## QUESTIONS PRESENTED

The global community is facing the most egregious crime ever committed against humanity as in the invention or fabrication of Coronavirus aka COVID-19, a virus that doesn't exist, but now entering the last phase which is "illusion of immortality" which means the COVID-19 scammers (WORLD HEALTH ORGANIZATION aka WHO) are pushing for every human to embrace "illusion of immortality."

The questions presented are:

1. Whether DOJ officials have the authority to block \$25,000,000 in loan secured by Petitioner to retain attorneys to prosecute the COVID-19 class action challenge including partnership with the United States because petitioner filed motion for intervention as "Plaintiff-Intervenor" joining United States, the Plaintiff in a civil forfeiture lawsuit.
2. Whether petitioner (and global community) is entitled to relief pursuant to 28 U.S.C. § 1651(a) to compel DOJ officials to sign the contract, accept the \$2.5 billion cash offer from petitioner to purchase assets seized by DOJ from a website that engaged in criminal activities which is bound for auction and finally allow petitioner to gain access to already secured \$25,000,000 (\$25 million) loan to cover expenses regarding the COVID-19 class action challenge, or other relief as the Court deemed appropriate.

## **PARTIES TO THE PROCEEDINGS**

Petitioner (Plaintiff-Intervenor in the district court and appellant in the court of appeal for the ninth circuit) is Adesijuola O. Ogunjobi.

Respondent in this Court is David L. Anderson, United States Attorney for the Northern District of California. Respondents also include Assistant United States Attorneys Matthew M. Yelovic, David B. Countryman, Chris Kaltsas, Claudia Quiroz and William Frentzen.

## PETITION FOR A WRIT OF MANDAMUS

Adesijuola Ogunjobi respectfully petitions for a writ of mandamus which is an extraordinary remedy, which should only be used in exceptional circumstances of peculiar emergency or public importance in this case to order and compel United States Attorney's office for the Northern District of California to cease interfering (indirectly) the public's right to COVID-19 class action challenge that was filed on June 1, 2020 in the United States District Court for the Eastern District of Virginia Richmond Division due to \$25,000,000 loan secured to prosecute the COVID-19 class action challenge to determine if COVID-19 is real or not because at this stage COVID-19 is a scam, hoax and total fraud and the challenge is proper. Cash offer was proposed by petitioner to purchase all the assets (bitcoins and cryptocurrencies) seized by DOJ officials from a website and other wallet tied to Silk Road and also make deposit of 3,083 bitcoins into an account of petitioner at BlockFi due to \$25,000,000 (\$25 million) loan secured via signing of loan document with BlockFi aka Bitcoin Lender which requires 3,083 bitcoins to serve as "collateral" against the \$25 million loan which is 12 months which will be used to start pre-trial of COVID-19 class action challenge. [We] got the money to proceed in court to find out the truth on behalf of global community. This will also include any contract or agreement to be signed by petitioner that within 90 days \$2.5 billion in cash will be paid to the United States. Petitioner is not seeking any form of alternative for a writ

of certiorari to review the orders because the orders lack any form of legal precedent(s), furthermore the orders can be classified as “baseless” and “mischievous” orders even though there’re contents. The orders are prima facie and “moot.” Petitioner’s writ is directed to United States Attorney’s Office for the Northern District of California, not directed to the Courts involved.

### **OPINION BELOW**

The orders of the District Court are not reported, but are reproduced at Pet. App. A – B Court of Appeals Order is not reported, but reproduced at Pet. App. C.

### **JURISDICTION**

The jurisdiction of this Court is invoked under 28 U.S.C. § 1651.

### **STATUTE INVOLVED**

The Equal Credit Opportunity Act (ECOA) prohibits credit discrimination on the basis of race, color, religion, national origin, sex, marital status, age, or because one gets public assistance. Federal Reserve Act, 12 U.S.C. Section 343 authorizes any Federal reserve bank may discount notes, drafts, and bills of exchange issued or drawn for agricultural, industrial, or commercial purposes, or the proceeds of which have been used, or are to be used for such purposes. Federal Reserve Act, 12 U.S.C. Section 343(3) authorizes in an unusual and exigent circumstances, the Board of Governors of the Federal Reserve System, by the affirmative vote of not less than five members, may authorize any Federal reserve bank during such periods...to discount for any participant of any program or facility with broad based eligibility, notes, drafts, and bills of exchange when such notes, drafts, and bills of exchange

are indorsed or otherwise secured to the satisfaction of the Federal reserve bank.

