I

We tried 3-three times to Condense our writ. We could not. The letters would be too Small to See at 40 Pages and there would be little to no Spacing. We tried to get bigger Paper because the Paper the Prison gives us right now is not Normal size least 1-one Page. See Page 74 of our writ. That Page was Saved by our Secretary months ago when the Prison gave that size that we think is $8\frac{1}{2}$ by 11 Inch Paper. So now with smaller paper and bigger margins on that Paper we are left with less Space, and a need for more Paper use.

We then tried to make extra lines on the Paper like on Page 81, and that still did not Condense the writ much.

Moreover We have a lot of issues to cover. The S.Ct. rules say All contentions in support of the Petition must be set out in the body of the petition? We did not want to put a Separate brief in the Appendix, while Under some other title trying to hide the fact of a Separate brief because then we would be breaking other rules.

Had we Stopped at Page 40 we could not cover:

- Our role as a Republic
- Why a Statute is Unconstitutional
- Why a Contract is impaired

• and exactly how our equal protection of laws Civil Rights have been violated, and if we could not get these points across we may not get any relief. Lastly we are mainly represented by the one above captioned. So a bit more testimony was needed. And there are 17 defendants and we had to cover their role in our Civil Rights Violations to help the court understand of App I of this application.
