5) **Questions Presented:**

- (A) Did the Eleventh Circuit Court have **legal jurisdiction** to hear and rule on my case since this case ***did not*** originate in Florida? *{Established by Congress in 1981, the United States Court of Appeals for the **Eleventh Judicial Circuit** has jurisdiction over cases **originating** in the states of Alabama, Florida and Georgia. The circuit includes nine district courts with each state divided into Northern, Middle and Southern Districts}* (<https://www.ca11.uscourts.gov/about-court>).
- (B) Currently, should my case be heard by the Florida Supreme Court since I am **now** a citizen of Florida?
- (C) If people can't speak English, do they meet all requirements to be disabled?
- (D) Why didn't the Circuit Court Clerks allow for the Judges to review the appeal for a Rehearing?
- (E) Are the federal laws, rules and requirements for disability including ADA, recognized and adhered to in the US and the State of Florida?
- (F) Are the ALJ's and Courts allowed to intentionally misrepresent, misquote and misapply laws?
- (G) Are the ALJ's and courts allowed to intentionally **disregard/omit** relevant and pertinent evidence submitted by the appellant?
- (H) Why aren't the lower Courts lawfully and correctly applying the federal disability laws/rules stated above (# 4) to the case for the appellant?
- (I) Are the appellees intentionally legally allowed to alter a Judge's decision?
- (J) Are the Appellant's treating medical professionals considered Medical Experts?
- (K) Can the US Supreme Court apply the federal laws and rules for disabled persons and for person under the ADA (***Americans With Disability Act of 2008, As Amended***) in accordance to, and as they are federally described and amended?
- (L) Will the US Supreme Court overturn any prior rulings regarding this case, should they find, in accordance to federal disability laws for persons with combined disabilities, the

appellant should be legally and rightfully granted/entitled to have received her social security disability benefits retro May 20, 2015 through December 31, 2020?

(M) Is it required by law for the ALJ and the lower courts to disclose their claims of proof of "preponderance evidence" as opposed to it just being stated within their written decisions?

RESPECTFULLY SUBMITTED January 5, 2024

## **FEDERAL RULES INVOLVED**

### **Under the disability federal laws:**

**20 CFR 404.1571 et seq.; ( [REDACTED] ) – ALJ, Anthony Reeves:**

The claimant [has not engaged in any substantial gainful activity] since 5/20/2015, the alleged onset date (20 CFR 404.1571 et seq.) – ALJ Anthony Reeves (3/30/2020).

Some payments shown after the alleged onset date are the receipt of disability payments (1 E/3; 2F/2; 13E/1). The claimant worked after the alleged disability onset date but this work activity did not rise to the level of substantial gainful activity (14D-17D) – ALJ Anthony Reeves (3/30/2020).

1 E/3; 2F/2; 13E/1; 14D-17D; (Confirmed in favor of appellant – ALJ, Anthony Reeves):  
Some payments shown after the alleged onset date are the receipt of disability payments (1 E/3; 2F/2; 13E/1). The claimant worked after the alleged disability onset date but this work activity did not rise to the level of substantial gainful activity (14D-17D). – ALJ Anthony Reeves (3/30/2020).

20 CF'R 404.1520(c); SSR 85-28; (Confirmed in favor of appellant – ALJ, Anthony Reeves):  
The claimant has the following severe impairments: obesity, degenerative disc disease of the lumbar spine, and left DeQuervain's tenosynovitis {20 CF'R 404.1520(c)}. – ALJ Anthony Reeves (3/30/2020).

SSR 85-28; (Confirmed in favor of appellant – ALJ, Anthony Reeves):  
The above medically determinable impairments significantly limit the claimant's ability to perform basic work activities as required by SSR 85-28. – ALJ Anthony Reeves (3/30/2020).

**Section 216(i) & Section 223 of the Social Security Act and Amendments laws of disability:**  
**Section 216(i)** of the Social Security Act provides for the establishment of a period of disability, and **section 223** provides for the payments of disability insurance benefits under conditions therein specified. As herein pertinent, both sections prior to the enactment of the Social Security Amendments of 1965 on July 30, 1965, defined "disability" as an **inability** to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or to be of long-continued and indefinite duration.

In pertinent part, **sections 216(i) and 223 of the Act, as amended, now define "disability"** as an inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death **or which has lasted or can be expected to last for a continuous period of not less than 12 months**.

When a claimant's entitlement is dependent on the amended definition of "disability," disability insurance benefits are not payable for any month prior to September 1965 [section 303(f)(1) of Public Law 89-97]. Entitlement to a period of disability may not be established under an application, if the period would have **ended more than 12**

**months before the date such application was filed [section 216(i)(2)(E) of the Act as amended in 1965].**

The Amendments of 1965 eliminated the provision of the Act which specifically limited the prospective life of disability applications. The Act now provides that if a claimant meets all the requirements for entitlement at any time before the Secretary issues a final decision on an application, such application shall be deemed to have been filed in the first month in which all requirements were met.

