PETITION FOR
REHEARING
PURSUANT TO THE U.S. SUPREME COURT
RULE 44.

STATEMENT FOR REHEARING

It is now to revive the Faith in my Writ
of Certiorari, From it being filed Feb
2018 & being dismissed April 15, 2019 . . .

DENIED. Although successful, March 11, 2019 with the Michigan Attorney General's Office WAIVING that they had not intended to be a contending RESPONDENT to the content for which my allegations were so serious that its expungency for 2 criminal convictions & release from within the Michigan Department of Corrections, I must plea to the U.S. Supreme Court to hold the (Non) Respondent to some form of default to [overturn], together, the Denial interpretation of 4-15-19, as would the incriminated double convictions would entail release from unlawful imprisonment . . . because of inhumane conspired & grossly negligent living conditions against a mentally ill diagnosed prisoner. Summarized, I conclusively raise

the provision For Habeas Corpus . Habeas Corpus cannot be used to use unconstitutional review of classification issues but while it can be for unconstitutional conditions of confinement .

Its to give those another option whom have to fit the extraordinary parameter of 28 U.S.C. § 2254 . I lost my representations ⁽⁴⁾ angle in State court , convicted 11/4/13 . Though my defense was unmistakable , the state court record shows I was given an account of raising a defense without scrupulous moral principal . . . all while wrongfully satisfying the dockets I been denied to Plea Not Guilty By Reason of Insanity pursuant to (MCR) Michigan Court Rule . May the grounds of , no contest , default & non respondent hold weight herewith thereof . I wish not to provoke this Court into any challenge on part

Requesting Rehearing Petition Page 4 of 5

For the Respondent non responding. In all my 8 years fighting the cases, the defense rested finally indiscriptively March 11, 2019.

May the Court's Panel also know my State court defense was the same making of the whole for the release from unlawful conditions of confinement, under 28 § 2254. Within my Habeas petition was 3 grounds: I was incriminated, I was held unlawfully & I had been denied parole preparation in the course . . . to be expunged, released & free of parole, equitable as time served however the Court should prescribe.

Even though my torture being the case, this is my only & fin[al] hope confirmable by the Exhibit A Basic Info. Report Howard v. Wash.

Mich. 3rd Cir. No. 19-004158-cz . . . & exhaustion mandate satisfied to reach the Supreme Specification.

I ask the Court to use, urgently seek out by method, & apply by any reasonable doubt as best can be determined & allow circumstantial evidence to be at least sufficiently compelling enough to give benefit of the doubt in favor of the Petitioner, & not the trail of courts or the (Non) Respondent in of 'this' lesser faith that obviously represents them in proper-lack there of. The grounds remain: I should be cleared of the criminal convictions limited to any other convictions beside it or before it, non intervening & released from unlawful confinement & immediately without parole, in good faith its not to delay ... pursuant to 2892254.

IT IS HEREBY SO REQUESTED REHEARD.

I declare the above is true by penalty of perjury.
