MOTION FOR MORE TIME  
TO FILE PETITION

Now comes Appellant pro se and moves this court for more time to file his Petition for a Writ of Certiorari. I can file it by 15 March 2022. I will be moving to file without paying fees.

The date the U.S. 5<sup>th</sup> Circuit Court of Appeals filed its opinion is 24 Nov 2021; case no 20-30456. My 90 days are up 22 Feb 2022.

The petition I will file regards a civil case opinion from the 5<sup>th</sup> U.S. Court of Appeals. The subject is Academic Freedom.

*original*

My petition is complete; I just need to produce and pay for the ten copies and copy to Appellee.

The cost of producing 12 copies of the petition at the Staples store is estimated to be about \$400. I do not have that kind of money or available credit: I have \$8 cash and about \$210 credit balance left on a credit card this day 2/15/22. My monthly Social Security check net is \$975. I have a once per year pension payment of \$3200 that comes about 1 April each year. I can order 12 copies of the petition by 5 March 2022 using my 1 March 2022 Social Security monies, and have my petition and motion copies to proceed in forma pauperis in the mail to the Court by 15 March 2022. 15 April would be even better.
