Dear Mr. Tabor,

We hope that you are doing ok in these difficult times. As you may know, the trial for the class action lawsuit that was filed against David Wade Correctional Center is scheduled to begin January 10. During the course of trial, we will be presenting medical and mental health records to prove the claims that DWCC does not have an adequate mental health program. In our preparations, we have identified some of your records to be included in our presentation to the Court.

Because trial is open to the public, that means the evidence we present to the Court will be made public. As such, we are requesting your consent to present part of your story to the Court including your name. We are asking to use your name in connection with your story while we present evidence to the judge because it is important to show the judge that you are a person, not just a DOC #, or an inmate. If you consent to us using your name in open court, please sign the enclosed consent form and return it to us as soon as possible.

If you are not comfortable with your name being included on documents that will be presented publicly during the trial, we request that you notify us as soon as possible and you will instead be identified only by a number.

We are on a very tight timeline to provide information to the Court before trial, so we request that you let us know if you consent or decline as soon as possible. We need to have responses back by December 30 if possible.

We wish you strength in solidarity.
