August 28, 2018

To the Clerk of Court:

Ileen Cain, *pro se* Petitioner named in the above caption hereby requests the full extension of sixty days to file a writ of certiorari. Petitioner request is from the Second Circuit Court of Appeals order Mandated on July 26<sup>th</sup> 2018 denying Appellant motion for reconsideration and motion en banc.

Petitioners request a sixty day extension to file her writ of certiorari. The extra time to submit her writ for certiorari is needed in order to properly conduct research and gather all evidence acquired over the years that pertain to the case at bar. Petitioner is in dire need of the extension, because of the numerous boxes of evidence and research collected and conducted over the years; petitioner is responsible for pouring over all of the facts and evidence and is responsible for the research as it pertains to a writ for certiorari; and is responsible for filing the writ for certiorari.

Petitioner, respectfully, prays the Court will issue an extension of sixty days, as the issues and facts of the claims involved are of greater importance than the parties involved.

Respectfully, submitted

Ileen Cain  
Pro Se Petitioner