The general issues before the Appeals Council are whether the claimant is entitled to a period of disability and to disability insurance benefits under **sections 216(i) and 223**, respectively, of the Social Security Act, **as amended**. The specific issues are whether the claimant was under a "disability," as defined in the Act either prior to or **after the Amendments of 1965**, and if so, when such disability commenced and the duration thereof; and whether the special earnings requirements of the Act are met for the purpose of entitlement.

**The American Disabilities Act of 2008, as Amended:**

Passed House amended (06/25/2008)

ADA Amendments Act of 2008 - (Sec. 4) Amends the Americans with Disabilities Act of 1990 (ADA) to redefine the term "disability," including by defining "major life activities" and "being regarded as having such an impairment."

Sets forth rules of construction regarding the definition of "disability," including that: (1) such term shall be construed in favor of broad coverage of individuals under the Act; (2) an impairment that substantially limits one major life activity need not limit other major life activities in order to be a disability; (3) an impairment that is episodic or in remission is a disability if it would substantially limit a major life activity when active; and (4) the determination of whether an impairment substantially limits a major life activity shall be made without regard to the ameliorative effects of specified mitigating measures

(<https://www.congress.gov/bill/110th-congress/house-bill/3195>).

**(d)(1) The term "disability" means—**

**(2) For purposes of paragraph (1)(A)—**

**(A)** An individual shall be determined to be under a disability only if his physical or mental impairment or impairments are of such severity that he is not only unable to do his previous work but cannot, considering his age, education, and work experience, engage in any other kind of substantial gainful work which exists in the national economy, regardless of whether

such work exists in the immediate area in which he lives, or whether a specific job vacancy exists for him, or whether he would be hired if he applied for work. For purposes of the preceding sentence (with respect to any individual), "work which exists in the national economy" means work which exists in significant numbers either in the region where such individual lives or in several regions of the country.

(B) In determining whether an individual's physical or mental impairment or impairments are of a sufficient medical severity that such impairment or impairments could be the basis of eligibility under this section, the Commissioner of Social Security shall consider the **combined effect** of all of the individual's impairments without regard to whether any such impairment, if considered separately, would be of such severity. If the Commissioner of Social Security does **find a medically severe combination** of impairments, **the combined impact of the impairments shall be considered throughout the disability determination process.** In determining whether an individual is able to engage in substantial gainful activity by reason of his earnings, **where his disability is sufficiently severe to result in a functional limitation requiring assistance in order for him to work**, there shall be excluded from such earnings an amount equal to the cost (to such individual) of any attendant care services, **medical devices, equipment**, prostheses, and similar items and services (not including routine drugs or routine medical services **unless** such drugs or services are **necessary for the control of the disabling conditions**) which are necessary (as determined by the Commissioner of Social Security in regulations) for that purpose, whether or not such assistance is also needed to enable him to carry out his normal daily functions; except that the amount to be excluded shall be subject to such reasonable limits as the Commissioner of Social Security may prescribe.

(5)(A) An individual shall not be considered to be under a disability **unless** he furnishes such medical and other evidence of the existence thereof as the Commissioner of Social Security may require. An individual's statement as to pain or other symptoms shall not alone be conclusive evidence of disability as defined in this section; there **must be medical signs and findings, established by medically acceptable clinical or laboratory diagnostic techniques, which show the existence of a medical impairment that results from anatomical, physiological, or psychological abnormalities which could reasonably be expected to produce the**

**pain or other symptoms alleged** and which, when considered with all evidence required to be furnished under this paragraph (including statements of the individual or his physician as to the intensity and persistence of such pain or other symptoms which may reasonably be accepted as consistent with the medical signs and findings), **would lead to a conclusion that the individual is under a disability**. Objective medical evidence of pain or other symptoms established by medically acceptable clinical or laboratory techniques (for example, **deteriorating nerve or muscle tissue**) must be considered in reaching a conclusion as to whether the individual is under a disability.

## INTRODUCTION

Since May 20, 2015 through December 31, 2020 and current, I have been suffering debilitating disabling, life limiting conditions for which, I have wrongfully and continuously been being denied my disability benefits for my multiple declining, combined debilitating, mental and physically restrictive permanent disabilities which, are not properly being applied to the federal laws regarding persons with disabilities as stated **despite**, the medical advice of **multiple independent** medical expert's written reports and findings; and despite the **Virginia Appeals Counsel** sending the case back to Dover, Delaware for **further** action and **reconsideration**. It is **obvious** my disability benefits are intentionally being illegally withheld from me because, **the laws aren't properly being applied** to my disability case. **FURTHER**, the appellees and the courts continue to base their rulings on 2 doctors; one who has **never** examined nor spoke with me, and the other is another doctor **for the appellees** whom I've only met once for 15 minutes who **never** ordered any sort of lab work to back up his own opinion(s). **ADDITIONALLY**, the appellees and the courts continue to **intentionally ignore** the fact that I have **never** been medically released to return to work, as it is **not only** required but, it's also indirectly shown by the **Delaware Department of Labor** which, was also presented as evidence to the appellees, **ALI** and lower courts.

