OFFICE OF THE CLERK
SUPREME COURT, U.S.

QUESTIONS PRESENTED

Unlike the other case's Trial Court, such as *Commissioner, Alabama Department of Corrections, Petitioner vs. Matthew Reeves, Respondent's case*, the Middlesex Superior Court and the other higher Courts, could have ordered or summoned such Police or Federal agency and related laboratory locations to see what was inside of my elderly mother's renewed U.S. Passport, but in order to let me, the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, to prove my case, for the Middlesex Superior Court and all other higher Courts, But nothing was done about it.

The questions presented are:

1. With due respect, when the very First Complaint was being dismissed, was it properly dismissed without asking the Pro Se Plaintiff, Ashley Y. Kim, then, about how she was not given any urgent and/or no alternative treatments, on May 15, 2018, by the Respondent, Dr. Huong Tran, when she opened this priority mail for her elderly mother, as she was not able to stand even with 2 different walking canes, would keep vomit, being overly nauseous, just feeling very weak and uncomfortable, but as being the main interpreter for the Pro Se Petitioner's elderly mother, at the 3rd best hospital in the U.S. and the World, she is learning that there are medications to cure these types of deadly situations... and when going to other hospitals, they are keep asking for my elderly mother's preventing cancer cells from her entire body treatments, or for any other urgent pain, she should always go to an Emergency Center, but the question remains, why didn't the Respondent, Dr. Huong Tran, did not forward the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, to an Emergency Center on May 15, 2018? (App. C. 7a)
2. Then, instead of providing any urgent treatments, by Dr. Huong Tran, on May 15, 2018, and even after, Dr. Huong Tran, decided to treat this incident as a mental/behavioral area, where all along, she said, she wanted to hook up the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, to obtain a \$1,000, on a monthly basis from the Social Security and Disability Center, in order to keep fight with the Cambridge Housing Authority, just after meeting her colleague, another Respondent, Psycho-Pharmacologist, Mary Ellen Smith, but Dr. Huong Tran, the Respondent, never ever mentioned how she will label me as someone who is diagnosed with a Chronic Paranoid Schizophrenia, or has that status, with 60 pages of wrongfully created damaged mental/behavioral medical records... Ever since July 2018, the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, requested all Courts in the

Massachusetts, that she wanted these wrongfully created mental/behavioral medical records, to get fixed, deleted, or get amended, however, all Courts in Massachusetts, have Dismissed with Prejudice, of this request, when it will not cost anything for the Respondents, when that is allowed.

3. Therefore, as everybody and the World have turn their backs on the the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim... Could your most Honorable and most Genuine Supreme Court, would please make a difference in regards to the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim's request or wish?

This particular case was already dismissed with Prejudice against the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, by the very initial Honorable Judge, Christopher Barry Smith, at the Middlesex Superior Court in Woburn, MA, a way before the Court Hearing with this newly arrived Honorable Judge, Kenneth J. Fishman on January 22, 2019. On that Court Hearing, the Honorable Judge, Kenneth J. Fishman stated the following:

"So, if I understand her [the Pro Se Petitioner, Ashley Y. Kim's] complaint, it's basically saying that she was wrongfully diagnosed by at least some of the Defendants; and that they created records with this wrongful [Chronic Paranoid Schizophrenial] diagnosis. And that those - - she is affected by the creation of these records, both emotionally and maybe in some other way. Why Just accept those facts for the purposes if this is true, why couldn't there be a cause of action based on a wrongful diagnosis and those kind of consequences? (App. D. 11a-12a.)

The Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, always asks, is there God? (App. E. 42a-43a) If so, why would I, as the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, years back, getting portable heaters for myself and this 2 doors away elderly tenant, Elaine Capriti... and even though when she promised me that she will live nearly 130 years, but she became ill in March 2018... And to wish her for her fast recovery, on April 29, 2018, I got her a mini flower plant... but the next day, I get this USPS Priority renewed U.S. Passport for my elderly mother and this awful and deadly tragic occurred. The Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, is extremely unfortunate to be not born as these very attractive Latino migrant workers and those who would cross the U.S. Borders for their better future with another beautiful Haitians and Afghanistan refugees, as if so, the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, would not have suffered this much to survive, in the United States, as being this ugly Asian...

