CERTIFICATION OF FILING PETITION FOR REHEARING IN GOOD FAITH.....	

QUESTIONS PRESENTED

Did petitioner suffer insanity and episodes of incompetency and was unable to respond to court

Decisions from 1988 when the original civil Rights Complaint was filed, until now, because of insanity and incompetency.

REASONS FOR GRANTING THE PETITION

1. Petitioners request rehearing of the Petition For Writ of Certiorari on grounds of, Intervening, Controlling and substantial issues, (incompetency, insanity, comprehension and literacy issues), which causes petitioners to suffer insanity and episodes of incompetency.

2. Attached in the appendix in exhibit (A) is six different medical documents that was submitted to Henry

Ford Medical Center, Neurology Department, in Detroit Michigan on December 16, 2019. These medical records indicate that petitioner sustained a traumatic brain injury and have developed the rare brain disease, (hemosiderosis). Hemosiderosis is caused by repeated brain hemorrhage.

On December 16, 2019 petitioner submitted these medical records to Henry Ford Medical Center, Neuro-

logy Department in Detroit Michigan to get a second opinion because, on February 8, 2019 Henry Ford Medical Center, Mental Health Department conducted a neuropsychological evaluation of petitioner. In the neuropsychological evaluation report conducted at Henry Ford Medical Center, Mental Health Neuropsychological Department, the report states that petitioner did not sustain a traumatic brain injury. Please see

appendix (B), the evaluation report.

3. Petitioner have an appointment scheduled for January 28, 2020 at 1:30 p.m. at Henry Ford Medical Center, Neurology Department, to get the results of the second opinion of the traumatic brain injury.

Despite what ever the results of the second opinion of the traumatic brain injury may be, the evidence prove that petitioner did sus-

tain a traumatic brain injury.

4. On January 28, 2020 at 1:30

P.M. petitioner was seen at Henry Ford Medical Center, Neurology Department to address the issue of

a traumatic brain injury with

doctor Bradley Howell. At the con-

clusion of the visit, petitioner was

informed by doctor Bradley Howell

that he addressed the issue of

post traumatic stress. See attached

in the appendix, exhibit (C), the

after visit Summary.

On January 22, 2020 at 11:00 a.m.
petitioner had an appointment at
the Social Security Administration
office. On that day petitioner
requested a medical review but
was denied.

The fact that the Social Security
Administration and Henry Ford Medical
Center are refusing to conduct
a to conduct a medical review of
the traumatic brain injury and

Further acknowledge the brain injury, Wayne County Community College in Detroit Michigan have placed petitioner on academic probation and preventing petitioner from obtaining financial aid to attend college and further his education and the Social Security Administration are refusing to conduct a medical review and further preventing petitioner from becoming gainfully employed.

5. Attached in appendix (D) is a psychiatric evaluation report that that was conducted at the Michigan Center for Forensic Psychiatry on June 22, 1992 which deemed petitioner incompetent.

Attached in appendix (A), document number five, is the forensic evaluation report that was conducted at the Federal Medical Center in Rochester Minnesota on February 19, 1990. The report deemed petitioner

insane and incompetent.

The State of Michigan, the State of Alabama, the United States Government, and several physicians refuse to provide petitioner the appropriate medical and psychiatric treatment to restore petitioner's competency, continue to conceal the true nature of petitioner's disability which is post traumatic stress and a traumatic brain injury and not schizophrenia.

CONCLUSION

Based on the facts mentioned above, petitioner request that the Supreme Court of the United States, grant petitioner's Petition For Writ of Certiorari.
