Re: Your July 11, 2024 letter to refile the Motion to Dismiss Petition for Writ of Certiorari #23-6613 and #23-6614 in SCR Rule 46 compliance 23A947 and 23A918

Although regrettfully I do so because of the cost to continue these with the U.S. Supreme, and is because I know and think the Petitions have merit, and the Respondents' conduct and it as violations of the claims presented in the now formatted to the required word count Rule 33.1 writs, but with no funding to pay to print and file them please accept these motions as the Petitioner's motions to voluntary dismiss #23-6613 and #23-6614.

I tried to call your office today to and you and I discussed your letter to refile the two motions filed July 8, 2024. One each was for the Motion to Dismiss (MTD) #23-6613 and #23-6614 in compliance with SCR Rule 46, which Jeffrey Atkins's signature had returned to do so. I indicated in the phone call that the motions were MTD with an 'In the Alternative Stay' to find funding to pay the approx \$10,000.00 required for printing and filing those in SCR Rule 33.1 booklet format after the IPF for those cases was denied.

So per our call I am resending the documents you sent and this letter to indicate these motions as the SCR 46.2(a) motion for voluntary dismissal of both cases. Also as discussed your letter has these as #23A947 and #23A918. I also have #23A490 and #23A484 for #23-6613 and #23-6614.

I paid a large amount to have the motions sent to you by the servicing company and to deliver both motions to the Court. Refiling costs for these motions is costly. Being so enclosed are the copies you returned to accept as discussed for filing. Can you also include this letter with the motions if possible, so they know these dismissals are for funding to continue these cases and are not to the 'question presented' or merits in the IPF writs or these SCR Rule 33.1 ready Petitions.