The Civil Rights Act 1964 authorizes in civil rights and labor law in the United States that outlaws discrimination based on race, color, religion, sex, national origin, and later sexual orientation and gender identity. 18 U.S.C. §§ 981 authorizes Government to subject a property that engages in unlawful activity to forfeiture.

### INTRODUCTION

Adesijuola Ogunjobi seeks a writ of mandamus to compel the United States Attorney's Office for the Northern District of California to deposit the 3,083 bitcoins to support the \$25,000,000 (\$25 million) loan secured with a bitcoin lender because that \$25 million will start the preliminary prosecution of COVID-19 class action challenge, including using the fund to arrange \$2.5 billion in capital to pay United States for the seized assets (bitcoins) via a contract that specified the amount paid within 90 days. United States like all other countries is bleeding literally speaking because this country has spent almost \$10 trillion funding COVID-19 scam via stimulus checks (some citizens didn't even receive such checks because IRS sending checks to addresses some citizens are no longer there or bank accounts closed) that will never replace regular decent paychecks, created new classes of members of society via bigotry ("essential worker" and "non-essential worker"), and total paranoia to deal with a virus now questionable. United States filed numerous criminal complaints against various parties that led to seized assets (biotcoins) petitioner submitted via motion for intervention to purchase for \$2.5 billion in cash because these assets will be auctioned off, period. However, the Government wasn't

that successful seizing these assets tied to unlawful activities because over \$15 billion or more assets (bitcoins and other cryptocurrencies) disappeared into other criminal hands before the Government got to this particular assets. Interestingly this Court must realize the bigger issue here is not the seized bitcoins, but COVID-19 scam. The assets seized are drop in the bucket compared to COVID-19 scam which is the real threat to this universe, period. The respondents in their response will engage in so-called transaction under Toks or Toks Banc Corp, that's not the issue before this Court because the respondents are not sophisticated enough to digest the talent behind such transaction that will lead to distraction of the real issue before this Court which is the most important issue is funds (\$25 million) secured to start the prosecution of COVID-19 scam challenge. Petitioner is an entrepreneur and entrepreneurs create jobs via ideas. Petitioner is worried that jobs might not be able to be created due to bogus COVID-19 scam that promotes bogus guidelines to limit population or numbers of the crowd which is scary because we're heading to an era where governments can order people to be killed to protect bogus spread of a virus or limit to contract or spread of the virus is the most disgusting manipulation ever orchestrated because diseases or any form of viruses that cause diseases don't spread, people contract diseases and no conclusive data has explained why some people get sick and others don't. This has nothing to do with "immune system" which plays vital role in every human to function daily until the immune system is exhausted and such creature expires. Also immune system cannot prevent one from dying because people have died in many ways without immune system's

dysfunction. Not complicated at all, just stating that immune system has nothing to do with how people get sick and die. Petitioner's role is to enlighten this Court because this Court needs guidance to make UNANIMOUS ruling granting the writ of mandamus. Respondents are incensed and petitioner will not elaborate, only focus on guiding this Court to make the right decision that will impact this generation and next generations to come in the near future across the globe. This generation cannot afford GENOCIDES via bogus COVID-19 vaccines or just mere governments engaging in slaughter of humans to contain spread of a virus because at the end of the day, viruses/diseases don't spread. This Court will be surprised WHO officials are already scaring people of COVID-19 variants and locking people down will never be enough, governments must take drastic measures to contain a bogus virus which is a subtle message to KILL people and to add to this egregious scenario, people already exhibiting this macabre fantasy of trying not to contract COVID-19 scam virus which would lead to subtle message if this virus couldn't be contained, then take out people as in "superspreader"<sup>1</sup>. This Court is facing the most important decision ever presented to any Court<sup>2</sup> on the face of the earth. COVID-19 scam will lead to atrocities this universe has never witnessed. The riot in Washington, DC on January 6, 2021 is a preview of another CIVIL WAR. The cause of the riot is COVID-19 scam. For the first time in history of this universe, peoples

---

<sup>1</sup> Superspreader is the new "terminology" that label certain individuals they're the carrier of COVID-19 virus, but they don't develop symptoms, they spread the virus which is total misconception.

