6.

Elizabeth Madrigal Walker's Sworn Statements

(1) I early voted on February 22, 2020 at approximately 7:00pm at the Senior

Center in Acworth located at Cobb County Kennworth Park, 3900 S Main St, Acworth, Georgia 30101

(2) I arrived at the voting location with my husband, Paul Walker, and my daughter, Hannah Walker who were also early voting. My younger daughter, Naomi, was also with me but not eligible to vote as she is only eleven years old.

(3) The process of voting seemed simple and direct. They had two table areas, a voting booth, and a validation voting machine (what the poll worker called the machine where you deposited your voting print-out).

(4) At the first table, I was asked to fill a voting form with my personal information.

(5) Then I was directed to go to a second table and sit down in front of a poll worker. My daughter, and I both walked together to the second table. As I was sitting down next to my daughter, I was re-directed to sit one chair over and away from my daughter. As I sat down, I turned in my voting form. The first question I was asked was "Did you register to vote?" my response was, "Yes". The second question that I was asked was, "Do you have your ID?" my response was, "Yes". Then the poll worker asked me to give her my ID.

(6) While the poll worker was checking my voting form and my ID, a young gentleman came in and put half of his body on the table and barely lifted his head. I remember thinking

to myself that this person did not look old enough to vote as he looked my son's age. He seemed about 15 or 16 years of age. The immature way he handled himself caught my attention and I looked over to see what he was doing? I noticed that the young gentleman did not have a voting form with his personal information. He was also asked the same two questions I was asked, "Did you register to vote?" and "Do you have an ID?" He responded "No" to both questions. Then the person who was in-charge of the voting process, said "I'll help y'all"(slang). Then they both left the table and he proceeded to a voting booth.

(7) I was still waiting to get my ID (driver's license back). What I witnessed did not seem right to me. After I voted our family went outdoors to take a few pictures. This was the first time my daughter voted as she turned 18 this year. I remember not saying much to Hannah initially about what I just witnessed as I did not want to say something discouraging or negative the first-time, she ever voted.

(8) After we were done taking the pictures around 2:35pm approximately, my daughter said, "the guy sitting next to me did not have a registration form or ID." This is a different young gentleman then the one I witnessed who was also helped to vote with no ID and no registration according to my daughter. The poll worker helping this gentleman was different then the poll worker helping the gentlemen witnessed. My daughter communicated that "it seemed very suspicious." She also said that the person in charge of handling the voting process, smiled and said quietly to the young gentleman, "Oh, I got you."

(9) We believe the two young gentlemen (or teenager boys) that my daughter and I witnessed voting without being registered and with no ID were also accompanied by a few other teenagers or younger gentlemen.

(10) The description of the young man I witnessed: black teenager, around 15 or 16 years old, skin color-black, tall, thin, wearing a dark hoodie sweater and hat/cap.

(11) The description of the poll worker I witnessed: black woman around 45 years old, medium-set, short dark hair and long nails.

(12) The description of the young man my daughter Hannah witnessed and stated to me: black teenager, tall, wearing a black hoodie sweater that was halfway on his head.

(13) The description of the poll worker by daughter Hannah witnessed and stated to me: heavy-set black women.

AFFIDAVIT OF ANGELA GAYLE FITZGERALD

Comes now, Angela Gayle Fitzgerald, and after being duly sworn makes the following statement under oath

1. My name is Angela Gayle Fitzgerald.
2. I am over the age of 21 years, and I am under no legal disability which would prevent me from giving this declaration. If called to testify, I would testify under oath to these facts.
3. I reside at 15 Morning Dove Ct., Newnan, Georgia 30265.
4. I arrived on ELECTION DAY (November 3, 2020) at approximately 5:15 PM at the Newnan Performing Arts Center located in Coweta County, Georgia.
5. I stood in line and presented my driver's license to the poll worker. The poll worker checked me in and I signed the poll pad. I was told to go to a vacant polling booth. I went to a vacant polling booth and realized I needed a green card.
6. The poll worker overseeing the voting booths told me to stand back in line to retrieve a green card. Once I reached the beginning of the line, I informed the poll worker at check-in that she did not give me a green card. The poll worker took a green card out of her polling pad, gave it to me and told me to go to a vacant polling booth.

