Re: Bennetfield v. Georgia
GASC No. S18A1410

To the Clerk of Court:

In my first letter of November 5, 2018, I failed to include the lower court opinion from the Supreme Court of Georgia. I shall now include the Sept-10, 2018 opinion, with the October 9, 2018 denial of reconsideration and denial of Stay Remittitur.

I'm an indigent Pro, se litigant asking this Court to send a Writ of Certiorari pack, including the application for Fumus Propteris.

Also, I ask for 90 days additional time from the date of October 9, 2018, date of denial of the motion for reconsideration, pursuant Rule 13.5, 29, and 30.

Due to the limited access to the law library at this facility to litigate and research my grievances, from the adverse judgments and to acquire the forms necessary to litigate those claims which can only come from the Clerk of Court, I ask for this additional time for filing the Writ of Certiorari.

This law library is limited to (2) hours a week to research, unless a standing order is pending within 30 days of a hearing, of which can then be granted an addition (2) hours a week, unless the Court grants otherwise.

This facility does not offer any forms necessary to litigate at this level of Court so I have no recourse but to use this letter at present.

As I will send a copy of this letter to the opposing party

Sincerely
Michael Bennet