<sup>2</sup> Petitioner is submitting the writ of mandamus Pro Se because DOJ officials keep blocking the access to \$25 million which they know will round up attorneys to pursue the declaration of COVID-19 a scam. However, being Pro Se doesn't mean this writ of mandamus has no merit. The worst human beings got the best lawyers representing them.

across the globe are restricted. Voters in the United States couldn't vote. People can't go out without government officials issuing orders to restrict them. This very Court just enjoined indoor worshipping with limitation which is based on COVID-19 scam as opposed to this Court to reject outright COVID-19 does not exist, people should go and worship, eat, go to movies, etc. The impeachment trial that just ended is misguided and blaming the wrong party, COVID-19 scam is to blame. Period. There are other riots as well outside United States because people will eventually be tired of bogus concerns based on health. COVID-19 scam will cause more havocs because the scammers behind it will never give up of manipulating the global community.

Any death today is defined as unnatural and people that are dead are not humans, even though the Creator made humans mortal, but humans are now "immortal" via recommendation of bogus COVID-19 vaccines, guidelines full of paranoia, 14-day quarantine with no evidence it is "effective," ridiculous and quack testing for COVID-19 via nostrils with cotton swab even if it is seen in a movie it would be that—a "fiction," test results that are so clandestine no one has any clue how they reach such conclusion, radical behaviors like 6 Feet Social Distancing which originated from the era of slavery when white slave owners used to tell black slaves to keep their distance based on brutal treatment of the slaves back then which requires the owners to be cautious because conventional wisdom dictates if one mistreats others, they ought to be careful and keep their distance as opposed to those that treat others with respect need not to keep their distance (keeping one

distance does not guarantee one cannot contract any form of existing virus—total misguided wisdom), mask wearing and gloves with sanitizers with no evidence such recommendation protects people, fines issued out to violators (making COVID-19 a “felony” without statutes), arrests, lock downs that looked like Nazi Germany era, shutting down businesses, Courts divided and confused how to rule on any matter relating to COVID-19 scam, nose diving global economy, divided states and municipalities, standoffs between courts and law enforcement in charge of convicts<sup>3</sup>, confusions, Draconian orders from states, COVID-19 creating extreme poverty today that would make Great Depression look like “Roaring 20s” and scare tactics that make “brainwash” look like IQ test. The de facto “monopoly” the media are exhibiting to report everything about COVID-19 without challenge, investigation, verification is the worst form of journalism (“Yellow Journalism” is a compliment) in the industry that prides itself of First Amendment and Freedom of the Press. Voices are now silenced and suppressed beyond comprehension, no one can question anymore. COVID-19 is now the next “global cult” where an individual that wants to question COVID-19 is ridiculed and media can’t wait to yell out the **“BIG BAD WOLF (COVID-19) WILL GET YOU AND TAKE YOU DOWN”** if you dare question it. Petitioner is the first individual due to his grave concern where this universe is heading to file the first ever global COVID-19 Class Action to challenge the veracity of COVID-19. The COVID-19 challenge class action was filed on June 1, 2020 in the United States District Court for the Eastern District of Virginia as a “Foundation” to address the questionable elements of a virus some people are wondering if it

---

<sup>3</sup> Some court orders were issued to release dangerous convicts based on bogus containing the spread of COVID-19.

really exists other than World Health Organization officials promoting it as the virus that will “annihilate” the planet. Five months after the filing, petitioner secured \$25,000,000 (\$25 million) loan (“funds”) to retain attorneys to prosecute, experts with open mind, investigators, freelance journalists, upgrade website to give public second opinions and investigate all the lies orchestrated by the media. The \$25 million will cover the pre-trial and other elements of the trial. This petition is centered around the \$25 million loan petitioner secured which is being blocked by DOJ officials in San Francisco, California with no solid rule of law to do so other than just plain animosity.

