Office of the Clerk  
Supreme Court of the United States  
Washington, District of Columbia 20543-0001

Re: Application No. 22A8

To Clerk:

I have received the response for my motion for a stay dated July 1. It has not been ruled upon with all the evidence, which you now receive along with my required certificate of service.

Of course I am disappointed at the response, but I only expected to be issued a filing number, not a decision as of yet. And the only justice I requested single-justice review from was Clarence Thomas. I am allowed to request a specific justice for reviews of this type, and I would be happy to go back to the state law library and send you and the Supreme Court of the United States a copy, but I do not believe it necessary, unless you do not believe I am speaking the truth.

So, as promised, is my certificate of service, and the final order of the Seventh Circuit, which was not reviewed along with the motion. Please have it seen by Justice Clarence Thomas, whenever he has time, and if he denies as well, ask if he may be so kind as to give his reasoning, as he is able.

Sincerely,
