Sharp Grossmont Hospital 1 to 5 - RESPONDENT(S)

PETITION FOR REHEARING

Pursuant to rule 44 on this court, the petitioner hereby, respectfully petition for rehearing case before a full nine member court.

This case involves a challenge by Respondent concealment, fraud and retention of medical records an assault and battery. I signed a paper refusing a surgery and they sent me to another hospital against my will. Sharp Grossmont Hospital assessment sheet emergency department Wednesday – June 25, 2008 page 4 of 6 supporting documentation, Anny Coberly RN, and Marc Kobernick MD order time 15:26 E.K.G on page 3 of 6 time 16:54 Anny Coberly RN. Review results (completation not documented) the catherization never was documented California Civil Code Section 1710.

QUESTION PRESENTED (Rule 14.1(a))

Weather the Superior Court of the State of California, San Diego County, and the California court of appeal, fourth appellate District violated the 14th amendment if the United States Constitution and American with disabilities act of 1990 by failing to provide Mr. Flores, a disabled self-represented litigant with meaningful accommodation an equal access to the court.

STATEMENT OF CASE

On June 25, 2008, petitioner went to the Kaiser emergency room in La Mesa, CA., in which they did an E.K.G. cardiogram. (I CT 033 - 037). They told the petitioner he was having a heart attack and Dr. Birnbaum sent him to the SHARP Grossmont Hospital emergency room. Once there, they did an E.K.G., catheterization exam as well as other exams so they can see petitioner heart's condition. (I CT 017-018). After a few minutes of being in there, a doctor came in with some papers for petitioner to sign and he told petitioner he was going to do a surgery. Petitioner asked him what kind of surgery and he said he was going to open up petitioner chest and perform open heart surgery. Petitioner refused the surgery. I've gone to the hospital on many occasions to ask for the report of the E.K.G, catheterization, and the final Doctor's report but they have been denied to me.

JURISDICTION

The jurisdiction of this Court is invoked under 28 U.S.C. § 1257(a). The decision of the California Court of Appeal for which petitioner seeks review was issued on February 17, 2021. REASONS FOR GRANTING THE PETITION

Accommodating a person's disability is required by federal and state law. The American with Disabilities Act (hereinafter "ADA") require that people with disabilities be afforded equal access to government buildings and services. 42 U.S.C. § 12101(b)(1)(2012). Because access to the judicial process is a fundamental right, the United States Supreme Court has held that Title II of the ADA is constitutionally valid. In *Tennessee v. Lane*, the Court held that "Title II unquestionably is valid...as it applies to the class of cases implicating the accessibility of judicial services [.]" 124 S.Ct. 1978, 1993 (2004). The Court observed that the "duty to accommodate is perfectly consistent with the well-established due process principle that 'within the limits of practicability, a State must afford to all individuals a meaningful opportunity to be heard' in its courts." *Id.* at 1994 (quoting *Boddie v. Connecticut*, 401 U.S. 371 , 379 (1971)) (emphasis added).

The respondent has misleading and inaccurate statements throughout the Courts of San Diego CA, with his fraudulent case Civil codes 1710. The Misstatements are in regard to Mr. Flores injuries flowing from the Respondents negligence. Respondent is attempting to paint a convoluted story of petitioners claim in attempt to make sure the Court understands, the petitioner position and need for this Court to grant a remand to the trial court.

STATEMENT OF APPEALABILITY

Entry of Judgement of dismissal after the trial court sustain a demurrer without leave to amend is appealable under Code of Civil Procedure section 904.1(a)(1)

Petitioner again asks this court to decide whether the statutory period of limitation applied to his case under the facts presented by petitioner in his Complaint, and new facts learned, provide that he has pleaded sufficient facts to state a claim and that the statute of limitations for actions for his injuries can be tolled.

CONCLUSION

Petitioner Eduardo Flores Respectfully prays for a rehearing and reversal of the order on the October 4, 2021 denying petitioner for writ of certiorari to the Supreme Court of the United States.
