

Supreme Court of The U.S.

Office of The Clerk

Washington, D.C. 20543-0001

Virgil Lamont Jarvis

CASE No. 19-6783

✓

David Allison, Sheriff, Pearl River County, MS, et al

Petition For Rehearing

Comes now Petitioner pro se, Virgil Lamont Jarvis in the above and numbered case with this his Petition For Rehearing in this Court, and in support thereof Petitioner States the Followings under penalty of perjury to-wit

On 2-27-20 I received by mail from Clerk of The U.S. Supreme Court, Scott S. Harris a simple two line statement that this The Court has denied my petition for a writ of certiorari

With upmost respect to the Highest Court of the land, I need more than the order stating that my case has been denied. I need to understand why it was denied as well. There is no legal explanation as to the reasoning for dismissal, when my arguments of law with supporting cases have been argued before the Justices, do I not deserve a legal explanation as to why my case is being denied and whether it was a 9-0 or 5-4 decision? But not just that as a request for rehearing, I will now state the circumstances of substantial and controlling effects not previously presented giving rise for further review required for rehearing under Rule #24 of the Supreme Court Rules.

In Accordance with Rule #44 of The Supreme Court Rules, the circumstances of substantial and controlling effect not previously presented is that Petitioner in this case settled an excessive use of Force claim against The Pearl River County Sheriff Department and Former Sheriff Joe Stewart in 2007. Former Sheriff Joe Stewart and Warden/Major Flowers were working for current Sheriff David Allison at the time of the filing of the original complaints at the Administrative level of the Pearl River County Jail in this case and each may still do. They advised current Sheriff David Allison that the only chance at defeating my § 1983 complaint was to claim that I never filed a complaint at the Administrative level as that was ~~there~~ their only option for a defense. Allison also used the same law firm as then Sheriff Joe Stewart.

There are two people who were inmates on the dates I filed those complaints at the administrative level. They were in the B-3 lockdown area of the Pearl River County Jail with me and can and will confirm that I did file an inmate grievance at the Pearl River County Jail and Warden/Major Julia Flowers refused to process my complaint. I have, and I continue to not reveal their names because they have asked me not to unless they are being subpoenaed for court out of fear of retaliation because they still live in Pearl River County. The other key person in this claim is Warden/Major Julia Flowers because she too was on staff under former Sheriff Joe Stewart at the time of my § 1983 complaint in 2005, the one I settled in 2007, in the U.S. District Court Southern District of Mississippi, Gulfport. There are medical records & video footage that fully support my complaints in this § 1983 complaint, but because of Defendants lies about the filing of a complaint at the administrative level, to the U.S. District Court, my subpoena request for those records are being denied, and now even this, the highest court in the land, is being deceived by the Defendants. If this court was to order that I be given my right to discovery, subpoena of those medical records & video footage, and jury trial these facts would come out, my complaints vindicated and true justice will prevail.

This petition in and of itself I certify is restricted to the grounds specified in Rule 44 (Rules of Supreme Court) And that is presented in good Faith and not for delay. These circumstances of substantial and controlling effect not previously presented that I will now further present is the fact that Sheriff David Allison who does substantial business in Pearl River County, is also doing this in part to stall or still Petitioner's \$ 7.20 Billion Dollar Economy Boosting - South Mississippi High Rise Golf & Games Resort Development Plan, an \$ 8.3 Billion Dollar Rethink and New Approach to our 2 million + Truck Driver Shortage that can reduce the overall crime rate in the U.S. as a whole, and decrease the U.S. prison population simultaneously while also lowering the recidivism rate and allowing Department of Corrections across the country to implement the program that will secure opportunities to be more self productive and less government dependent. David Allison is attempting to stall or still Petitioner's plan that will boost the Economy, create close to 6 million jobs, and maybe even eliminate the erosion of the state of LA coast line with the dirt removed while building the over 600 acre

lake of the South Mississippi High Rise Golf &

Games Resort. These are substantial circumstances that require investigation because I fear that because these economy boosting & job producing ideas are not David Allison's ideas, not only will his Sheriff's Department have gotten away with retaliatory actions of excessive use of force, double ~~down~~ jeopardy, racial discrimination, and due process violations, all in violation of my constitutional rights, the intended economic impact intended for the whole of America may never be recognized because of Mr. Allison's political aspiration.

Furthermore if this court does not reverse the order of dismissal in this case it is my fear that this unethical and dishonest approach by David Allison, et al and this Brookhaven, MS law firm will become extremely common in the future defense of inmate legal claims making it virtually impossible to defeat unethical, dishonest, and unconstitutional actions taken against those of us who are incarcerated.

Respectfully Submitted

x Virgil L. Jones
