The grounds raised in the petition for a rehearing are limited to intervening circumstances of substantial effect.

Also the petition for rehearing is presented in good faith and not for delay. For it is true and correct that I did not know that the arrest of I on March 28 2011 was without any warrant before the year 2017. It was until the year of 2017 (working on the investigations for the post convictions appeals) that it became known to I that the United States constitution violation occurred in which there was no warrant in the 3/28/2011 arrest of I. The more reason why I did not know of the United States constitutional violation of no warrant in the arrest of 3/28/2011 of I is because before 2017 but on the pretrial hearing the Judge Honorable D Zzi ruled that on 3/28/2011 I was arrested with a warrant.
