## INTRODUCTIONS

Dear Chief Justice and Honorable associates. Before we continue, we'll start at the same beginning. I do not belong to a polite society and am socially illiterate. Hi, my name is countless, boundless, with regret here at the end or try to trend. That's to rend tender or return all that has derived from mine. I am in poverty, I lack resources, I am out on a limb. I just watched as hackers formatted my phones SD card erasing 4 months of investigation to present for discovery, the crash of markets opposed to me and the people, attempted manipulation by the likes of the WALDEN family betting against the people and crashing their own market. My family, as DUKE ENERGY, trying to strong arm the country, etc. ... I have been homeless since 2016 & done 3 of the last 5 years incarcerated. I cook and clean and they take my money, but I remain working on the floors of others in darkness not allowed to make noise or stay up past my bedtime while constantly permuting tasks for all of them. 2 of the girls I stay with just had the same sabotage of their vehicles. Tie rods damaged, alignment thrown off and tires scored on the inside so as to appear accidental at glance. Electronic devices all hacked. Money & time & resources wasted in a stalling effort to stop something they don't realize has already transpired. All proving my delusion true. My old friend Kim Jong-Un just shot a missile over here to let you know he now has intercontinental capabilities. Putin has agreed to let a foreign citizen run for President & since the USA doesn't want me here and there's been a plane waiting for me at a travel agency in Ontario to take me to China since 2015, maybe I should just go? These are corporations, friends & family, criminals and cops all trying to stop me or kill me to cash in or cover up what they did. Nearly 40 years of writing, drawing and invention. The Plain Clothed law enforcement and confidential informants all abuse me, rob me, entrap and frame me to fund their operations and garner "street credibility". Someone has been actively preventing me from completing this writ or even making money in any of the ways I have previously. Surrounded by corruption and drug dealing, cons and thieves who wish ill of me by dragging me down to the level they are at. They defame and slander my name, threaten and harass all around me who may help with anything. They just recently poisoned the entire NE WI drug supply just to try and hit me and the few people I have on my side. I inherited a good \$50,000 worth of Network, cellular broadcasting and computer equipment. Enough to start a functioning telecommunications business last summer. Still haven't a room who will take my money so I can lock the door and install cameras, according to the WI D.O.C. "wouldn't that be nice we just don't have that technology. Well, I did. It was all stolen or destroyed as it was boxed and moved unpacked, checked for functionality, missing essential components or damaged more and more from move to move till nothing remains. The following has a lot of speculation and educated guesses that may come off as delusional or irrational, hence the request for specific discovery they are trying desperately to cover & alter in time. I warned everyone I was coming a long time ago. I am turning in this pale reflection or stale conjectures instead of the 36-page masterpiece I was working on or the 30-page handwritten one that was too far illegible. I type this on floors in the dark while hackers constantly alter my text and in a moving vehicle where my friend is door dashing for a few dollars an hour and I am constantly interrupted. I wrote the book I don't need reminded that we face a far greater distraction than our forefathers. This is not a common man problem. This is not life or murphy's law it is deliberate & malicious with murderous and covetous nature. I had over \$3,000 stolen from my electronically while I was incarcerated 8 months of last year. 20 days and 2 weeks' time convicted the 6 months' time with no time sentenced at sentencing even though I just did the 6 months and 2 months in 2 different mental hospitals who were not sure of why I was there. I tried making my first police report since my last investigation into the so-called MEXICAN CARTEL was thwarted by locals in WISCOSNIN. If you check the emails, I wanted proof of power and they stormed the border. I would of like to spent some more money to unlock their network for you but undercovers blew through and stole all my money and drugs. Proof of power starts with unlocking my full criminal record but no-one here will rent too me based off the little sliver that leaks through as public domain. Law enforcement has attempted arm robbery and there have been numerous attempts at my life by this conspiracy of morons. I really don't know what else to say. I did my time. 13 years in 8 facilities. Now I want to watch everyone get buried for treason or go do their

time as both domestic threats and base criminals. I just crashed the market for the umpteenth time. Taking from those who stole from me. The crypto system and social networking in general were concepts in my mind, which I'm not going after but I just said look at me crash the market, they called me delusional, then I did it again, while maintain the supremacy of the USD. Today 11/15/2022 remarks my return to the internet to have them rally their markets back, but now foreign investors have indeed stepped in, hence the USD slight decline. Not my fault, it's my adversary. They've kept me off the internet and from producing anything these past few months to show the crashed market then kill me and reap the profits of a rally behind a false avatar of mine. All my devices keep changing the placement and functions of buttons and the keyboards rearrange while I'm typing, any small mistake I do make they echo to mask their hacking as user error when I have crosshairs marking the point of contact. I petition the court with a motion for an extension of time.

