Washington, DC 20543

Re: Time; 18-1476 Wazney v. Chase

Dear Clerk or to whom it may concern:

I received "MANDATE" for the case referenced above on November 12, 2018. I have started my papers for Writ Of Certiorari but it will be impossible to finish them in the short time allowed. I have two (2) other US Supreme Court writ of certioraris to do under all at the same time and with the same due dates. I am also handling other litigation in the South Carolina courts pertinent similar issues all stemming from frozen assets, misconviction, and court maladministration. I am trying to produce these writs under the retaliatory environment of prison, while conducting slave labor, and where the law library has heavily abridged its access time to accommodate inmates after the massacre where 12 people died here at Lee Correctional on April 15, 2018. Premises considered, I need more time and request 60 days extension to prevent a gross miscarriage of justice, in the interest of justice.

I, the undersigned, have contemporaneously served all parties associated with this action, addresses listed below, by placing the same in the prison mail system US Mail postage prepaid on the date titled above. I declare under penalty of perjury the foregoing is true and correct.
