# I. Question's presented

Can a judge preside over a case when he or she is biased? Or when they  
Are friends with the parties involved? Can a person have a fair trial when  
they had ineffective assistance of counsel?

Did the Trial Court error by not making sure good cause for termination  
Was in the best interest of the children?

Did trial Court error when stated not in the best interest to terminate?

Did county fail to make reasonable efforts?

Did trial court error by not permitting timely motions to vacate out of tpr for  
Fraud and extreme duress? Did trial court error on not telling parents they

Signed adoption consents? Did state Court wrongfully decide issues before it?

Did trial court error- failed to prove clear and convincing evidence that children  
Were in need of protection or services pursuant to Minn statue 260.c007subd 6

Did both courts error not to void adoption contract for fraud?

Did district court error on civil rights were social workers deliberately fabricated  
Evidence of child abuse, sexual abuse, and perjury to remove children?

Did district court error having case under advisement for a long period of time  
Without setting adoption aside? Did district court error by dismissing this case?

Did District court error by refusing to permit introduction or testimony concerning  
Alleged fraud, duress and intimidation practiced upon them by adoptive parents,  
Social workers, gal, and mother's attorney? Did all courts error on protecting  
Special fundamental rights of the parents, civil & constitutional rights?

Did appellate Court error to not reverse adoption on the grounds of fraud? Did  
courts Abuse their discretion to not send case for further review?

## VII Statement of the Case

Son LJ had started school in Hermantown in 2013 attending in The mornings, and started Little Learners on October 2013 attending in the afternoons. In which at that time was receiving many injures at school, the Social worker at the time PS was making reports of abuse against the parent's at that time. The School was not properly able to address his needs, and would make him sit in a small room by himself. That caused total frustration on the child whom then would act out as he did not like being confined to such a small space. I the mother became concerned and would try to voice opinions on my son's behalf, however the teacher at little learner's MB did not see eye to eye. School's involvement was unusually extensive. She then would call Social Services and make reports of abuse against us.

many untrue false reports and calls made to CPS that were put into the County's petition and it led up to the parent's being targeted and harassed on abuse charges that we did not commit. my son would cry and cling to me as he did not want to go to school at Hermantown. Social services were interviewing my son at school and Social Services had also been making regular interviews with my son I was not a where, which is a violation of our rights. I was appalled, When I found out in 2016. I should have been present and called about The matter. The County had a list of reports against us, false Accusations, no evidence and used this against us in the petition. The Court did not have all facts in this case to make a judgment of termination of parental rights.

Americans with Disabilities act of 1990 (ADA) (42 USC 12101 et seq., title II at 28 CFR 35) prohibits discrimination on the basis of disability in all services, programs And activities provided to the public by State and local Government (public entities) (ADAAA) (P.L. 110-325, 42 U.S.C. 12101 et seq. at 28 CFR 35) Amended the ADA to Make significant changes to the meaning and interpretation of the ADA definition of Disability to ensure would be broadly construed and applied without extensive analysis So all individuals with disabilities could receive the laws protection.

In April I had made calls to get respite care as by June we would run Out of funds and wanted a safe place for the children for 3 weeks. Social worker SA said she could set that up. However I called and She was supposed to meet with me on May 11,2016 at 12:00 and Did not show. I called and she stated something came up. Then we Set another date because she wanted to meet BJ the father and the Children on May 31, 2016 at 2:00 and BJ had taken the day off too meet her, and again she did not show. I called and she said she had An emergency. Now what was stated in the petition is mother did Follow through with appointments and only requested bus passes. On June 6, 2016 County social worker SA said she found respite care And I just needed to sign to place them, and when I wanted them Back to write a letter and they would return the children in 48 hours. However she did not inform me I was signing a foster care placement Agreement and did not show me the page. That is an unlawful in-Trapment scheme. And told lies to put them on a police hold. There Was no substantial evidence to place them on a police hold. Then When the county sought petition to terminate parental rights they Again had no substantial evidence to support their petition. Burden Of proof remains on petitioner See: Re the matter of Barron 268 Minn 156 at 127 N.W. 2d at 706.