STATEMENT OF JURISDICTION

It's always the Supreme Court of the United States that has this Jurisdiction, of this Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim's case as my previously presented claims arise under the laws of the United States.

This particular Civil Case was first filed or got started at the Middlesex Superior Court, in state of Massachusetts. (App. C. 7a) After getting dismissed with Prejudice (App. A1. 1a1), it was to be re-determined at the next higher level, at the Appeals Court. (App. B. 2a-6a)

Unfortunately, the final decision was to stay the same way as before... and then, when moving on to the next higher State's Supreme Judicial Court, that's when this case's Application for Further Appellate Review was DENIED. (App. A. 1a) Now, while this case had started at the Middlesex Superior Court and later was still pending at the Massachusetts State Supreme Judicial Court... because of the fact that various locations, such Attorney General's Office in Massachusetts... stated, they never heard such cases like the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, because... they said, it looks as a crime has been committed towards me and in order to go further with my mental/behavioral medical case, perhaps, what I needed to do was to go to a Police and/or other investigator locations and it will be them, who will bring this case of mine as a Criminal Case, rather than a Civil Case.

As the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, I have been to several Police Stations and those that were to assist me were out of Boston, as

1 *Corrected*

these particular medical related incidents took place in Boston, MA... therefore, I was asked to go to Boston Police Stations... But then, a little did I know... As one of this very honest attorney said, "when it comes to hospital related cases, no matter what, all Courts will be on the side with these big hospital institutions..." And, the respondent, Boston Medical Center must have announced to their teams to do something negative... For instance, if I, as the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim would appear to all Boston Police Stations, then they needed to scare me, the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, in various ways, so that I would never bring up this case again, it is very possible, what they can set things behind my back. I, as the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, can be arrested and get locked up for just appearing at any Boston Police Stations...

Also, it seemed so obvious, where certain Boston Police Officers, seemed as if they were informed about the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim's case, where they said, "Who cares? Nobody will look up your Mental/Behavioral Records..." or some would just disappear, after telling me to wait at the lobby and would do other assignments... Any negative scenarios set ups are possible by the respondents as they have much more wealth and power over me... All along, the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim have been very afraid and worried, when after all, it was me, who was put into this medical trap against me, that I've never asked for... (Deepa, Soni, M.D., Plaintiff v. Boston Medical Center., Corp., et al., Defendants Civil Action No. 08-12028-JGD United States District Court, D. Mass. 683 F. Supp. 2D 74 (2009), Dr. Susan O'Horo, M.D. vs. Boston Medical Center. et al., No. 1:20-CV-12290, United States District Court, (December 28, 2020)

2 corrected

INTRODUCTION

There are people in the World that they say they have studied so hard from the very early age, in order to protect and save those that they love and care very much! As just a regular person, I, the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, really tried, but perhaps, I didn't try hard enough, as unexpected issues like this case comes along in my harsh life. This particular legal case had started back in July 2018, right after checking the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim's mental and behavioral records. When wanting to fix or get permission to delete these medical records, I had these Supervisors at the Boston Medical Center, letting me know that, it's not going to happen, so... they said, it's preferable way that I go to the Court and have my issues get fixed. However, we all didn't know that it would take these years... It took up our lifetime and all along, we have been in these torturous moods, every time, when our case would get dismissed and these awful judgments would be against us. And who got more disappointments and heavily depressed and got extremely worried, was the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim's elderly mother, who has medical health issues, due to her old age. At the same time, whenever she received notifications from the Court or the respondent's attorneys, she would say that her chest started to hurt, or it felt like something was speedily poking her... But this case's horrible results made my elderly mother get a lot of tensions and negative stress... We just found out that I, the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim's elderly mother, has a Breast Cancer where she is scheduled to cut her one entire breast... Right now, I, as the Pro Se Petitioner,

