## Certification for Rehearing

This certification sets forth the 4 grounds that warrants intervening circumstances of both substantial and controlling effect to petition for rehearing and being bound and restricted to these 4 grounds established for this petition for rehearing. This petition for rehearing is issued in good faith and not to cause any form of delay, but to seek true justice and recompense rightly from the highest court in the Lands for the outlawry sustained by the federal judicial branch of government who held defendants and themselves above the law. Whereas, this certification is duly made under the pains and penalty of perjury of these United States so help me God. Amen.

Respectfully submitted, for I am

Note: It is nevertheless shocking to have seen this petition for writ of certiorari denied by the highest court of this Nation. Given the facts, evidence and affidavits on record, confirmed this Black Indian Man does not have right to be heard or have his day in any court within this country commonly called the UNITED STATES, aka, (*the Great Corporation*). This country has truly lost its vision of liberty that further verifies and confirms God's word that this Nation is at its end. (*Revelations 18: 1-8 KJV.*) Seeing this high court regarded this petition for writ of certiorari as non-relevant and unimportant and a waste of this Court's time.