EXHIBIT G-19

7. I went to a vacant polling booth, inserted the green card and received an error that stated a vote had already been registered with that card. I informed the poll worker in the voting room and he told me to try another voting machine. I tried another machine and received the same error.

8. The poll worker told me to stand back in line and inform the poll worker at check-in of the issue. I went to a different poll worker and was given a new card, but this poll worker did not look up my information. At this point, the polling manager escorted me to a polling booth, inserted the green card, and received the same error message that the card had already been voted. The poll manager typed in an authorization code on the admin screen to override the error. At no point did she ask which precinct I was in.

9. I was able to vote and print my ballot. I went to scan my ballot and the scanning machines repeatedly spit out my ballot (approximately four (4) times.) There were four (4) separate scanners and I tried to scan my ballot in each one. Every time I tried to scan my ballot, it was rejected. The poll worker overseeing the scanner told me to put my scanned ballot in the bin in the back of the machine. I asked what happens after this and he responded that when the person authorized to touch the ballots came in that they would scan the ballot. The worker said that if the ballot still would not scan then they would

hand count it. I asked if there was a guarantee that my vote would be counted and the poll worker said no, that he could not guarantee that.

10. I placed my ballot in the bin and left. I was at the polling precinct for approximately forty-five (45) minutes.

I declare under penalty of perjury that the foregoing is true and correct.

AFFIDAVIT OF JORDAN TRUESDALE

COMES NOW JORDAN TRUESDALE, who having been first duly sworn before an officer authorized to administer oaths, deposes and states as follows:

1. My name is Jordan Truesdale. I am over eighteen years of age and competent to testify to the matters contained herein. I voluntarily and freely make this Affidavit on my own personal knowledge for any and all uses and purposes authorized by law.
2. I am a resident of Dekalb County, Georgia.
3. I moved into Dekalb County in July 2020. I previously lived in Memphis, Tennessee.
4. In mid-September 2020, I registered to vote in Georgia, and my registration was complete by mid-October of 2020.
5. I requested an absentee ballot on October 15, 2020, and received the absentee ballot about a week later.
6. However, after filling out my absentee ballot, I decided to vote in person on Election Day instead. Thus, I did not mail in or drop off my absentee ballot anywhere before Election Day.
7. On the morning of Election Day, November 3, 2020, before going to vote, I went to the DMV to obtain a driver's license, and the DMV issued me a temporary (paper) driver's license.
8. I thereafter went to vote at Marbut Elementary School in Dekalb County. I arrived at the polling place around 9:45 A.M. on November 3, 2020.
9. At first, the poll worker seemed unsure that I would be able to vote using my paper license.

10. Then, the poll worker told me that the system indicated that I had already voted early in person. I explained that I did not vote early in person, and that I had requested and received an absentee ballot but never mailed it in or dropped it off.
11. I then retrieved my absentee ballot from my car and presented it to the poll worker.
12. The poll worker made a phone call, and then told me that according to the system, I was at the wrong polling location. Specifically, I was told that I was supposed to vote in Gwinnett County.
13. I responded by showing the poll worker my My Voter Page from the Georgia Secretary of State Website, which listed Marbut Elementary School in Dekalb County as my polling place.
14. The poll worker continued his phone conversation for about five more minutes. After that, the poll worker was able to somehow bypass or clear the message in the system indicating that I had already voted early in person. I was then able to vote using the ballot machine.
15. I gave my absentee ballot to one of the poll workers upon request.

6. The woman told me that other people at the polling location had run into the same problem.

7. She gave me a phone number, 1-833-547-8683, to call to see if my vote was counted. I called them in the evening of November 3, 2020, and the gentleman I spoke to said that there was a computer glitch from the Secretary of State's office. He told me that this had happened to a lot of other people. I don't know what he considers a lot.

8. I am concerned that somebody voted for me because they knew I am disabled and assumed that I wouldn't be able to vote in person. The man I spoke to on the phone said that no one voted for me; it was just a glitch. He did not say whether or not they would accept my vote. He said they would look into it, and gave the impression that they probably would accept it, but wouldn't say for sure.

