} i.e., New S.Ct Ruling Pending

Petitioner certifies that his Request for a Rehearing is based on a pending S.Ct Ruling that should specifically address his motions be denied under precedence of 28 USC § 2241.

The pending S.Ct ruling under "Jones v Hepdrix" will clarify and readress my "Rehair v U.S" claim timely filed.

The District Court erroneously denied said claim under a Now-Valid stipulation, later over-turned addressing whether I knew I was a felon. As my records will reflect I am not a felon but, the Court denied §2241
