15 I submitted my original petition timely and requested reconsideration because  
16 on Oct 2, 2023 on my docket it said, "Petition Denied." I then discovered upon resubmission  
17 that my petition had been defaced before it was even considered and marked in a  
18 pejorative manner that precluded its acceptance for review. I believe this is unfair treatment  
19 by the clerk of the court and request fair review of all my petitions and appendixes and letters.  
20 I request an outcome in my favor because I am right with the law and any emotional, untrue,  
21 unbalanced opposition to my legal success should be overcome and the law dealt with  
22 through its execution. I request a "rehearing" as Ms. Nesbitt has required in her 6/11/24  
23 letter.