9. I plan to call them again and find out whether my vote was counted.

10. I couldn't have voted early because I was quarantined because of the virus. I live on an assisted living floor, and we are very strictly quarantined. I have to be escorted to the doctor, and cannot leave to go to the store or for other reasons. They only lifted the quarantine the day before yesterday.

11. My assisted living facility offered me an absentee ballot, but I never filled it out because I wanted to vote in person. Someone from the facility drove me to the polling place and took me back after.

12. I have voted many times and this has never happened. This situation is totally perplexing. I don't understand how a glitch can make it look like I already voted when I haven't.

5. I presented my driver's license id to vote and was told that, according to the voter registration system, I was in the wrong precinct since my driver's license was issued to someone with a name different from mine in Fulton County Georgia and that I was not registered to vote and could not vote.
6. I was shocked and surprised when I was told this since I have lived in Epworth for the past 8 years and I have voted in this same voting precinct a number of times.
7. I then spoke with the Poll supervisor, and told him that I was recently married and that I changed my driver's license the day before the

8. I called the Georgia Voter hotline to complain and I am making this affidavit because I am very concerned that my right to vote in person was almost denied as a result of a software error and I am concerned that my license appeared to be in the voting database showing a Fulton County address and a different person.

1. My name is Kristen Watt. I am over the age of eighteen (18) years, I am suffering from no legal disabilities, and I am competent to make this Affidavit. I voluntarily and freely make this Affidavit on my own personal knowledge for any and all uses and purposes authorized by law.
2. I am a registered Georgia voter. My permanent address is 1989 Tuttle Ave, Conley, GA, 30288 and my phone number is 678-519-7971.
3. On November 3, 2020 at approximately 9:30 A.M., I arrived to vote at the Cedar Grove United Methodist Church at 3430 Bouldercrest Road, Conley, GA, 30288. I had requested an absentee ballot, but it never arrived so I decided to vote in person.
4. I came in and was directed to a desk to scan my ID. The poll worker scanned my ID and it showed that I already voted. She scanned my ID a second time and it still showed up as having already early voted. Both times, the poll worker showed me the screen that said that I had voted already, even though I had not even received my ballot.

EXHIBIT G-33

5. I was directed to the "voting center" table to speak with a woman who seemed to be in charge. This woman tried scanning my ID again and got the same result.

6. I explained to her that I had applied for an absentee ballot but never received it. The woman called her supervisor, and had me sit and wait while she called. This wasn't a problem because the polling place was not crowded.

7. The supervisor told the woman to have me fill out a provisional ballot. I filled out all of my information, then filled out the actual ballot. The ballot was put in an envelope, and then the envelope was placed in a second envelope which was then put in a special bag

8. They gave me a number to call and check the status of my ballot. I called the number about two or three hours after I left the polling place, but when I called, the phone just rang and rang, then told me my call could not be completed and disconnected. The number was 1-866-335-8683.

9. I was told I had voted early in person on a day in October. I don't remember the day. It's not possible that I voted in person in October because I was away at the University of West Georgia the whole month of October, and only came

home on October 31 to get my car serviced. I have a receipt from October 31 in DeKalb County from when I got my car serviced after driving home.

10. I filled out the absentee ballot request form on September 25. I remember the date because it was the day before my birthday and I had gone home to get my hair, eyebrows, and nails done. I filled it out next to my grandmother.

11. I am certain that I did not submit the absentee ballot. I requested the ballot to be sent to my address at school. I checked in the mail room in my building every day during the month of October, and specifically asked the mail room workers about it. Other people in my building also requested mail ballots and did not receive them. I do not know if they had the same problem when they tried to vote.

12. This was my first time voting. I requested an absentee ballot in 2018 but never received it. I also requested a ballot for the 2020 primary. It did come, but I did not get it in time to vote.

The lady issued me a digital card to vote in the voting booth, and as she was preparing the digital card, the lady took the card out of the computer and said something was wrong with the card. She stated: "That card doesn't work." The lady set the card aside and gave me different digital card to use which lead me to believe that she had configured the first card against the ballot and issued me a "dummy" card or something. I voted with the second card and got a printout. I took the printout to the ballot reader which rejected my printout three times in a row. Finally, they did something to the scanner, and the

scanner accepted my ballot. I don't know what the person did to cause the printout to go through the scanner.