The global community deserves an answer if COVID-19 exists or not. A lawsuit is the only way to challenge it which will allow Defendants to show up in court and defend COVID-19 is not a hoax or global fraud. And Plaintiffs to demonstrate that this is totally a hoax with their own evidence as in “sickness” and “death” don’t constitute pandemic because people are bound to be sick and die every day. COVID-19 vaccines constitute legitimacy of the virus. COVID-19 vaccines are now the new form of global GENOCIDES where peoples across the globe will be forced and coerced to take the toxin vaccines that no one knows what they will do to people down the line after vaccines are administered.

This generation owe it to the next generations to right the wrong of COVID-19 scam before it turned into a disaster we may not be able to fix for centuries after this generation has gone replaced by new generations. People deserve to engage or exercise their right to question something regardless who is promoting such thing.

There were events that led to Civil War<sup>4</sup>, not just one incident. The incidents surrounding COVID-19 scam would eventually eclipse those past events.

### STATEMENT

1. The Government in November 2020 filed a lawsuit on behalf of the United States of America ("Plaintiff") against unnamed party pursuant to judicial forfeiture action, as authorized by 18 U.S.C. §§ 981(a)(1)(A), 981(a)(1)(C), 981(b), and 21 U.S.C. § 881(a)(6), involving the seizure of the following property 69,370.22491543 Bitcoin (BTC), 69,370.10730857 Bitcoin Gold (BTG), 69,370.10710518 Bitcoin SV (BSV), and 69,370.12818037 Bitcoin Cash (BCH) seized from 1HQ3Go3ggs8pFnXuHVHRytPCq5fGG8Hbh ("Defendant"). The lawsuit was later amended.

2. Petitioner filed his own lawsuit on June 1, 2020 under a global class action to declare COVID-19 a hoax with the United States District Court for the Eastern District of Virginia. It was filed as a "foundation" only for lawyers to amend for prosecution.

---

<sup>4</sup> Northwest Ordinance, Kentucky and Virginia Resolutions, End of Atlantic slave trade, Missouri Compromise, Tariff of 1828, Nat Turner's slave rebellion, Nullification crisis, Trial of Reuben Crandall, Gag rule, *Commonwealth v. Aves*, Martyrdom of Elijah Lovejoy, Burning of Pennsylvania Hall, End of slavery in British colonies, *American Slavery as It Is*, The *Amistad* affair, *Prigg v. Pennsylvania*, Texas annexation, Mexican–American War, Wilmot Proviso, Nashville Convention, Fugitive Slave Act of 1850, *Uncle Tom's Cabin*, Kansas–Nebraska Act, Recapture of Anthony Burns, Ostend Manifesto, Caning of Charles Sumner, Bleeding Kansas, *Dred Scott v. Sandford*, Panic of 1857, *The Impending Crisis of the South*, Lincoln–Douglas debates, Oberlin–Wellington Rescue, John Brown's raid on Harpers Ferry, 1860 presidential election, Crittenden Compromise, Secession of Southern states, *Star of the West*, Peace Conference of 1861, Corwin Amendment, Battle of Fort Sumter, President Lincoln's 75,000 volunteers.

3. Petitioner launched a website at [www.toksbancorpeta.com](http://www.toksbancorpeta.com) for fundraising via global press releases to direct people to make donations which was rejected by most PR firms, including so-called press release companies notorious for “censorship” disguised as editorial review to determine if such press release fits the public review which is egregious because going to court serves the public. Petitioner finally withdrew such strategy and embarked on designing postcards to engage in mass mailing via pre-sorted format where various residents across United States will receive postcards in their mail with the website name, amount to donate and in return for Snickers Bar candy box with 48 counts of King Size for free but must be over \$20 and no maximum and anything under \$20 will not receive Snickers Bar. Petitioner contacted Mars, Incorporated the manufacturer of Snickers Bar to start making arrangement to send Purchase Order<sup>5</sup> which actually happened via email provided by the office. Petitioner contacted a warehouse for lease to pay \$148,000 for one year to receive the shipping of Snickers Bars. The pre-sorted mailings will cost \$500,000. The management of Mars, Incorporated never responded to such business solicitation. Amazing a customer that wants to purchase legal products for fundraising and refused. Petitioner abandoned such effort in spite of postcard already designed and ready for printing.

