## **QUESTIONS PRESENTED FOR REVIEW**

1. What if district court abused its discretion by not relying on the erroneous legal premise that a citizen(s) of the state of Louisiana and this great country deserves a fair trial by jury?
2. Why couldn't evidence to be presented in a timely manner as stated in the constitution, would appellant and citizen(s) open to attacks, injuries, and other hateful actions brought on by Appellee(s) and others?
3. Assuming – if this Court of our country would have properly addressed this matter the outcome would have been resulted, by evidence presented to trial and jurors. In failing to properly comply with its own laws and rules of the United States of America appellant was force to file appeal.

## **PRESENTED ARGUMENT**

The conspiracy forming the basis of this lawsuit is factually intensive, Appellant, respectfully requests oral argument, this appeal will require the Court to interpret the law establishing limitations on a plaintiff's recovery against a liability insurer in a direct action of Appellee(s). This appeal also will require the Court to determine whether Louisiana laws imposes an evidentiary requirement were crimes committed, violated civil rights, voting rights by treason, imprisonment, sexual assaults, fraudulent uses government funds, law and medical malpractices and others to corrupt the justice system of Louisiana with the use of Louisiana Communication Services to enter evidence at trial in order to give proven liability to those who's levels are not above the law.

Oral argument may assist the Court in resolving these issues.

## REASONS FOR GRANTING REVIEW

1. The United States District Court Eastern District of Louisiana did not grant appellant a court date or trial on four cases, holding information for months calling information provide frivolous without seeking trial with jury to justify statement. 28 U.S.C. § 1915(e)(B)(i)
  - Court documentation available at Jefferson Parish 24<sup>th</sup> District where protective orders was filed several times, against Appellee(s)
  - Documentations also available with Police Reports and complaints filed in Kenner, Jefferson Parish, and New Orleans Louisiana
  - Medical and Law malpractice documentation/information available across the Cities of New Orleans, Jefferson/Metro, and Kenner Louisiana areas
2. Assuming - somehow the courts failing to provide a court date or trial jury date contributed to on-going activities by not pursuing Appellees, not giving appellant the opportunity to introduce evidence of its policy limits at trial,
3. The Eastern District Court of Louisiana repeatedly abused its discretion in denying relief, even when appellant resolved issues in a timely manner upon request.
4. Based on information's location by professional and government agencies the Eastern District Court of Louisiana should have without doubt grant appellant the consideration and opportunity

to prove case in United States District Court of Appeals