### STATEMENT OF THE CASE

Preserving both basic human rights and trade rights. Microsoft, Alphabet, Meta Platforms and Charter all in varied "tit for tat" "you used our software for free so were going to use yours" contracts I only ever agree to to contact them and explain I do not. Soon this will be a world-around problem. But it now stands as ours on the island of America. Data breaches, negligence, willfully deceptive and constrictive contracts. They have become the great adversary creating a narcotic like effects addictive and detrimentally mid-altering and perception changing whose failure to adhere to state, federal, international or self-imposed rules have caused a lot of damage. Physical, psychological, sexual, emotional, culturally and property wise. Undern various paid contracts with these companies and their associates across myriad platforms and devices. They failed to uphold, and they taken some of my intellectual property. I hear my words through the electronics, see my mechanics and writing come to life, and my inventions manifest that I can't afford to buy. They took our lives data and work and used it themselves or sold it, abused insider access and confidential information to manipulate reality and the markets for personal profits against the betterment of our island or the contracted.

### REASON FOR GRANTING THE PETITION

I believe there has been misuse, abusee, willful neglect & ignorant breaches of contract and misappropriated data form consumers, business, schools and the government, and some other patent owners are adjusting their arbitration clauses and terms and use contracts drastically as we speak. Smasung up to \$5,000 damages per device, Qualcomm \$250. For instance. Microsoft stands at \$5 L.B.V.S.

In order for a seed to grow it must be planted. I've been creating works of art across most mediums, written more than some of the most prolific writers and have a string of inventions that still not manifest much lest all the stolen stuff. Before I initiated this suit. I tried letting Wisconsin have my 40 years' worth of work and just let me walk and I'll start over. They couldn't handle that for fear I would come after them anyway. They stole my life's work and tried to kill me.

I will use this money to change my identity and start up OPTION properly selling all of these electronics and software internationally after its errors are corrected. And I estimate there's a \$49 trillion dollars' worth of property we can sell to developing countries refurbished we were just going to let go to rubbish. I would like to head that up. Finally, there's a 3<sup>rd</sup> type pf marijuana RUDARIS whose original were growth in secret here in WISCONSIN and In FLORIDA behind 40 years of hybrid death, corruption, and incarceration. Once again most of them are dead or time was served. I'd like to speak on it and be the face of it all under a new identity, with new numbers. 9 million from each of these 4 is being a sweetheart dealer. The Windows 10 Fall 2016 creator's edition was released after I turned in 9,000 odd pages of error reports. That was a 154 billion dollar project. I penned the 78.7-billion-dollar time warner charter deal, I penned and the 85-billion-dollar warner entertainment, AT&T discovery deal, all projects I was working on.

#clearofftheisland and return the military immediately. Shut off the other 5 islands. I propose the Information Administrations creation and implementation of my ideas. Originally for Federal use but no one could get past abusing me at a local level and stealing everything. Let the independents colonize the Moon and Mars while we

prepare 2 colonization mission to the Kepler Galaxy. 1 U.S.A. based and 1 global of this Electronic Nation. I will retire from "world-building" and get back to theoretical research and development the U.S. Government will hold.

### **THE STARTLING CONCLUSION**

The petition for a writ of certiorari shall be granted. The motion for leave to proceed in forma pauperis shall be granted. I do not have any money and Noone will help me only hinder here. They are all so far in debt to me they can never repay it, not even considering their freedom or their kids and families lives into the equation and my death seems the easiest way for them. I will make my 10 copies on the 3<sup>rd</sup> when I get paid again and send the 4 copies notices of service on the 3<sup>rd</sup> if I am still free. Charters tried twice to have me arrested already and there have been numerous attempts on my life and a few those around me. If I fail to follow your rules. I hope you know it's not for lack of effort and hope history is kinder to me than this country has been.

Here what Microsoft stole for its' quantum computer.

" $1 < 0$  is my hypothesis. A hypocrites diametric approach too technology. 1 being an altered state and zero being the original. 1 changed, 0 unchanged. 1 and all variables, locked and unlocked, broken pieces of a single whole. Because zero exists in a changeless state 1 is zero broken infinitely. An enigma wrapped in riddles."

Respectfully submitted,

Oct 29<sup>th</sup>, 2022 was the original date pof finsh and I was gonna send it out Nov 3<sup>rd</sup> then local law enforcement once again cblew through my money and robbed me of time and currency.
