Statement Information

Date:Time reflects the transaction date and time of deposits and withdrawals to the account during the statement period.

Description is a brief memorandum describing the transaction.

Tran Amt is the amount of the transaction; deposits are shown as a positive number, withdrawals are shown as a negative number.

Balance is the actual balance of the account. All deposits and withdrawals are added and subtracted from the 'Balance'. If an account has a negative balance an 'Available Balance' will be derived according to AR 200-2.

Available Before W/H is the derived available balance where 50% of deposits are made available when the actual account balance prior to deposit is a negative amount (Ref. AR 200-2). This amount is derived prior to mandatory withholding.

Encumbrances are amounts placed on hold pending further processing by the banking system, such as when a canteen order is posted or a deposit is subject to mandatory garnishment rules. The amount, type of hold, and a total (as of the Date:Time) is reported.

Available Balance shows monies available for withdrawal at the end of the transaction. The time precision for all transactions is to the minute; encumbrance total may duplicate for multiple transactions if the transaction date and time are identical.

FC (Facility Code) is the offender's facility assignment at the date and time the transaction was posted to the account, not the originating source of the transaction.

NOTICE: This statement may not include most recent Withdrawals or Deposits.
