

IN THE SUPREME COURT OF THE UNITED STATES

CASE NUMBERS 19-6577 & 19-6578
in re: Smith v. Haynes & Smith v. Washington

MOTION FOR REHEARING PER RULE 44

Comes Now Petitioner, J. Garrett Smith, P.E.,
timely filing (within 25 days of 1.13.20 denial orders)
this Rule 44 Motion for Rehearing of his cause
that represents exceptional circumstances and
substantial damages, relief from which cannot
be obtained in any court in the 9th District.

As the 2 attached Exhibits indicate, the
State of Washington is usurping its authority to
steal Smith's LIBERTY as a weapon to conceal
their theft of my PROPERTIES... and this is directly
causing significant loss to the US Treasury, too.

If this case appears to be outrageous, that's

because it IS an outrage.

Washington's corruption is on par with that of a 3rd World country, only worse. Because, for example, in Angola, there were no attempts to lie about their corruption, whereas in Washington, government officials make meticulous arrangements to disguise and cover their corruption.

This dynamic is no more evident than this sham case where a productive cleanTECH businessman and Professional Engineer is wrongfully imprisoned based on evidence that does not exist for a crime that did not happen.

Exhibit 1 calls to attention the criminal nature of Washington's atrocity against Smith, including a legally-binding Notice of the extraordinary financial damage, TO AMERICA,

That This Court should take very seriously, by Law and for Justice and civilized Order.

Exhibit 2 Then contains a simple deposition of Fact that succinctly describes the mockery of US Law that started against Smith in June of 2013, and continues unabated.

As the Highest Court in America, This Court should intervene with prudent haste to stop this present atrocity.

Humbly & Earnestly Submitted under penalty of perjury on this 5th Day of February, 2020:

• Exhibit 2 - DEPOSITION OF FACT

I, J. Garrett Smith, PE, do hereby depose and certify the following to be true and factual:

I was indicted for Attempted Murder on 12.10.13 by Clark County Superior Court in Vancouver, Washington. The sole charging instrument was an affidavit filled out by VPD Detective Sandra Aldridge, who claimed to have discovered a threatening voice mail on my Oregon-corporate owned iPhone, that was actually logged into VPD custody 38 minutes BEFORE the alleged incident for which I had been arrested on 6.3.13.

No judge has ever signed the VPD's Probable Cause document that has since been proven, and legally averred, to be completely based upon fraud in the form of a police-fabricated acoustic mix of computer-generated sounds on a CD that is NOT an actual voice mail, nor from my iPhone.

I was arraigned for the charge of attempted murder on 12.11.13. During that arraignment, presiding Judge Suzan Clark was seen to feign her signature to the Probable Cause before handing the unsatisfied document to the Court Clerk. The MANDATORY "Court Determination" via judicial signature was NOT obtained by 12.12.13 within the 48-hour time limit for ratification of charging instruments in criminal cases.

Indeed, NO COURT OR JUDGE ANYWHERE HAS EVER ratified the bogus charging document describing evidence that is not real for a crime proven to have never happened.

Clark County judge Scott Collier nevertheless proceeded to assume jurisdiction while I was restrained for the government-fabricated and unsatisfied charge of attempted murder.

• DEPOSITION OF FACT (continued)

Then, in November of 2014, judge Collier recused himself from my case due to his past dealings with the alleged victim, and my case was assumed by judge Robert Lewis, who had an even greater, more recent, and more scandalous history with the alleged victim. In fact, Collier & Lewis had even conducted similar "bait & switch" tactics in order to usurp the Washington Superior Court with the same staged victim, a woman who it was later discovered had only fraudulently pretended to marry me on 1.1.11, also in Vancouver, under alias pretenses and without the authority of her Guardian ad Litem (a condition that voids the "marriage" on its fraudulent face, per RCW, even though Clark County judge Fairgrieve refuses to honor such simple law).

Without any semblance of jurisdiction to conduct the bench trial (that I had reluctantly agreed to while Collier still presided because I was deceived that it would be another 18 months before a jury could be assembled), Lewis struck from the record over 150 counts of "perjury worthy of impeachment" by the Prosecution, and sentenced me to 12 years in prison in a fraud-laced, invalid and illegal T&S that remains permanently and irreconcilably un-backed by requisite Due Process under Law (14th Amend, §1).

Aldridge has been indicted for, literally, hundreds of criminal abuses in multiple states. In the midst of documented unlawful censorship of my access to Courts and to Public Records (in violation of RCW 42.56), it is my best understanding that Aldridge has finally been imprisoned for her domestic terror.