6. I did look at the printout of my ballot, and the ballot appeared to be correct. However, the scanner didn't seem to want to accept the printout.

7. Since I was suspicious of the lady issuing the digital card, I made sure to vote in the booth closest to the lady. I wanted to see what she was going to do with that card. She just kept it in her left hand off to the side the whole time I voted. She registered another person and kept the first card to the left. She kept the card separate from the pile she had in front of her. When I left the voting precinct, the card remained in the lady's left hand.

5. During early voting and in the week before Election Day, I arrived at the Fulton County polling precinct located at the Georgia International Convention Center, 2000 Convention Center Concourse, College Park, Georgia 30337.

EXHIBIT G-46

6. A friend, Michael LaCagnina, has described his voting experiences in a separate affidavit. When he voted in DeKalb County on October 25, 2020, he watched the poll worker question the man in line ahead of him after the man had produced his identification. The poll worker asked the man if he had received an absentee ballot, and after the man told her that he had received an absentee ballot, the poll worker asked the man where his absentee ballot was. The man told the poll worker that the absentee ballot was in his car and asked if he should retrieve it. The poll worker indicated that he did not need to, and the man proceeded to vote.

7. As detailed in my friend's affidavit, after he finished voting, a poll worker took his ballot from him and reviewed the ballot before my friend had a chance to scan the ballot. My friend was upset by this experience, and he called me as he left the polling precinct. He still does not know whether the poll worker ever scanned the ballot.

8. Because of my friend's experiences I have described above, I brought my absentee ballot with me to the Fulton County polling precinct. However, after I provided my identification to the poll worker, she did not ask whether I had an absentee ballot. She simply gave me a plastic card to operate the machine and pointed me towards the voting machines.

EXHIBIT G-47

9. A sign beside the voting machines instructed voters first to return the plastic voting cards to the workers seated at the tables at the side of the convention hall before taking their ballots to be scanned. The scanner was located at the entrance to the hall. After I voted at the voting machine, I printed my ballot and began walking quickly to the scanner. By the time I was halfway across the convention hall, a poll worker seated at the tables on the side stood up and started waving at me. I ignored her and she began to run, not towards me but towards the scanner. I made it to the scanner and was able to begin scanning my ballot before she reached me. She then took the ballot from the bottom of the scanner along with my card. I believe that my vote was scanned, but I am far from certain it would have been had she reached the scanner first.

I declare under penalty of perjury that the foregoing is true and correct.

AFFIDAVIT OF MICHAEL LACAGNINA

Comes now, Michael LaCagnina, and after being duly sworn makes the following statement under oath

1. My name is Michael LaCagnina.
2. I am over the age of 21 years, and I am under no legal disability which would prevent me from giving this declaration. If called to testify, I would testify under oath to these facts.
3. I reside at 755 North Avenue, Atlanta, Georgia 30306.
4. Although I now reside in Fulton County, I am registered to vote in DeKalb County. During early voting, I arrived at the DeKalb County polling precinct on Sunday, October 25, 2020 around 3:00 p.m. at Coan Recreation Center located at 1530 Woodbine Avenue SE, Atlanta, Georgia 30317.
5. As I waited in line to vote, I watched as the man in line in front of me was questioned by the poll worker.
6. After the man showed the poll worker his ID, she asked him if he received an absentee ballot. I heard him tell her that he had received an absentee ballot. The poll worker then asked the man where his absentee ballot was. He responded that "It's in the car, should I go get it?" The poll worker shook her head indicating "no" and gave the man one of the plastic cards to use

in the voting machine. I watched the man proceed to the area with the voting machines.

7. After I voted at the voting machine, a different poll worker was waiting by the scanner where I was supposed to scan the ballot which the machine had printed. The poll worker beside the scanner took my ballot from me and looked over the candidates I had chosen. He then took my ballot and plastic card from me and thanked me. I did not see him scan my ballot.

8. The whole experience made me feel uncomfortable, and when I left the polling precinct I immediately called my friend, Mitchell Watkins, who is an attorney. At the time we discussed whether the man in line had been able to vote twice, and whether the poll worker beside the scanner had actually scanned my ballot after he had taken it from me and reviewed the candidates for whom I voted. I was concerned but only after the election did I see the significance of the activities I witnessed.

I declare under penalty of perjury that the foregoing is true and correct.

Comes now, John Moelter, and after being duly sworn makes the following statement under oath

1. My name is John Moelter.
2. I am over the age of 21 years, and I am under no legal disability which would prevent me from giving this declaration. If called to testify, I would testify under oath to these facts.
3. I reside at 2853 Stirling Ridge Ct, Milton, GA 30004.
4. I requested an absentee ballot from the Georgia Secretary of State in order to vote in advance of Election Day, November 3, 2020.
5. One week before the election, I completed my absentee ballot and dropped it into one of the Fulton County absentee boxes at the Alpharetta Library.
6. Out of concern over the growing issues which were being reported regarding absentee ballots, on Election Day, November 3, 2020, I went to my polling precinct in Fulton County.
7. I presented my identification to vote and was told that my absentee ballot was not in the Fulton County system. The poll worker had me fill out an affidavit to void my absentee ballot and I was permitted to vote in person.

EXHIBIT G-52

8. According to the Secretary of State's website, my absentee ballot was cancelled, and it further indicates that I "Voted In Person".

9. In spite of this, on the day after Election Day, Fulton County sent me a text message which indicated that my absentee ballot had been received and that my vote had been counted.

10. I am concerned that I may have voted twice, and that I would have no way of knowing which ballot was counted, or whether both were.

I declare under penalty of perjury that the foregoing is true and correct.

DECLARATION OF NATALIE CATHERINE STARLING

Pursuant to 28 U.S.C. § 1746, I, Natalie Starling, make the following declaration.

1. I am over the age of 21 years, and I am under no legal disability which would prevent me from giving this declaration. If called to testify, I would testify under oath to these facts.
2. I am a voter in Screven County.
3. I reside at 1622 Airport Road, Sylvania, Georgia 30467.
4. At approximately 6:40 a.m. on November 3, 2020, I arrived at the voting precinct located at the Hunters Community House, 312 Hunter's Road, Sylvania, Georgia 30467.
5. I was one of the first individuals in line to vote.
6. When I entered the voting area, there were two tables in the front that each had one tablet.
7. The poll workers at these tables were scanning our IDs.
8. I noticed that the man in front of me was confused.
9. I heard the poll worker tell him that "He had already voted."
10. Then, I noticed to my right, the same issue was occurring with the citizens at the second table.

EXHIBIT G-54

11. These citizens could not cast a vote because they too appeared to have already voted.
12. I heard poll workers tell these citizens that they had already voted.
13. I thought maybe these incidents were a coincidence, and assumed that I could cast my ballot without a problem.
14. I have voted at this same location multiple times.
15. I have never had an issue until today for the 2020 Presidential Election.
16. As they pulled the man in front of me to the side, I noticed a woman who had received a card to vote.
17. She went to the voting booth and inserted her card.
18. The machine told her that she had already voted.
19. She returned the check-in table because the machine said she could not vote.
20. Then, it was my turn in line.
21. I came up to the check-in table and handed the poll worker my valid Georgia Driver's License.
22. The poll worker asked me verify my address.

EXHIBIT G-55

23. I verified my address at 1622 Airport Road, Sylvania, Georgia 30467 by signing the tablet presented by the poll worker.
24. The poll worker then began to ask me a series of questions: "Did you vote early?"; "Did you vote Absentee?"; "Did you request for an absentee ballot?"
25. I shook my head back and forth stating "No" to each question.
26. I did not vote early.
27. I did not vote absentee.
28. I did not request an absentee ballot.
29. At the time I presented myself to vote, I had not yet cast a ballot in the present election.
30. The poll worker also asked if I had ever resided in multiple cities, including Macon, Georgia.
31. I have never resided in Macon, Georgia.
32. My permanent address has been in Sylvania, Georgia since 2005.
33. After signing the tablet and verifying my address, the poll worker informed me that I had already voted and requested my license.
34. At this point, more and more people were being denied the ability to vote for the same reasons: poll workers were informing them that they had already cast a ballot.