---

<sup>5</sup> Purchase Order is normally issued by the customer, not by the manufacturer, however manufacturer issues invoice after delivery of such product to customer.

4. Other sources like litigation funding was also tapped by contacting investors that invest in litigation in return for a piece of the award damages<sup>6</sup> to the plaintiff.

5. November 9, 2020, emails and faxes were sent to David L. Anderson's office after petitioner read the press release of the seized assets and made an offer to pay \$2.5 billion in cash and partner with United States and informed the office in San Francisco, California and suggested the assets to be transferred to a wallet to be set up in order to borrow funds against some of the bitcoins and pay retainer fees to attorneys to file notices with district court and appeals court that the attorneys will take over the class action. The petitioner went through the process to set up account with BlockFi and signed the loan document for \$25,000,000 (\$25 million) with instruction to deposit 3,083 bitcoins and funds will be transferred to corporate account already set up. Petitioner notified the office of United States Attorney's Office for the Northern District of California about the loan and gave them the "Username" and "Password" to make deposit of bitcoins, send a contract for him to sign and notify appeals court in Virginia to participate in prosecution of the COVID-19 scam challenge class action<sup>7</sup> joining private attorneys.

---

<sup>6</sup> The solicitation was not successful even though on the website it was outlined the largest Global Stimulus and any litigation investors will get a cut in form of stock issue due to COVID-19 scam class action litigation is not seeking damages against the defendants, this is strictly declaring the virus a total hoax, fraud. The agreement is the prosecution costs will be covered by Lead Plaintiff for both parties validating the class action is never about money to squeeze from defendants.

Purchase Order is normally issued by the customer, not by the manufacturer, however manufacturer issues invoice after delivery of such product to customer.

<sup>7</sup> The solicitation was not successful even though on the website it was outlined the largest Global Stimulus and any litigation investors will get a cut in form of stock issue due to COVID-19 scam class action litigation is not seeking damages against the defendants, this is strictly declaring the virus a total hoax, fraud. The agreement is the prosecution costs will be covered by Lead Plaintiff for both parties validating the class action is never about money to squeeze from defendants.

6. Petitioner never heard from the officials at DOJ office in San Francisco, California and filed Motion For Intervention as "Plaintiff-Intervenor" on November 23, 2020 via mail and docketed November 25, 2020 since this is now a contract in form of motion to make it official to pay \$2.5 billion in cash for the seized assets. These assets were never assets of any "victims" of typical fraud from Ponzi scheme where required victims to file claim and established their investment in order to be reimbursed. This is a classic assets forfeited due to unlawful activities. Dope dealers and buyers don't file claims to get their drugs and money back after a raid by law enforcement that result in seizure of drugs and cash inside such premises. That was the real reason petitioner made such offer because he read the complaint.

7. The motion to intervene and approval of counsels submitted to the court was denied by order dated December 1, 2020 which has a typo of \$250 million regarding \$25 million in loan petitioner outlined. Petitioner never wrote \$250 million in loan in the original motion. Also the footnote inside the order stated petitioner affixed the names of attorneys for recommendation which is true because the intervenors consist of entities and other parties from the COVID-19 class action and Pro Se never allowed to represent others, also the motion outlined the real purpose is to use the \$25 million to start the prosecution of COVID-19 class action challenge. The order made it sound that petitioner was doing it as a "fraudulent" scheme but acknowledged that petitioner inside the motion stated he drafted the motion and motion to approve attorneys submitted to the court for approval. Why would any party submit such fraudulent document in the open where it can be detected,

obviously it was never fraudulent because it was submitted for approval. The order further stated such is not condone which is bizarre, this is just submission to approve attorneys and motion for intervention and the DOJ officials were served. Classic “prima facie.”

8. Petitioner submitted the second motion on his own behalf with his own name because the first motion cannot be appealed since the attorneys submitted for approval were denied.

9. Order issued on January 5, 2021 denied the motion and petitioner appealed filing Notice of Appeal filed January 27, 2021.