Section 37.09 of the penal code: TAMPERING WITH OR FABRICATING PHYSICAL EVIDENCE-(A) (1)a person commits offence if they alter,destroy,conceals any Record, document, or thing with intent to impair its verity, legibility, or Availability as evidence in the investigation or official proceeding; or (2) Makes presents. Or uses any record, document or thing with knowledge of It's falsity and with intent to affect the course or outcome of the investigation Or official proceeding. Section 3710-TAMPERING WITH GOVERNMENT RECORD. (1) Knowingly makes a false entry in, or false alteration of, government record. (2) Makes or presents or uses any record, document or thing with knowledge Of its falsity and with the intent that it be taken as a genuine government Record. Also 1746 title 28 United States code 1623see: false declarations.

The social workers went off of a comment made by a disgruntled Family member. Who made a call out of spite. Social w HC then took it out of context, so when I complained about a med error in the foster Home, they then put them on a police hold. Med error occurred when placed with the yoki's. The social worker ML the string of 5 SW Was trying to fill the med, it was denied for being too soon. It caused my son to have increased anxiety for the remainder of the day and While we were at an appointment. Then the Social worker HC said my son was deregulated from our visit and pulled all visits. Later that day they asked the grandmother to check and make sure the medicine was right. She does not know what meds would need to be in there, so We had no calls no visits for a week, which is a violation of our fourth And fourteenth amendment rights to have familial relations with our Children. Wallis v. Spencer 202 F.3d 1126 (9<sup>th</sup> cir.1999)

The children were never in need of protection, as the County stated After their investigation there was no finding of maltreatment letter Dated June 22, 2016. I never received a copy as my attorney withheld, And I got it when I got my file in 2018 from my attorney.

But the County still put them on a police hold as they retaliated against me for reporting the med error.(2001 Minn statue section 626.556 subd 4a.)-Any person shall not retaliate for reporting in good faith subd 6 failure to report abuse is guilty of a misdemeanor. Social workers SA and HC and foster parent LY were concealing and lying about what was going on, because LY had an interest in my youngest son NJ. See Fogarty Hardwick v. County of orange 15-55563(9<sup>th</sup> cir 2017) it is against state and federal laws to lie, perjure, or conceal or write documents that are untrue to the court.

Title 18 U.S.C 241 Civil Rights Conspiracy statue- Makes it unlawful for two or more Person's to agree together to injure threaten or intimidate a person in any state, Territory or district in free excise of enjoyment of any right or privilege secured To him or her by the constitution or the laws. Civil rights act (1964 discrimination And harassment-protects against public accomidations.The fourteenth amendment Guarantees parents won't be separated from children without Due Process of Law Except in emergencies. Wallis v, spencer 202 F.3d 1126 (9<sup>th</sup> cir.1999).

Both children have expressed wanting to come home, which has been ignored. Both Attorneys expressed that the County was not making reasonable efforts October 06, 2017 to the Judge. Social worker HC was not even trying to reunify the family, but rather breaking up the family to break the bond of the family.

(Best Interest of the child has always been the paramount.)

Here the federal Court states they did not have Jurisdiction and that the Case is dismissed for not stating a claim. All my evidence was not considered And was sent together with well pleaded complaints, and the Court has jurisdiction over federal matters involving constitutional violations and Civil matters. The appellate court could have remanded this case back to The state court, based on evidence submitted. The District Judge Susan Nelson stated my evidence submitted challenges a state court as to why My parental rights were terminated. See: report and recommendation Page 2 Under background. Dated August 28, 2019. The State Court wrongfully decided Issues, and I had a Judge who was not fair in the decision making as he Was biased and only would hear the one side.

It is against the law to remove children based on lies to the Court, perjury in court and writing false documents to receive orders to Remove children. There never was abuse nor were the children ever in any Danger in our home. CPS did not conduct a proper investigation. The social Worker's SA and HC went off false accusations.

