Rule 12(b)(6), ... **accepting all factual allegations** in the complaint as true, and drawing all reasonable inferences in the plaintiff's favor ... **when a district court considers certain extra-pleading materials and excludes others, it risks depriving the parties of a fair adjudication of the claims** by examining an incomplete record." (emphasis added)

While Coulter has not researched Case Law from absolutely every circuit, *it is believed that all of the Federal Court's, regardless of their location, are also required to comply with this standard.* **But, it is patently obvious that Coulter clearly argued in both of the Lower Courts that the Claim of Fraud in Inducement applied to both the**

verbal assurances made by ADT's Authorized Dealer, as well as the clearly written promise to assure that the system was capable of communicating with the Monitoring Center on at least a once-a-month basis! :

" 8.) ... Coulter learned that the system was instead "checked" only once a month ... and the next scheduled check-in by her system was not scheduled to occur until March 24, 2013. ... And, Coulter hoped that the problem would be noticed and identified during the check-in on March 24, and perhaps her trip would not be necessary. ...

10.) Because Coulter continued to be unable to communicate with her system, Coulter decided that she must make a trip to the home to see what needed to be done. ... Coulter saw the problem - a loose wire sticking out of the phone jack. It was clear that ... the alarm system had no way to ... check-in with ADT's Monitoring Center's computers.

... 10.) Coulter noted that March 24 had come and gone without Coulter receiving a call from ADT about the alarm system, and Coulter considered this to be evidence of the blatant failure by ADT to even attempt to "monitor" the system ..." (Amended Complaint, pages 5-6)

Conclusion

Obviously, Justice requires that this case be returned to the district court so that it can proceed to trial, and all of ADT's 8 million customers can be

made aware of the **"flaws" intentionally designed into their Security Systems.**

What remains to be determined though, is why the District Court, the jurists from the Eleventh Circuit Panel (and that court En Banc), as well as This Honorable Court (along with the This Court's Clerks), and the other Justices who serve on this the nation's highest court – have all decided to simply **look the other way, while a large multi-national corporation places the lives and property of 32 million Americans in serious jeopardy** by permitting ADT Corporation to continue its fraudulent deceptions of its "Security System's" customers!

There is no polite way to put this - the decisions in the Instant Matter, from every jurists who has seen it, are obviously BOGUS!

Clearly, the reason that ADT never questioned why none of ADT's Customers ever experienced the situation where their Base Unit had failed to perform the Monthly Timer-Test – is simply because ADT realized that this catastrophic failure does, indeed, occur periodically. And, it must be equally obvious that ADT's "reporting" systems were **designed to conceal this fact!**

As to why none of the jurists who have seen this case (including This Honorable Court) have been able to come up with the only legitimate decision possible (and allowed this case to proceed to trial) – **well, no one can be certain. But, I suspect that almost every reasonable person would suspect**

**that the 4 million dollars in un-earned
monitoring fees which go into ADT's bank
account *each month*, would be a big part of the
reason that Justice eludes Coulter and all eight
(8) million of ADT's current customers!**

Jean Coulter, Petitioner

To the Honorable Members of both Houses of Congress;

*Your attention is critically needed, as we all are directly affected by the pervasive Corruption in our Courts (which is displayed in this case). What I have recently presented to the Justices of the Supreme Court of the United States, is of such crucial importance to so many Americans, that I feel obligated to also present this information to each member of Congress - as you have been entrusted with assuring the safety of the citizens of this great country. **The corruption present in our Justice System has become so pervasive, that we can no longer trust that the courts, will shield us (or our families, neighbors, colleagues and friends) from even the most blatant and intentional "bad" acts,** (whether those acts are committed by a person acting alone or executed by a multi-national corporation).*

This case involves **Fraudulent Acts by the nation's largest "Security Services" company - ADT Corporation - and the 8 million families which use ADT to protect their homes, businesses, and even their family's personal safety.** Indeed, it is because of the sheer number of ADT's customers who might become adversely affected - as well as **the very large amounts of money generated as the result of ADT's Frauds,** that the **Corruption of our Courts has become so vividly clear!**

In this case, I have exposed the fact that, **ADT Corporation consciously chose to conceal the complete system failure of thousands of its**

customer's Security Systems (each month), so that ADT Corporation could continue to collect monitoring fees for monitoring of those fatally-flawed systems - despite the fact that ADT was aware that their company was incapable of providing any form of "monitoring" for those thousands of systems, The un-earned fees are enough to create a **\$4,000,000.00 "slush fund" each month!**

In this case, the Federal District Judge "threw out" this case because it violated the "contractual period of limitations" for filing – although the proven facts which were presented in the filings (along with Case Law) require that the longer, Statutory Period of Limitations be applied instead.¹ There are only two reasons that I can imagine that such a clearly improper decision could occur, **either the District Court is/was completely incompetent – or the "slush fund" came into play.**

I have found that throughout the country, Judges, and indeed, every member of our Justice System (including Lawyers and members of Law Enforcement) hold such a deep resistance to applying the Law to other members of the "Justice System", that even the Professional Integrity of each of these members of the "Justice System, is frequently cast aside, for the sake of protecting one of their own! And in this case, the entire Eleventh Circuit, as well

¹ All of the Jurists heard argument that the Contract would be voided by Fraud in Inducement, if not for the fact that the Parties' contract had long since expired, (so, the Parties were instead acting under an Implied Contract)- again according to the facts presented, as well as volumes of Case Law.

as the Justices of the Supreme Court (and their clerks) have fallen victim to this cancer of corruption as well. *The time to act is now - before the entire "Justice System" fails for you, one of your family, or friends or one of your constituents!*

Respectfully Submitted,

Jean Coulter, Voter