10. Petitioner filed motions for in forma pauperis and court appointed counsel because he’s Plaintiff-Intervenor along with United States, Plaintiff in the civil lawsuit to forfeit seized assets.

11. Petitioner filed Mediation Questionnaire Form and Supplement for administrative settlement under Circuit Rule 3-4 to engage in discussion with respondents via Circuit Court appointed mediator to sign contract and get the bitcoins deposited to free the \$25,000,000 loan because the purpose of Notice of Appeal is about settlement, not seeking any “precedent.” The “madness” of COVID-19 scam just continues to grow including authorities calling press conference to discuss seizing “fake masks” which is hilarious and bizarre validating everything about COVID-19 is a total scam. Fake masks?<sup>8</sup> What’s next? Fake sanitizers.

---

<sup>8</sup> There will never be such thing as “fake mask” because if the guideline is all about covering one’s face, then anything used to cover such face should be acceptable validating COVID-19 is a total scam to make money because certain people got to pick which kind of mask would protect people. BOGUS.

12. Petitioner filed motion to stay all proceedings at the appellate court under Circuit Rule 27-3 based on grounds offer has been made to purchase assets, loan secured to use funds and mediation requested. Including verified claims are not victims, just trying their luck.

13. Respondents filed opposition to the motion to stay with case laws that did not even address any form of motion to intervene, just case laws full of ironies supporting petitioner's own concern it raised about abuse by verified claims filed by numerous parties.

14. Court of Appeals issued order on February 11, 2021 denying all motions, however the order is "baseless," "mischievous" and "moot." Reasons are one, most verified claims have withdrawn their claims when they found out petitioner made offer to purchase assets because they're not victims, but "vultures" seeking to try their luck. Nothing to lose if court denies them claims. Two, on February 10, 2021, petitioner filed Form 6 Representation Statement with supplement that outlined case laws that supported Courts have no obligation to appoint counsels for civil litigants and by submitting an appellate attorney he contacted to take over the mediation outlining the fees to be paid to the counsel via the \$25 million loan which cures the request for court appointed attorney. The Representation Statement was filed February 10, 2021 and order to deny all motions filed February 11, 2021 which validates the order was purposely filed to spook the attorney petitioner contacted and causing trouble (mischievous). Three, in forma pauperis is "symbolic" because petitioner believes by being Plaintiff-Intervenor joining United States, the Plaintiff,

no need to pay \$500 fee and since Mediation was initiated, there would be no need to submit briefs<sup>9</sup> as scheduled. Ninth Circuit encourages mediation for parties all the time. Also petitioner actually outlined that the \$500 fee will be paid to vacate in forma pauperis as soon as the \$25 million loan is accessed.

15. The attitudes from the courts here are classic “cult” mentality. COVID-19 scam is now a global “cult” and victims of cult display enormous resentment when a party questions the rationality of such involvement in this case the judges and the jurisdiction are based in California and the delusion in California where lock downs are as common as shooting of movies and TV shows on the streets of Los Angeles and inside studio facilities due to California is the entertainment capital of the world. This very reaction is the very basis to sort out this writ of mandamus because it takes money to right the wrong and also it takes money to engage in wrong. The media are collecting huge money promoting COVID-19. Banks have raked in billions in fees for loans guaranteed by government. Hospitals are collecting insurance to cover hospital bills from their bogus treatment for COVID-19. Testing companies raking millions on bogus COVID-19 testing—including employees subjected to twice a week testing where test results are sent via SMS (texts) to the employee and the employer has to pick up the tab. Mask manufactures that are promoting their masks better than other masks. Scammers are raking in huge funds defrauding the government under COVID-19 so called funding. COVID-19

---

<sup>9</sup> Petitioner never once entertained to be part of the “circus” surrounding this at the lower court, only interested in purchase because United States would not hand over \$1 billion in assets seized to verified claims (“vultures”) due to criminal activities. DOJ officials would have to auction them off and mediation was initiated because of petitioner’s position to purchase seized assets.

scam vaccines<sup>10</sup>, the real “rainmaker.” The list is too long to invoke inside this petition, an understatement.

