RE: 21-5621 *US disabilities rights*

On December 10, 2021, I would like to request the court to rehear the case as the grounds are limited to intervening circumstances of substantial and controlling effect: in good faith for more than a decade to accommodate a solution. The dangerousness of this family court ruling and its explicit nature continues the unlawful division of the parent child relationship left vulnerable to the interruptions of the third party Defendant that produced documented perjury in the matter of 21-5621 as presented within the Writ Mandamus. The treatment of the minor children and disabled Plaintiff in this action are held to these permanent controlling effect(s) that resulted from the unaddressed procedural defect being allowed to remain.

This case is not only for the children and disabled Plaintiff of 21-5621, but for all US families of disabled people who do not have the facility to request the Supreme Court of the United States to review this disabilities procedural defect in all US court(s).

Sincerely, all means have been exhausted in the New York State lower courts and seek refuge within the jurisdiction of this court to intervene and find a solution ending this procedural defect and judicial bias against those disabled.

The Defendants continue to pursue actions as a means of obtaining control of my life by means of misrepresentation and fraud and pursuit of extortion on the Plaintiff's former life pre-injury. As presented in the Writ Mandamus 17-1732 and 28847 - 2008 under the incorrect file number of 532767.

I certify that this petition for rehearing is presented in good faith and not for delay.

Patrick di Santo:
