

No. \_\_\_\_\_

---

IN THE SUPREME COURT OF THE UNITED STATES

---

RICK SEARCY,

*Petitioner,*

v.

CENTRAL INTELLIGENCE AGENCY, *et al*

*Respondent,*

---

APPLICATION TO FILE A PETITION FOR A WRIT OF CERTIORARI  
IN EXCESS OF THE PAGE LIMITS

---

*Comes Now*, Rick Searcy *Pro Se*, petitioner herein and does respectfully request leave to file an extended 'Writ of Certiorari' Brief, for the following reasons,

1. The petitioner, for compelling reasons needs to file an over-length 'Brief' for the following reasons. A) The additional pages of briefing are necessary to assist the court with the significant issues raised in these matters, especially as they pertain to the corrupt and fraudulent actions taken by the respondents at every given opportunity, including their attempts to prevent the filing of this 'Brief' altogether. B) This 'Brief' addresses some of the most important subject-matter ever brought before this court including; 'Immunity' in all its forms, as this issue has been concluded incorrectly by

this court for the duration of its historical application. C) Point five of this 'Brief' addresses the illegal use of psychotronic weaponry on American citizens without their consent, and upon closer examination will lend potential answers to what really took place on Jan 6, during the 'Alleged' insurrection, leaving numerous citizens without adequate means of defending themselves in the court proceedings that have already transpired. D) the information contained in this 'Brief' includes numerous evidence of state officials and governmental authority figures involvement in nationwide pedophilia and sex trafficking and its importance cannot be overstated.

*Wherefore*, it is with the greatest humility that the petitioner requests this court to allow him to file an extended brief to adequately address these issues and preserve the appearance of propriety for an onlooking nation needing the members of this court to rise above political predilections and maintain the preservation of Constitutional ideology.
