**ORDER OF REEMPLOYMENT ASSISTANCE APPEALS COMMISSION**

---

This case comes before the Commission for consideration of an appeal of the decision of a reemployment assistance appeals referee. The referee's decision advised that a request for review should specify any and all contentions of error with respect to the referee's decision, and that contentions of error not specifically raised in the request for review may be considered waived. The Commission has jurisdiction pursuant to Section 443.151(4)(c), Florida Statutes.

The Commission's review is generally limited to the issues before the referee and the evidence and other pertinent information contained in the official record. The referee has the responsibility to develop the hearing record, weigh the evidence, judge the credibility of the witnesses, resolve conflicts in the evidence, and render a decision supported by competent, substantial evidence. The Commission reviews the evidentiary and administrative record and the referee's decision to determine whether the referee followed the proper procedures, adequately developed the evidentiary record, made appropriate and properly supported findings, and properly applied the reemployment assistance law established by the Florida Legislature. The Commission cannot reweigh the evidence and the inferences to be drawn from it. Further, absent extraordinary circumstances, the Commission cannot give credit to testimony contrary to that accepted as true by the referee.

Having considered all arguments raised on appeal and having reviewed the hearing record, the Commission concludes that the referee sufficiently followed the proper procedures and the case does not require reopening or remanding for further proceedings. The referee's material findings are supported by competent, substantial evidence in the record. The referee also correctly applied the law in deciding the case.