3 corrected

Ashley Y.(Yoo Hyang) Kim, cannot think or just stand still, as I have this enormous guilt that because of this case, this is what happens to my elderly mother, who in her age already, don't have much time to live. It's like this heavy thunderstorm hit me with such never ending curse. What can be worse than this... There are no such words to describe what's happening to us... It's like, we... at this mode, would go to such locations and just hang onto someone's arm, whoever they may be... and ask for their deep prayers, for us... We are just very teary as our hearts are torn apart... and bruised all the way...

The truth is that for the past 40 years of my life, I've never had any mental and/or behavioral issues that required for me to see any mental health provider. But on my 3rd appointment, Dr Huong Tran, the respondent, in early April 2018, all of sudden, said that I needed that \$1,000 from the Social Security and Disability Center, in order to fight with our current Cambridge Housing Authority! The Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, had no idea that this is possible set up between the Cambridge Housing Authority, and Dr. Huong Tran, Psycho-pharmacologist, Mary Ellen Smith, and the Boston Medical Center, in order to close up my freedom of speech and writings... It's just that the Cambridge Housing Authority, in general, do not want any clever, journalist type of tenants in their apartments. (MEDICATING NORMAL IS A GROUNDBREAKING NEW DOCUMENTARY EXPOSING THE DANGERS OF PSYCHIATRIC DRUGS, INTENDED TO IGNITE A LONG OVERDUE COMMUNITY CONVERSATION ABOUT HOW WE SUPPORT PEOPLE IN DISTRESS" DOCUMENTARY TRAILER ON WWW.MINDFREEDOM.ORG) In

4 corrected

fact, they prefer to get rid of any tenants, who has that proper mindset and who can pinpoint what's wrong or right! (Dog narrowly escapes death row, smothers new foster parent in kisses" by Gabrielle Fonrouge, nypost.com, November 13, 2020) That is why, they necessarily do not have much of Hispanic Tenants, who are not afraid to speak the truth and show their viewpoints to the entire society. (The Wolverine Watchmen plot to kidnap Michigan Gov. Whitmer also included a plan to burn down the state Capitol building, officials say" by Kelly McLaughlin, Yahoo.com, November 13, 2020)

The truth is that Dr. Huong Tran never said anything about what will happen after meeting that Psycho-pharmacologist, Mary Ellen Smith, just once! Dr. Huong Tran, never ever warned me that I, as the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, will end up getting more than 60 pages of negative and damaged mental and behavioral medical records that will sustain with me forever. Also, Dr. Huong Tran, never said that she was going to say that I have or that I am diagnosed with Chronic Paranoid Schizophrenia. This is extremely severe mental illness that any person even murdering just one or tons of people, the Courts will allow them to walk away, if they say that they have Chronic Paranoid Schizophrenia, as their defense will be that, it's not that they've murdered people, but it's this voice that they've heard in their head... This is very serious mental condition, that has nothing to do with the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim. The question would be, why would Dr. Huong Tran out of nowhere, would put the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, into this medical trap and

5 corrected

made me do this Court case, since July 2018? (Film by "Paving the Way" about Human Trafficking on YouTube.com)

