IN SUPREME COURT OF THE UNITED STATES  
Washington D.C.

CHARLES ROCHESTER (Pétitionner) Vs. FORTUNE SOCIETY (Répondants)

## AFFIDAVIT IN GOOD FAITH

I **Charles Rochester** does understand the limitations place on this application. However: I also realize the damage upon the Court and violations of Due-process and Equal Protection of the laws also I understand what Abuse of Power can do to the entire juridical system. , Since there are no real laws protecting the job applicant from being openly discriminated by abuse of power, at hiring job interviews.

I aver these un-review issues, and countless violations of the poor and the 14th amendment, and court procedures that allowed the defendants to shield wicked behavior and reward disrespecting the Constitution cannot be taken as a light matter, that will place all cases even Death Row cases at risk, so with that said. I do swear under the penalty of perjury, this **REHEARING APPLICATION IS NOT FIRVOLOUS**, and that it meet the standard of good faith, due to the fact the allegations are truthful and did happen as it was written, and revealed and haven't been disputed truthfully, in a public hearing or denied by the defendants with facts , that due- process is at the heart of the Rehearing and abuse of power that need to be regulated due to Federal Question of Jurisdiction being attacked

I call upon the Honorable men to set aside your power, to dismiss at will a **Writ**, when this is no longer about my case, but about the rights of the constitution and men, who abuses their power nor respect the rules and regulation and customs of their own Non-Profit and State on New York Policies.... The petitioner haven't been proven to lie or deceit the courts and done his civil duty, as a former New York State Division of Human Right **Intern**, who was trained and had a duty to report misconduct, and with doing that the defendants retaliated and silence me by abuse of power, while leaving the misconduct in place, to victimize again, by abuse of power.