Best interest Minn Stat 260 C 301-is for the children to be returned home. Judge did Say reunification plan was court ordered 09/21/16. However it was said to the Court That children's needs were being met, placement was in the best interest and Reasonable efforts were made. This was untrue and was the opposite. The Children were acting out, youngest son has become aggressive, bites, swears, Having nightmares, scared of bathtub and emotionally not doing well. My oldest Son was pulling down pants at visits showing privates, swearing more from what He heard in the house (have recordings) and acting out because he wanted to go Home. 260 c 212 states it is required to send children home reasonable efforts We're not made, no effort was made. It was in the children's best interest to Return home as we completed case plan 100% and did everything asked of us. Federal title IV-E(program requires state to make reasonable efforts) to preserve And reunify families to prevent removal. County had no reason to not reunify.

The County had no clear and convincing evidence as required in re welfare of Chosa 290 N.W 2d 766,769 Minn (1980) In re Welfare of PRL 622 N.W 2d 538, 543 minn(2001) District Court did not address the party to prove that specific Conduct or condition would be detrimental to the children existed at the time of the hearing and would continue as required by RE Welfare of MDO 462,N.W 2d 370,377 Minn (1990) PRL 606,N.W 2d at 76 should be remanded for Evidential hearing. They went off false accusations made By school and family member, then judged me. Sw KT told me because of My childhood and things that occurred, that it might be that way in our home. I was discriminated against, harassed, and judged by social services.

The state may not remove children from their parent's custody without A court order unless there is a specific articulable evidence that provides Reasonable cause to believe that a child is in imminent danger of abuse. Croft v, West more land County children and youth services 103 F3d 1123, 1125; City can be sued for "Constitutional deprivations" visited pursuant to Governmental custom.

Monell v. New York City Dept. of Social Services; 436 U.S.658,690 (1978)

The District Court's finding that it relieved the County of the reasonable efforts Obligation is erroneous. I don't recall no record that supports the finding That the county made reasonable-efforts obligation by the District Court. The statue is clear and unambiguous that the County must make reasonable Reunification efforts Minn stat 260.012(a)(1) SEE Minn stat 260.301 subd 8 Best interest is the paramount in child protection cases Minn Stat 260c 301 Subd 7(2007) because neither the record nor the District court's finding address The paramount consideration of weather termination of parental rights is in the Best interest of the children. should be remanded for further findings. On trial Transcripts it was stated on 01/16/18 that it was not in the best interest to Terminate. Mother and father completed case plan 100%, the County had no Reason to terminate parental rights. On trial day none of my witnesses got to Speak, only the county's side. I was being yelled at by two Attorney's because I did not want to terminate my rights. This is coercion, not done by my own Free will. I do not remember question's asked or what was signed. The Judge said is this something you wish to do? " I said I suppose I have no choice this is unjust! "That is not good cause for termination.

We love our children and they should have been home.  
most people lose their children to drugs and alcohol this is not  
he case here. We are very capable of taking care of our children, however  
We were not even given the chance because the county had their own agenda.  
My children were acting out in foster care because there autistic and were  
Scared and this has caused a lot of trauma to them.I feel that this has been  
the worse pain in my life to be treated so poorly by a place that is suppose  
to help families, not tear them apart.  
I was targeted by CPS because of false calls that were not properly  
Investigated. While working with them social worker HC would say your not  
being truthful and you just deny, and would write that I did not cooperate  
with them. She caused a lot of emotional distress on me.

The GAL testified in District Court however the district court failed to check  
Weather events mentioned by Gal actually occurred. She was making  
Findings off what social workers had told her. The District Court must make  
Findings of facts to terminate parental rights. SEE: In the Matter of Welfare  
Of the children of: M.A.K. The absence of findings on child's best interest  
In TPR proceeding constitutes error that requires remand.D.L.D. 771 N.W.  
2d at 545-546.