### REASONS FOR GRANTING PETITION

A writ of mandamus is warranted when a party establishes that (1) the “right to issuance of the writ is clear and indisputable, (2) the party has no ‘other adequate means to attain the relief sought,’ and (3) “the writ is appropriate under the circumstances.” Mandamus is reserved for “exceptional circumstances” (my GOD, COVID-19 is beyond “exceptional circumstances”) amounting to judicial usurpation of power. Petitioner submitting this writ with no citations is supported with this Court’s experience and all citations are omitted for now because if this writ of mandamus is submitted handwritten, the court should still grant unanimously.

The factors for mandamus are readily satisfied. The consensus here is everybody deserves the truth about COVID-19. If COVID-19 is real, let the defendants come to court and prove it. If COVID-19 is a scam, let the plaintiffs show up in court and prove it. Courts cannot afford to shut doors of justice here regardless how people feel about COVID-19. COVID-19 is highly questionable because the elements the COVID-19 scammers (WHO) use are “sickness” and “death” and those elements are in abundance because people are bound to die every day and ironically the COVID-19 scammers are saying it is not okay to die. It is

---

<sup>10</sup> COVID-19 scam vaccines already killing people invalidating the very fantasy WHO officials are promoting as in “saving lives.” The vaccines will kill more down the line because people react differently to chemicals, some might die right away, others down the line. China even denied WHO officials access to Wuhan lab because WHO officials need to keep one step ahead of their scam just like scammers do, need to pretend something happened at Wuhan lab. Total nonsense, if anything happened in Wuhan lab, it would be confined to Wuhan lab, would not extend outside Wuhan lab (this was outlined inside the original complaint filed with district court in Virginia using nuclear accidents as example that those incidents were confined to the vicinity, never extended beyond that making COVID-19 a scam) like the whole world is now contaminated.

okay to die<sup>11</sup>, even victims of crimes die if they did not survive the crime against them.

\$25,000,000 in loan that does not affect United States due to the loan will be repaid by other means and \$2.5 billion will be arranged via credit facility to pay United States should be enough for the Court to allow this to proceed. United States' \$26.1 trillion in deficit will climb to \$100 trillion if COVID-19 scam is allowed to be legalized. At this stage, not because people are demonstrating to abide by the bogus guidelines doesn't mean such virus exists. People engage in radical behaviors across the globe does that mean what they do are proper? WHO named this nonsense COVID-19 and now they're promoting it with everything they got including bogus COVID-19 vaccines. One country just conducted their own press release that their vaccine cures COVID-19, pretty soon they will lawyer up to gain market share in the United States. Enough is enough. Let's face reality that when people die<sup>12</sup>, that's the way it supposed to be as opposed to this superficial concerns people shouldn't die.

What's so sad about COVID-19 scam is people are now going to suffer more due to hospitals and medical professionals will refuse to make proper diagnosis that deserve proper treatment, instead to support COVID-19 scam, they will be able to switch such ailment to COVID-19 and thus leading to wrong treatment.

---

<sup>11</sup> This Court will be shocked for this parallel: ABORTION is a classic example that sustains the element of mortality. At one junction one's life will be terminated and it could happen from the inside or outside if such person gets outside. You came to this planet, guarantee you will be gone irrelevant if from the inside or from the outside. Euphemism is not the norm here. 200 years from now, everyone here today will be gone just like 200 years ago, all peoples here back then were gone.

<sup>12</sup> The late William Rehnquist replaced another Chief Justice and he too replaced another and it goes on. Enough, human beings will never be "immortal."

This writ of mandamus is a testament for the next generations that people that voiced their concerns are silenced, but evidence supports that not everybody subscribed to this bogus virus named COVID-19. It does not exist and time for people to face reality as opposed to “illusion of immortality” being preached across the globe.

Holocaust started slowly way before 1930s when people are just being slaughtered, however the true ugliness that will support the new genocides from COVID-19 is the same as in “weakness” and “limitation” of human beings. Hitler and his henchmen lacked the full resources to monitor every human they arrested on false pretense (just like COVID-19 arrests of bogus allegation some people tested positive and they’re in violation which is bizarre because how would one actually know they would be positive when they never had the opportunity to test based on there’re no symptoms to push them to seek testing, including the shocking element COVID-19 testing is not uniform, everybody is just pretending they test people and use their discretion to label “positive” or “negative”), so the solution is to KILL them and that’s what COVID-19 genocides will embrace, no resources to monitor every soul, just take them out to reduce the stress tracking people with the virus. It is UGLY.

