I, Ronald Johnson-El, Petitioner, pro-se
Certify the intervening circumstances keeping
my property detained, my body is indeed my
property, without the process due to the
saving clause remedy K.S.A. 21-4639/21-6628(c)...

Continuously is a sixth amendment due
process violation of the United States Constitution,
the law(s), statute(s) mentioned herein, and as well
proper process violations of my fifth amendment
protections, depriving me of my body being free
from bondage, held by a state statute that
has been ruled unconstitutional,...

because it is repugnant to the U.S.
Constitution. The process due was withheld by
Defendant(s) acting under color of state law,
then denied by Defendant(s), in total violation(s)
of Substantial rights...

The state of Kansas Supreme Court ruling
in my case 5/30/21 is in fact my substantial
new grounds, the state court admits, K.S.A. 21-4635
authorizes, the hard 50, and admit it is also
repugnant to the sixth amendment.

Therefore, Petitioner, Ronald Johnson-El, request
The Court to hear case via de novo, all merits
briefed, and not briefed to administer justice.

In Honor, Ronald Johnson-El 7/18/21