EXHIBIT G-56

35. When it became apparent that each person had the same issue, the Poll Manager took our IDs to the back in order to try to call someone and sort out the problem.
36. I witnessed poll workers inform multiple voters that they had "already voted."
37. I also witnessed voters attempting to vote and receiving a message from the voting machines and printers that said, "Printer not ready. Contact the poll worker for assistance."
38. I witnessed a voter insert her card into the voting machine.
39. The voter told me "the machine stated that she had voted twice already" and that she could not cast her ballot.
40. She informed a poll worker of this issue.
41. I could not hear exactly what the poll worker said.
42. In less than an hour, multiple people had the exact same problem: the voting machines stated that the voters had already voted.
43. I know this because I could hear the poll workers discussing this problem with other voters.
44. While waiting for the Poll Manager to return with my driver's license, I collected the names and numbers of the following individuals who had the same

EXHIBIT G-57

obstacles to voting: Charles Hendricks, Laura Hendricks, Chris Tillman, Larry Rovers, Betty C. Lee, Tonya James 'Burroughs, Benny Weathers, and Michael Taylor.

45. The Poll Manager eventually returned my ID and instructed me to cast a provisional ballot.

46. People who had been waiting with me for their ID walked away without casting a provisional ballot.

47. At approximately 8:14 a.m., I cast an Official Provisional Ballot.

48. I also filled out additional documents such as the Absentee Cancellation Affidavit.

49. Although I did not request an absentee ballot and told the poll worker I never requested an absentee ballot, the poll worker told me to sign the Absentee Cancellation Affidavit.

50. I also received a Screven County Elections Office letter stating: "Please be advised that your ballot will be returned to the Registrar's Office where we will make every effort to determine whether or not your vote can be counted."

51. Out of a room of ten people, only two of them were able to vote electronically without any issues.

EXHIBIT G-58

52. Only 20% of the people in the room were told that they could vote while the other 80% were told that we had already voted.
53. After I exited the precinct, I called the county registrar.
54. Specifically, I called Debbie Brown at (912) 564-2783.
55. I spoke to the secretary for Ms. Brown.
56. The secretary informed me that, across the county, voters were being forced to cast provisional ballots because the records stated they had already voted.

I declare under penalty of perjury that the foregoing is true and correct.

- 3. On November 3, 2020 at approximately 2:30 P.M., I arrived to vote at the Clairmont Presbyterian Church at 1994 Clairmont Rd, Decatur, GA, 30033.
 - I told the poll worker that I never got my absentee ballot and asked who I could talk to about signing affidavit.
 - The poll worker called someone to void an absentee ballot. They had to read off my license number to find the information. The poll worker and the computer showed it was delivered in mailbox and returned. I think she said it was delivered on October 18th, and I think date it showed it was received back was October 22.
 - I never received or submitted the absentee ballot. I wonder if someone took my ballot out of the mail and submitted it.
 - I signed an affidavit saying I never received the absentee ballot and voted by a provisional ballot.
 - The poll workers told me that my vote should be counted by Friday, November 13 at the latest.
 - This situation is upsetting to me. It is very important to me that my vote is counted.

7. On Election Day, November 3, 2020, at 9AM, my wife and I arrived at Spring Creek Church, located at 2636 Chulio Road S.E., Rome, Georgia, 30161.
8. This is the voting precinct that we have been voting at for forty (40) years.
9. Both of us brought our unopened absentee ballots to turn in.
10. I presented my driver's license to vote and was informed that, according to the computer, I had already voted in town, in person, during the early voting period.

4. I arrived on ELECTION DAY (November 3, 2020) at approximately 12:30PM at the Newnan Centre, located at 1515 Lower Fayetteville Road, Newnan, GA 30265.
5. I was directed to a table, where I presented my driver's license. I was informed by the poll worker after she had scanned my license that their records showed that I already voted, even though I had not. I informed her that I had not already voted, and she instructed me to proceed to another table.
6. I discussed the issue with a second poll worker. She asked me if I had requested or submitted an absentee ballot, and I told her I had not. She then made a phone call downtown, and they checked my status. They affirmed that I had not yet voted and assured the worker I should be able to vote in the usual manner. I was instructed to return to the original table to try the process again.
7. When the original worker scanned my license again, she ran into the same problem with the system stating I had already voted. She directed me to a third poll worker. This poll worker tried again on her system, but she experienced the same issue. She then took me to a voting location herself, inserted a voting card into the system, and