Article I, Section 1 is mandatory under the Constitution which is the reason why Congress and Senate are forced to fund COVID-19 scam on false pretense some deadly virus will obliterate this universe, but if that’s the case, all the money in the

world would not be able to stop it just like any individual with all the money in the world would not be able to prevent their own demise.

Article III, Section 1 grants the Supreme Court of the United States via this writ to terminate the circus at the lower court unfolding at district court of Northern California.

Article III, Section 2 allows United States to be party<sup>13</sup> to any Cases including controversies arising from this COVID-19 class action challenge which is pending before District Court for Eastern Virginia, Richmond division---including the right of public and petitioner to know if COVID-19 is real or not, period. This very article also forbids others to be treated different because petitioner resides in Jacksonville, Florida and the motion for intervention was filed in district court in San Francisco, California which could explain the denial of the offer to purchase the assets due to the language inside the order petitioner is “rambling” and engaging in fantasy which interestingly, the order never outlined the evidence COVID-19 is not a scam. All orders from courts dealing with COVID-19 actions (lawsuits) never addressed the evidence COVID-19 is real supporting time for the truth. No one is above the law.

Article II, Section 4 allows the removal of United States President and all other public officers that are subjected to impeachment, however the last impeachment is a total miscarriage of justice because COVID-19 scam is the root of the chaos in this country and across the globe and the only way to address this is to

---

<sup>13</sup> The Respondents as Appellees in their response opposing stay petitioner filed as Appellant with Circuit Court actually questioned the right of United States to be party to COVID-19 class action challenge.

allow funds to be released to prosecute COVID-19 class action challenge. The reaction to this is there was no conviction, the party impeached was acquitted, but the problem with such argument is the impeachment was implemented due to the past riot blamed on the wrong party as opposed to the bigger picture which is COVID-19 scam. No election is proper when people are restricted to vote and forced to send their votes via mail due to bogus precaution to contain spread of a virus.

The irony here is this very Court and all courts across United States and around the globe use both sides and third parties' sides to make decisions that can impact generations to come. But COVID-19 scammers (WHO) are the first "Global Dictator" where whatever they say goes. No challenge, no verification, just accept what we put out there. Come on, no organization should enjoy such luxury. Any organization can be challenged, questioned in a proper forum which we call "Court" and that's where we're heading and it takes money to do so because COVID-19 scammers are enjoying all the money in the world to promote their "scam."

This Court should allow this agenda of COVID-19 class action challenge to proceed on because it takes money to seek justice. Petitioner secured funds and no need for DOJ officials acting on false pretense of rule of law that doesn't exist to oppose the sale. The assets will be sold and there're no victims to claim these assets and they were supposed to be auctioned off.

**CITATION(S)**

Petitioner has purposely omit to cite case laws because currently all the case laws associated with COVID-19 (regardless of the orders) are misguided and totally misconception because the rulings were based on COVID-19's existence, however COVID-19 has been challenged and at this stage, no one can actually submit evidence COVID-19 exists based on "sickness" and "death" don't constitute "pandemic" due to such elements are daily occurrence since the inception of this universe. This is the first writ that purposely omitted citations.

### CONCLUSION

For the foregoing reasons, the Court should issue a writ of mandamus directing the United States Attorney's Office for the Northern District of California or any government official to prepare a contract for petitioner to sign paying \$2.5 billion in cash within 90 days via credit facility or its proposed bond offering via Toks Banc Corp (the Lead Plaintiff in the pending class action challenging COVID-19) and also direct the officials to make deposit of 3,083 bitcoins into the wallet that will serve as collateral against the \$25 million loan which is only 12 months to pay it back in order to retain attorneys and other experts that will contribute to the prosecution of COVID-19 class action challenge.

Respectfully submitted,

ADESIJUOLA OGUNJOBI