The County got involved and had told the school to call when my son would  
Have a scratch or mark, they would then go to the school and interview my  
Son without me knowing that was taking place. I found out when I received  
The reports from my attorney when the case ended. The county also said we  
Would get visits, however we have not seen the children in 3 years, which is  
A breach of contract. There was to be a contact agreement, however it was  
never done by the County Attorney who was supposed to work on it with my  
Attorney. Also my pastor from my church wrote a letter and the Judge would not  
allow it to be read, because County objected it. See: Santosky v Kramer  
455 U.S. 745,(1982) fair preponderance of evidence standard violated  
Due Process Clause of the fourteenth amendment, the County destroyed  
Familiar bonds with malicious lies to achieve. 18 U.S code 1623 false  
Declarations before the court. Whoever under oath(or in any declaration,

Certificate, verification, or statement under penalty and perjury as permitted Under section 1746 of title 28 United States Code) in any proceeding before the court knowingly makes any false material declaration of other information Includes book, paper document record, recording or other material known to Contain any false material declaration shall be fined under this title, or Imprisoned not more than five years or both. Social workers SA, HC, KT Foster Parents LY AND GK lied made reports that were not true, statements That were stated were not true. Falsified documents to the court, took out Good summaries from visits did so with malice to deprive us of custody.

Qualified immunity is not available under those circumstances.

TITLE 18 U.S.C. Kidnapping chapter 55 section 1201 (C) Who ever unlawfully Seizes, kidnaps, shall be punished by imprisonment of 20 years.

If two or more people violate this section and one or more of such persons do any overt act to affect the object of conspiracy each shall be punished by imprisonment. They were keeping our youngest son from us even when We were suppose to get visits. There are Still live issues in this case that have not been addressed properly by the Courts which is why further review is warranted.

Parents have filed timely motions and evidence to the state court, which were all denied. One: To vacate out of termination of parental rights for not being in the best interest of the children, and the way it was done in the courts was unlawful. Denied to vacate TPR on 02/07/2018. A motion to reconsider and reopen denied on 04/09/2018. June 22, 2018 papers denied. Even though we submitted pictures of bruises and how the children were not doing well. Federal court cancelled May 14, 2019.-May 15, 2019 Judge Floreke would not allow me to speak. I asked why he is so prejudiced towards us?" He replied because your rights are terminated. However it has been that way throughout the case. Then we tried to attend post Permanency review hearing on July 22, 2019 at 8:00 am, our names were on the docket but Judge Floreke would not let us attend and it was postponed til 2:00. However it states it took place on July 23, 2019. date is incorrect. Letter to read from pastor denied.

## INEFFECTIVE ASSISTANCE OF COUNSEL

The Courts should have remanded this case for further review.

One: this case was not followed by the laws in which there were many Constitutional rights violated. Two: I had an attorney who did not Prepare for my case and did not zealously represent me. He would Show up and write down the next hearing. Other attorney's would Prepare and point out what their client has done, changes made, the Abuse and neglect in the foster homes. Lawyer made mistakes that other Lawyer's situated and appropriately prepared should have done. But did Not do. To give a client A result that which would have not prejudiced her. Having an attorney does not satisfy the sixth amendment. Cases citing Ineffective assistance of Counsel Gideon v. Wainwright 372 U.S.355 (1963) As stated in that case it is essential to have effective assistance for a fair Trial. Gideon's case was able to be heard in the Supreme Court.

Strickland v. Washington 466 U.S.668,(1984)The right to counsel under the Sixth Amendment means the right to effective counsel.his errors and Performance was deficient, the outcome of the case would have been Different. Day of trial foster parent come in and he said there's G..... He Did not cross examine her he did not make it to important meetings I had Asked him to attend. I called him for one of them and he asked what time? He did not show. He did not return many calls. I did not sign voluntarily to Terminate parental rights, this was coerced by my attorney, and yelled at By two attorneys before entering the court room, by that time I was Emotionally shut down and do not remember much of anything. I had to Text him because I did not know what was signed or much said.

See appendix( B )Text to attorney.