In addition, the appellees continue **withholding evidence** from the courts, intentionally misrepresenting and misinterpreting the written medical notes and reports from the appellant's medical experts and maliciously not applying the federal disability laws, which would prove the appellant **does meet** the federal requirements of being a disabled person thereby, successfully **altering** the courts rulings/decisions in their (appellees) favor.

I personally **do not** see what is so confusing for the lower courts and **ALI**; the **federal disability laws appear to be very clear** and shows, within its own descriptions and many definitions, that I have met the requirements and that I **am** a disabled person **who should** be entitled to **justifiably and rightfully** receive my disability benefits for which, I have legally earned from working wages since 1981 to 2015 (**34 consecutive years of employment**).

**Further**, the courts granting the Certiorari will also help **clarify** if this case was heard in the proper circuit court (11<sup>th</sup> Circuit) of jurisdiction since this case **did not originate** in Alabama, Florida nor in Georgia, in accordance to the 1981 established Rules/Laws by Congress for the 11<sup>th</sup> Circuit Court.

As a natural born citizen of the US, I will continue to push for my rights to receive my disability benefits. It is **unfortunate** that someone who has given so much of themselves for and to this country and its citizens, becomes disabled before their retirement age and have to fight this hard & this long for this country to recognize and respect their rights as an American Citizen who is entitled to their disability benefits.

**With the above being state, I am respectfully pleading to the US Supreme Court to please hear or review my case issues and properly explain and apply the disability laws to my case so that, I may finally, after 8+ hard long years of appeals, receive my benefits and proceed to live out the rest of my life to the best of my ability...in peace.**

**The US Supreme Court's decision to grant this petition and review the disability federal laws for my case, would be more than welcoming.**

### Statement of Case

Since May 20, 2015 through December 31, 2020 and current, the appellees have continued intentionally engaging in federal misconduct of misrepresenting and withholding pertinent evidence from the courts to successfully sway the courts rulings in their favor, and abusing their power of authority over me and my federal Rights as a disabled person. I have wrongfully and continuously been being denied my disability benefits for my multiple declining, combined debilitating, mental and physically restrictive permanent disabilities which, are not properly being applied to the federal laws regarding persons with disabilities as stated despite, the medical findings and advice of multiple independent medical experts written reports, and despite the Virginia Appeals Counsel sending the case back to Dover, Delaware for further action and reconsideration. It is obvious my disability benefits are intentionally being illegally withheld from me because, the laws aren't properly being applied to my disability case in addition to, the federal laws being manipulated via misrepresentation and interpretation. FURTHER, the appellees and the courts continue to base their rulings on 2 doctors; one who has never examined nor spoke with me and the other is a doctor whom I've only met once for 15 minutes who never ordered any sort of lab work to back up his own opinion. ADDITIONALLY, the appellees and the courts continue to intentionally ignore the fact that I have never been medically released to return to work, as it is not only required but, is also indirectly described by the Delaware Department of Labor (Apdx. A), the State in which, this case originated. Additionally, a Washington Post reporter wrote a detailed ad about the many errors and misinterpretations on federal disability laws by some lower courts and ALJ's (**Judges rebuke**

This brief Statement of Case summary written above helps to explain some of my challenges and why, in accordance with Supreme Rule 39, I have filed this **Petition for WRIT OF CERTIORARI**.

## REASONS FOR GRANTING THE PETITION

The court should grant Certiorari to clarify the proper scope of the Federal Disability Laws. This court should grant review in this case to provide guidance on how to apply the Federal Disability Laws; federal disability law issues/arguments that has continued to confuse the lower courts and prevent them from achieving a proper understanding of these federal laws thus, wrongfully and unjustly continue causing me to be denied my disability benefits.

I personally do not see what's so confusing; the **federal disability laws appear to be very clear** and shows, within its own descriptions and many definitions, that I have met the requirements and that I am a disabled person who should be entitled to and rightfully receiving my disability benefits.

Further, the courts granting the Certiorari will **also** help clarify if this case was heard in the proper circuit court of jurisdiction since the case **did not** originate in Alabama, Florida nor Georgia (**1981 Congressional Law for the Eleventh US Circuit Court**).

Another reason the Certiorari should be granted is because, my ability to function in real-time is severely limited and impaired which, makes court appearances of any sort without counsel impossible which, is why the judges will not be able to see for themselves how I have to maneuver with combined disabilities, in order to try to get around the best I can. It seems past courts, judges, ALJ for social security, the appellee's attorneys, and some court employees have abused their position of power and dominance over me for advantage, knowing I am especially vulnerable because I am disabled, have to proceed Pro Se because, I don't have the money to hire a lawyer who can properly present, fight, legally and correctly make sure the federal disability laws are applied to this case on my behalf and in the best interest of me.

I had been working since I was 14 years old consistently through 2015, and all I respectfully ask of the US Supreme Court is to acknowledge the federal disability laws as they are written and for those case related laws to be **correctly interpreted** and correctly applied to my **combined disabilities** case in addition to, overturning prior decisions that were poorly interpreted and "picked apart" **to favor the appellees** and award me my Just due of disability benefits retro May 20, 2015 through December 31, 2020.
