QUESTION(S) PRESENTED

- ① Is the request to have the plea of this case, of case # 0905126-9 of Stokes county N.C., nullified clear as the relief Joshua Bolen seeks?
- ②? Is this court going to uphold this conviction that admitted the 6th amendment of the U.S. constitution and coerced a guise permission slip to make that amendment 6 irrelevant: can a person really sign away the U.S. constitution's guaranteed rights, and so consequences, making that constitution of no effect to him?
- ③? Is this court going to uphold a conviction of N.C. that defiled amendment 14th to the U.S. constitution, that in latter part is a [purgare] glory right, as well as a person's safe haven of protection to respond to a physical threat of hate against his family with deadly force? (United States nor any state shall assume or pay the debt for the loss of any slave; but all such debts, obligations and claims shall be held illegal and void.);
- ④ Is it clear, that even after nearly 11 years of a 17 year sentence, Joshua Bolen just requests the coerced plea agreement in the above referenced case nullified?

CONSTITUTIONAL AND STATUTORY PROVISIONS INVOLVED

U.S. constitution

amendment 6 for trial rights,

and

amendment 14 for purging hate

and the right to protect your family
inside your home.

STATEMENT OF THE CASE

Joshua Bolen was coerced into a plea agreement, after 6.5 years waiting for a trial, omitting and contrary to 'due process' of law.

Joshua Bolen only seeks the forced onto him plea agreement in this case nullified so 'due process' of law can exercise.

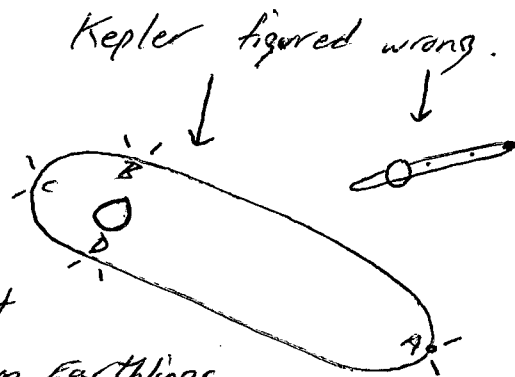

[Novus ordo seclorum] and non-hate.

Correct.

Kepler wrong.
2 is
sumerians' diagram was
correct.

Kepler explained erroneously that Earth gets from location A to B in equal amount of time as B to C, implying Earth slows & accelerates in orbit yet no G-force is felt. Also in Kep's diagram Earthlings would see a different set of stars per letter-location/season but people don't: Joshua Bolen's personality has diagrammed above why people see the so many of the same stars, but at diff angles, throughout the year.

REASONS FOR GRANTING THE PETITION

Same as Statement of the case.

Briefly: Albert Einstein clearly saw space as an elastic thing but that's not correct. A. Einstein said gravity is caused by matter putting a curve in space-time, a dent in space: but once you understand space you see that although matter does cause gravity, that gravity then effects even space compactness, effecting the amount of time to get through that space; and since time doesn't change in normal space though an area's space density compactness varies, comparable to thick water vapor vs dry air: there goes A.E.'s General Relativity theory & his Special Relativity theory as they are.

$E=MC^2$ simplified is $E=m$: losers.

Kepler's fails & Einsteins fails corrected explain observations ^{from} ~~at~~ Earth such as star locations, South Pole area's air Willie Wears, Stone Hinge, Levi 9's fate, why the calculation of a year credited to the Maya is something like .004 of a day diff than modern day calcs of an Earth year, a future theory of everything, Do u want to talk what Watson & Crick didn't reveal about DNA, why most air travel may 'soon' feel more a bad idea even for the frequent flier, what actually causes light's Red Shift in outer-space, truth of the image of the beast, why perpetual motion is not impossible, what Black Holes actually are, a solution to the leap years dilemma and why it's irrelevant,

You want to discuss clean energy made stupid-simple, the future of vehicular travel: engines/motors, & outer-space propulsion for when we are accepted.

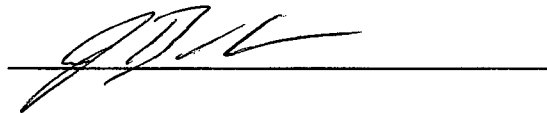

Joshua Bolen's personality will help change things on Earth for the better more than any Earthling in modern history, 'by far', but with his identity veiled; and partly only because he can so to say stand on the backs of those that came before him.

[*Novus Ordo Seclorum*]

CONCLUSION

The petition for a writ of certiorari should be granted.

Respectfully submitted,