I wanted to appeal he said I would lose, he misled me in every way and Was unethical and rude to others who joined in while meeting with him. He had made a comment to my friend saying you're just like her yelled that. He made people cry from saying hurtful things. He should be disbarred! I had no time to get another attorney and get them familiar with the case And he knew that and was really bad in the end. He only was disciplined

For not putting money in an account, he placed it in his personal one and That's why he was not motioning the court and objecting to what the County or GAL was saying. Instead he claimed I did not see the big picture. He failed to return many calls, did not show up for meetings I asked him to, And some court appearances. Abandoned my case and did not put money in A trust account and use it for motions. Case: Gerald Lee Walker v. State Bar of calif. See background, disposition. Habitual disregard by an attorney Of the interest of his or her clients combined with failure to communicate With such clients constitute acts of moral turpitude justifying disbarment.

## 8 U.S.Code 1324 penalties for fraud

To forge, counterfeit, alter, or falsely make any document for the purpose Of satisfying any requirement is unlawful and can be fined or imprisoned. The court erred as the individuals knowingly and maliciously committed Many wrongful acts, and misled the court. There are many issues that were Not addressed in the district court.and the appellate court affirmed without Any oral argument as well.

## REASON'S FOR GRANTING THIS WRIT

In the state court because of the way this case played out and the violations That occurred to achieve were unjust to the children and the parents. We have Been trying to seek justice for a long time in this matter, however this has been Going on far too long and we are entitled to redress for the wrongs. When people Can be so malicious to take children out of a home where there was no harm, Is not only wrong it is against the law! I have not had the opportunity to be Heard thus far. I did not willfully sign my parental rights and no one told us we Signed consents for adoption. I was yelled at by two attorneys before entering The court room and was so shut down I did not even know what was taking Place. I was caused extreme emotional distress and that is not right. We love Our children and can give them the love, and care they need to thrive. The homes they are in now are neglectful, there has been physical abuse, and they have many behaviors because they do not understand the children. They keep placing them on meds which is not what they need. We were Judged by cps who never had any evidence that are children were in harm's way. This case was dismissed and never taking seriously by the Courts who are still subjecting the kids to be without their parent's. I am asking the court to overturn the state court and reinstate parental rights back as I had a bias Judge and that is why I was denied everything in that Court case. I had ineffective assistance of counsel who did nothing for me In the case. I am asking the court's to hold people accountable for what They have done which is why we need a hearing. I believe the courts should Over turn the adoption that was achieved by grounds of theft by deception By the foster mother LY, foster father LY , and social workers. The Federal Court was proper for civil rights and constitutional violations that were Done in this case. And the Judge did say the evidence I submitted was enough as to why my rights were terminated. It should have never come to that as we completed our case plan 100% and have had stable housing And have a new van.

## APPEAL PROCESS

I would have appealed to the state court, however at that time I trusted my Attorney who said I would lose. He misled me in every way. When I turned Him in he was investigated by someone he was in partnership with in the Past. I tried to bring this case as 1983 lawsuit for civil and constitutional Rights violations, I have been prose throughout this case and believe This has not been a fair advantage again. The federal court had enough Evidence too where we should have had a hearing. They could have dealt With the issues that are still live, one such as I have charges of abuse and Neglect against me when it is simply not true. Two the County was trying to garnish my paychecks for foster care, however my children should have been Home. So they wrongfully take my children then want me to pay for foster Care which is an astronomical fee that I would never be able to afford in my Lifetime. The district court should have remanded the case back to the state Court, and dealt with the civil and constitutional violations. There were many violations of law in this case. I hope this helps the Justices to give justice where it is do. I am respectfully asking the court to overturn adoption and reinstate rights to both parents as what was done was unlawful. The cases seem to conflict with the Supreme Court and is a big importance in the matter of law!

## CONCLUSION

For the foregoing reasons, I respectfully request that the court Issue a writ of certiorari to review the judgment of the court Of appeals for the 8<sup>th</sup> circuit and Judgment from State court The petition for a writ of certiorari should be granted.
