United States Supreme Court Petition for Re-Hearing

---

---

PETITIONER'S BRIEF

---

Points & Authorities: "That which ought to have been done is to be regarded as done, in favor of him to whom, and against him from whom, performance is due." "For every wrong there is a remedy." "No one should suffer by the act of another."

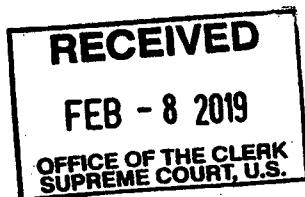

I'm presenting this petition for re-hearing in good faith, not for delay. Furthermore, I'm stating grounds that have not been taken into consideration as follows:

- 1.) On or around 08/26/18 I was in a devastating multi-vehicle crash, as I make a full recovery I am covered by the Americans with Disabilities Act of 1990 (see letter from my Neurologist, Dr. Huang). I have been unfairly forced to work in occupations that I would not have as a direct result of continued Employment Discrimination by Elite Model Management that could still employ me to facilitate making the wrongs they have done unto me right since 2010.
- 2.) Additionally, my current IMDb card Star Meter rating is 467, 855, despite all the injustices & all the challenges I have faced with post traumatic injuries & I implore this court for the sake of my justice in this matter to accept my petition; **"Justice delayed, is justice denied." -Chief Justice Warren E. Burger**

To Whom It May Concern,

We are seeing Mrs. Aretha Brown in neurology clinic for post concussive symptoms and treated/referred for other injuries associated with the 8/26/2018 MVA. She is still having some trouble with cognitive function. Hopefully, it will improve over time. We will also try some other medications for this.

Sincerely,

Dr. Derek Huang
