QUESTIONS PRESENTED

Whether the Eleventh Circuit Court of Appeals infringed the ex post facto clause, *depriving Petitioner's right of remedy sustaining no due process at all ever existed below and up to above*, by applying the amended rule eff. 12/1/2017 retrospectively to affirm the appeal and not instead applying the rule that was under review the pre-amended rule from proceeding in 2016.

Whether the Court as "original jurisdiction" to review the Courts of Appeal noncompliance with this Court's directives on the application of amend/new rule to the Federal Rules of Bankruptcy Procedure.

On April 27th, 2017, pursuant to 28 USC 2075, this Court directed all courts below on the application of amended Fed. R. Bankr. P. 3002©; *"shall take effective on 12/1/2017 governing bankruptcy cases thereafter and pending if practicable"*. The amended rule provides: *"a proof of claim is timely filed if it is filed not later than 70 days of the order of relief"*

The Court of Appeals affirmed the appeal concluding *"the bankruptcy court did not deprived Soler's of due process by the closing the case when it did because her proof claim on behalf of the creditor's came too late was not filed within 30-days after 70-days from petition filing date"* although the rule under review was the pre-amended rule from proceeding in 2016 which was *"within 30-days after 90 days from first set 341 meeting of creditor date"*

Had the Court of Appeals applied FRBP 3002© of 2016, *the rule that was under review-the pre-amended rule*, Petitioner's appeal would have been reversed.

REASONS FOR GRANTING THE WRIT

A question of Constitutional law never seen before shouldn't have even occurred at all shocks all law conscious if it does and it did, outrageous as it sounds to be for it is, a *Court of Appeals on appeal review violating the ex post facto clause* to be able to affirm to avoid not to reverse as it was by the other 2 courts below it, all 3 federal courts annihilated Petitioner's right of remedy 3-times which affirms due process never existed at all from below up to above. [2]

This case will settle what this Court been muddling throughout the years *ex post facto in the civil context* but not in the norm but during appeal review process which has never happen which this Court never having it to grant, so why even grant it.

Notwithstanding this writ likely will not be granted for being compounded 2 ways highly denied, Debtor-Petitioner still having hope still having this last chance to at least try which brings peace even if again defeated so as a matter of law on the question presented further says;

Petitioner obviously didn't find a case nor state nor federal and clearly not any at the U.S. Supreme Court that did had a case like this one but Debtor-Petitioner cites 2 cases from this Court that somewhat comes close relating to the question raised and the facts how the ex post facto violated occurred.

In *Rogers v. Tennessee*, 532 US 451(2001), although wholly unrelated not coming

2

Obviously for what shocked the conscious as a matter of fact for the matter of the law written in black on white for all to read all that practice law and wears a robe is an embarrassment to a Court of Appeals that this Court will obviously be heisted to even take up the case on that fact alone after already the granting of the writ will be highly unlikely for being filed by a nonmember of the bar the highest of percentage of all writs denied in the first place.

from a federal court of appeals but from a state appeal court that is highly directly related if due process was violated by the State Supreme Court retroactively abolishing a rule in deciding the appeal. *(5-4 due process was not violated nor does petitioner suggestion that it did to the level of due process violation of Bouie v. City of Columbia, 378 U.S. 347 (1964))*

The 2nd case an 1810 case somewhat related in the procedural context but at a different level of the case; *United States, v. Hall & Worth*, 10 U.S. 171 (1810), *(affirmative defense available during the time of the alleged offense and later not at the time of trial)*

Thus, since *Bouie* came after Hall and Rogers came after both *Bouie* and *Hall*, *Rogers* controls here since there's nothing about here after Rogers and even if Rogers does not control, is just as to a matter of fact not but not but does control here as to a matter of law on the question raised if Petitioner was deprived of due process for no right of remedy by the Court of Appeals retrospectively applying the amended rule, *ex post facto act per-se*, to affirm the appeal, *punitive result per-se*, and if it did applied the rule before amended the rule that was the issue under review, *reckless disregard of the law that was clear in black on white said it was 2016*, the appeal would have been reversed remedy given due process cured.

This case does raise to a clear violation of due process by the Court of Appeals retrospective act under the concept of *Hall* not *Bouie*.

This case does raise to a clear violation of due process by the Court of Appeals retrospective act under the concept of *Hall* not *Bouie*.

A question of "original jurisdiction" on the constitutional functions of this Court statutory duties under 28 USC 2075 that directs all courts below on the application

of new and amended rules of the bankruptcy rules of procedures.

This Court with original jurisdiction to enforce its statutory duties upon any court below that has function unconstitutionally during appeal review for decision on the merits.

Petitioner's Personal Statement as to the issue of the writ

Obviously, the Court of Appeals panel Circuit Judges attorney and clerks mess it up not thinking clear ok Petitioner understand no one perfect but why not fixing the mistake since Petitioner did file rehearing so the panel knows it clear.

Did any panel member every got to read the rehearing and the attorneys the ones that did and didn't want any panel member to see the wrong they affirmed under oath.

Maybe that and why Petitioner also filed a petition to stay the mandate to again make a effort to correct such wrong act on appeal review, but no the mandate was not filed never was entertained for the clerk saying untimely when it was not so since that also was done wrong again so it looks more clear that the Circuit Judges of the Court of Appeals are having others do their job and those won't handle the truth they were wrong because they will have to answer to their Circuit Judge boss if they can stay with their job never should have been giving the job in the first place.