One thing, I, as the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim did not catch right away was how Dr. Huong Tran didn't want me to be her patient! By the 2nd appointment, she had such a snobby and not too welcoming gestures, and I really didn't know that she didn't like the way how I speak English Language fast, like some sort of parrot! Dr. Huong Tran didn't appreciate my English speaking tongue! However, since our appointments were short, I had to speed up and speak clearly, in order for her to be that Internal Medicine Family Department's – like this speaking therapist! But then, the more that I, as the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, described who or what I am all about, the more Dr. Huong Tran had this enormous jealousy internal tensions and negative emotions towards me, but why? When she is a lot younger than me and achieved that American medical dream, many years back, as compare to her, I am this old grandma figure, who don't have much educational degrees, Is this mean that Dr. Huong Tran can just mess up my life and my mental and behavioral medical records, in any way she wants to? Dr. Huong Tran said, the only symptoms, that I, as the Pro Se Petitioner, Ashley Y. (Yoo Hyang) Kim, needed to have is and/or are... just shake a little, be a little nervous, with some minor paranoia and anxiety... but these types of reactions are some conditions that all normal people have... therefore, Dr. Huong Tran lied to the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, without mentioning anything about Chronic Paranoid Schizophrenia status will be written on my mental/behavioral records...

6 *corrected*

STATEMENT

"As the city's eviction moratorium nears its end on June 15, the Cambridge Housing Authority has filed seven eviction cases against low-income tenants in the past three weeks after months of not filing any. At the other end of the income scale, the owner of the North Point luxury housing development near Lechmere continues to seek more evictions than any other Cambridge landlord, but most are for misbehavior or some other reason that doesn't involve missing rent payments.

... CHA executive director Mike Johnston has said the agency was trying to avoid going to court at all, because even if tenants ended up staying in their homes they would have a blot on their record that would make it harder to find housing if they needed to move.

Asked about the recent court filings – four for nonpayment of rent and three for other causes – Johnston said the authority has tried to help tenants tap into state and local aid, including a new state program aimed at supporting owners of subsidized housing. The program, Subsidized Housing Emergency Rental Assistance, allows landlords such as CHA to apply for money to replace some tenant to agree to the application," Johnston said.

A CHA social work intern "has reached out to each resident with a delinquency numerous times to identify what problems there might be interfering with rent payments and to offer to work with them. It is sadly the case that some tenants do not respond to such outreach," Johnston said in an email..." (Please See, "Pandemic eviction moratorium near the end, with officials citing efforts to help the at risk" By Sue Reinert, Cambridge Day, Tuesday, June 8, 2021)

The Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, does not know, exactly, where to begin, as... being in the Cambridge Housing Authority section 8 or Senior/Disabled Housing meant... as the Cambridge Housing Authority has so much bold connections with the City of Cambridge, Cambridge Police Department, Cambridge Fire Department, Professional Ambulance Service, and other related public official's locations... As being their housing tenants, since February 2009, we came to see along with others, you can be a tenant who is

7 corrected

African or Caribbean looking tenants or Caucasian tenants, but the dilemma occurs, when the Cambridge Housing Authority, wants to take away your room, so that they can give that room away to some family with young kids, as they could pay more higher rent... and so they start to give you a lot of notices and unnecessary housing issues when they want to just evict you, immediately, just with any cause. And sometimes, the Cambridge Housing Authority could cause issues with the Cambridge Police Department or even the Cambridge Fire Department, along with the Professional Ambulance Staffs, and really target that particular tenant, that they don't want, and observe and follow them, to find any negative faults which can damage anyone's reputation and their future. (Please See, Nalubega vs. Cambridge Housing Authority, No. 1:2012cv10124 – Document 49 (D. Mass. 2013), Rodriguez vs. Cambridge Housing Authority, 443 Mass. 697, 823 N.E. 2D 1249 (2005))

Back in August 2012 through November 2014, the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, have lived at the Cambridge Housing Authority's Senior/Disabled apartment building, and while being there... it was a complete different atmosphere, where... even before CoronaVirus, it really was being in a Nursing home or Senior care facility, where... when we moved in... (worldometers.info/coronavirus/country/us/) on our floor, adult kids didn't know that their parent had passed away, for nearly a month. Nobody knew... and it really was being in a funeral home, as on a weekly basis, some tenant always passed away, but some, if they didn't have anyone, then you never knew what

