## STATEMENT OF THE CASE

Petitioner Dobson - El <sup>no contest</sup> pled ~~guilty~~ to Second degree murder, 3 counts of assault with intent to commit murder and malicious destruction of property and was sentenced to 264 to 528 months in the Michigan Department of Corrections all under duress in the delay of his trial and under coercion and misrepresentation/ineffective counsel. The petitioner actually was in the act of self defense during the alleged charged and gave statements as such and other evidence in support of his self defense was discovered. The petitioner attempted to receive a speedy trial even requested as much, but was stonewalled by the prosecutor's office and forced to plea under duress because of the prosecutor's actions and counsel's ineffective counseling. See the attached Delayed Application For Leave To Appeal to the Michigan Court of Appeals.

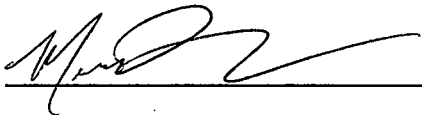

## REASONS FOR GRANTING THE PETITION

Petitioner states that his petition should be granted because the Petitioner originally desired to go to trial because he acted in self defense, but, his attempts to go to trial and make his case was thwarted by the office of the prosecutor (whom actually never disputed the self defense argument) which prejudiced the petitioner personally and the Petitioner's defense, because the Prosecutor's office is stonewalling in the delay of obtaining lab reports that were never produced in any event that were critical to the defense argument of self defense. The Petitioner's State and Federal Constitutional rights were violated. The four days less of a full 18 months is minute in ~~any~~ reason for denying Petitioner relief. The gross violations by the prosecutor and defense counsel resulted in petitioner's duress and petitioner making a plea there under instead of going to trial arguing his self defense as asserted before he suffered duress and pressure to plea by the Prosecutor's office, court, and defense counsel.

## CONCLUSION

The petition for a writ of certiorari should be granted.

Respectfully submitted,

---