8 corrected

happened to them. Therefore, these following articles, about, "Criminal charges brought in coronavirus outbreak that killed dozens at Massachusetts veterans home," "Inside the real-life and 'secret experiments' that inspired 'Stranger Things,'" "New Documentaries in Our Backyard Uncovers Sex Trafficking in Brooklyn," "OAW Uncovering World's Largest Human and Organ Trafficking Operation in Seattle, WA," "29 Dead at One Nursing Home From the Virus. Or More. No One Will Say. - What is happening inside a Queens nursing home hit by the outbreak? Relatives of residents said there was a disturbing lack of information," and 'You Have to Pay With Your Body': The Hidden Nightmare of Sexual Violence on the Border,' these are some situations that were already introduced to the Tenants that have lived in the Cambridge Housing Authority's both Senior/Disabled and Family Apartments...

However, during several speaking therapy sessions with Dr. Huong Tran, when you start to mention things as our back door's mini lights being turned off, without any warnings, during Northeaster Storm in February 2018 and March 2018... at the same time, all tall outside beam lights are completely off, for the next 3 weeks... it got so many tenants worried, as they arrived to the main Cambridge Housing Authority's Planning and Development meetings, during April 2018, these younger male tenants started to question to Directors and Staffs, "Why are you keep turning off these beam lights for weeks, when we can't walk down to the parking area? It's so dark, you can't get to your own door, and it's dangerous..." "We have asked our management office to turn on outside and internal lights, but they don't turn it on... It's too dark, you can't see anything, why you guys turning off these lights at night...?" and there are

more concerns. But, when you mention these true situations, living in section 8 housing area, very carelessly, Dr. Huong Tran, does not really understand, as she never lived in these types of governmental subsidized apartments, therefore... Dr. Huong Tran thinks that perhaps, I, as the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, need to be on some paranoia and anxiety decreasing pills, when that's not the case. This website called, "www.mindfreedom.org," talks about, "Whistleblower, Pharmacologist and former FDA scientist, Ron Kavanah exposes corruption within the FDA in approving harmful psych drugs that have little or no benefit. Contact the senate to demand an investigation today!" They educate you on how hospitals partnering up with these pharmaceutical industries, making so many patients to intake drugs for all sorts of purposes... They would constantly recommend medications for all areas, not because they have serious mentally related symptoms, but to sell drugs and make tons of money...

And that's what Dr. Huong Tran did... she said, I as the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, needed to take medications but she never explained what it was for, but said, "Who cares what people think, you need that \$1,000 Social Security Disability monthly benefits... You will have the money, and that's all it matters..." But I am heavily allergic to a lot of chemicals and all types of preservatives in those food ingredients, therefore, I must be extra careful... But Dr. Huong Tran does not care about that at all. She did not care, whether, how she was creating these mental/behavioral medical records are hurtful and harming me, in various ways.

A. Final Decision at the Middlesex Superior Court in Woburn, MA

On July 2018, when submitting my First Complaint to the Middlesex Superior Court in Woburn, MA, this obviously was before the CoronaVirus timing, therefore, not many were aware of that historical moment, where during the year of 2018... so many Seniors who were on those Social Security Income Welfare and Medicare were negatively impacted... that idea of "Sacrifice the old to help the economy? Texas official's remark prompts backlash," and through that concept, the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, was fatally poisoned, when opening a renewal U.S. Passport for my elderly mother, on April 30, 2018. After CoronaVirus occurred, there were statements in the media that, "If you are a medical doctor, the more you kill CoronaVirus Patients, will be rewarded and get more pay..." That type of statements was on the Newspaper, at the same time you heard about, "NYC emergency doctor dies by suicide, underscoring a secondary danger of the pandemic."

The Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, pretty much died, after opening that renewal U.S. Passport for my elderly mother, but Dr. Huong Tran, never ever gave me any type of urgent or alternative treatments to make me gain my energy back and fully recover. Therefore, I almost didn't make it, and the Middlesex Superior Court in Woburn knew about this, but rather... they just passed this issue and didn't summon such court related laboratory locations to examine, what was inside of that renewal U.S. Passport for my

11 *Corrected*

elderly mother. I would have paid those laboratory fees out of my own pocket, but eventually, the Appeals Court and the Supreme Judicial Court in Boston, also denied my case. (Meagan Fitzpatrick v. Wendy's Old Fashioned Hamburgers Of New York, Inc., and JBS Souderton, Inc., (Application For Leave To Obtain Further Appellate Review For The Defendant-Appellees, Wendy's Old Fashioned Hamburgers Of New York, Inc., and JBS Souderton, Inc.)

If these renewal U.S. Passport for my elderly mother situation happens to the Pro Se Petitioner, Ashley Y. (Yoo Hyang) Kim, nobody really took it seriously, however, articles like, "Court papers: Woman wrote 'give up' in ricin note to Trump," "Russian Agents Trailed Opposition Leader Navalny Before Poisoning Report Finds," ... people start to recognize them, but not the Pro Se Petitioner, Ashley Y. (Yoo Hyang) Kim's situation.

It is the Pro Se Petitioner, Ashley Y. (Yoo Hyang) Kim's only hope that your most highest and Honorable and respectable U.S. Supreme Court would reconsider, reversing my previous decision from all Courts in Massachusetts, and please allow for the Pro Se Petitioner, Ashley Y. (Yoo Hyang) Kim's mental/behavioral medical records to get fixed or get amended... So that I can barely survived in this United States as there are high Anti-Asian Actions, everywhere...

REASONS FOR GRANTING THE PETITION

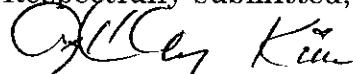

Up until this case was dismissed from the Middlesex Superior Court in Woburn, MA, the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, had discussed these issues with those dial-a-lawyer attorneys and other pro bono lawyers. And one of this pro bono lawyer said, "Ashley, there must be a lot of patients with this Chronic Paranoid Schizophrenia and other mental issues, at Boston Medical Center, in order for them to hook them up to get that \$1,000 Social Security and Disability Benefits, on a monthly basis. The difference is that they are okay with getting that \$1,000 monthly under that mentally illness title, but you are not, because you want to get socially accepted and fit into stable working society..." The reason why your most Superior and Honorable and respectable Supreme Court of the United States, should and must grant this Petition is that... because, it isn't fair, when all entire Courts of the United States takes the side of the big hospital and rich doctor's side, even when they have damaged the only proper mental/behavioral record, there was. People like the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, does not have anything but just clean records, therefore, having an extra clean mental/behavioral medical records are mandatory, especially, when I am this unwanted Asian, that all steps down on. Also, there must be such regulations for all public official's departments, to take in such poison or chemical substance contained mails, and examine while providing the true results... otherwise, when people like the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, experienced, what occurred

to me, who in the society will prove what occurred? Nobody... even when you pay your own laboratory and exam fees... Therefore, this is where your most superior and Honorable and respectable Supreme Court of United States needs to set those public or private locations, who can further assist general publics, when receiving poisonous mails... and make sure that all hospitals and medical providers, take out these entire poison or chemical substances from someone's entire body, when exact incident happened to them... including urgent medications and etc., otherwise, what will happen is that, the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim's eye sights had been tragically ruined, and these damaged and suffering pain will be life long, never fully recovered...

CONCLUSION

For the reasons above, the Pro Se Petitioner, Ashley Y.(Yoo Hyang) Kim, deeply wishes and prays that this petition for a writ of certiorari would and should be granted, as too many times, my case has been denied. Therefore, please do not give up on me but please give me another chance. Thank you always for allowing me to come all the way to the highest Honorable Court of all...

Respectfully submitted,

Pro Se Petitioner, Ashley Y(Yoo Hyang) Kim
