STATEMENT OF THE CASE

FACT

US Patent 7,152,840 predicted a book holder that would hold a device like camera, or a laptop computer in a mobile vehicle in 2009.

US patent 7,521 840 predicted a book holder with laptop Ina mobile vehicle in 2007/2009 the prediction came true.

US Patent 7,152,840 predicted panel for charging/pivotal Connection in mobile vehicle, this prediction is happening as we speak, the court is my witness, it is merit, and a call for Justice and a violation of the constitution, rule 112, rule 102.

All a copier has to do is to change an insignificant part of a patent, rule 271, no copyist should copy any part of granted US Patent

The Court Opinion That US patent 7,521 840 Did not Cover The Defendant Product.

I thank the court for accepting that the defendant camera is standing on one of US Patent 7,152,840 arm. I plead with the court to ask the defendant to remove their product from my granted book holder, the styled arm. The arm is removable attached, and adjustable from the platform to the base. I have the support of AIA, and rule 112 , 271, 102 and 103. The Defendant does not have the ground. Thank you, Your Hon.

I ASK THE COURT TO EXAMINE CONNECTOR, PIVOTAL CONNECTION, INTERCONNECTING, PIVOTAL INTERCONNECTOR  
The Court narrated their difficulty in finding my claimed Camera, I thank the Court, please allow me to follow this word. The word is strength forward, an American language, the word was described in the specification, and the word was described in the claim of US Patent 7,152,840 . the same word interconnecting, pivotal interconnection, pivotal Connection.

Earlier in this case and others I have informed the court that the appeals court has requested the claimed terms Pivotal Connection, interconnecting, pivotal interconnector, widest meaning, the district Court has very much ignored all my request, except one attempt by Judge in 2019, but Judge widest meaning of the pivotal connector or connection was focused on the social meaning, whereas US patent 7,521 840 meaning of the word pivotal Connection or interconnecting was focused in devices or electronic.

Your Hon. Whereas the unified court system in this matter has adapted the use of Markman claim construction, wherein a Markman claim construction requires a clear meaning of each word to determine what it

means to the claim, whereas I have ask the court to define the meaning of an interconnector, pivotal interconnector, pivotal Connection ,or connector, see this case appendix, all the appendix submitted to the court, all the court ignored it. Whereas the Court fail to promote plain field, and find the device, camera, whereas the judgment is in defaulted, should be void and vacated and reopen to adapt all requirements of rules in Markman claim construction.

SEE FIG. 8, PAGE 5, PARAGRAH 1-3. Description of the common word in specification, and claim called connector, pivotal Connection, pivotal interconnector .

Fig. 8, paragraph 1, line 7 and 8

Wherein, the specification said the book holder is to hold" book and other devices" (Fig. 8, paragraph 1, line 7 and 8.) example GAMES, PUZZLES AND BOOK may be in book or in a device, eg. E Book

Fig. 8, paragraph 2, line 10 and 11of the specification said the platform ."

Lastly, the pivotal connection 420 (FIG. 4) between the arm 14 and the support platform 12."

Your Hon, Pivotal Connection is the claimed word, wherein in a plain field, it is a device, an electronic device, or camera. see the claim section, Page 6, paragraph 3, line 10.

Whereas the specification designed the platform to hold "The book platform 12 may also be used to support such items as audio/video equipment, PDAs, or mobile phones, cameras, computers, musical instruments, toys, puzzles and games. The panel 16 may be provided with a set of mounting positions for receiving and/or mounting the above items (NOT"

#### LEGAL

Claimed connector, pivotal Connection, pivotal interconnecting, interconnector other are law. (Search under technology or electronic.)

35 USC 271

#### TOOL

To rule out any stopple Fig. 8, described the tools beyond stopple. See Ottah V. VeriFone, 11 CV 6187 RMB

The term grip means, and include removable attach book holder to assemble to a support frame or structure in a mobile vehicle.

A grip member include hand, glue, tapes, grove screw, grove pipe, cork screw, cork screw driver, others.

SECURE GRIP ; hardware, screw, screw driver, bolt, bracket, nail, base,

base holes, others

SOFTWARE GRIP; audio video and equipment, chip, conductor, semi-conductor, remote, motor, cable, wireless, ports, camera, laptop. Others

Further from estopple is camera and laptop

The book platform 12 may also be used to support such items as audio/video equipment, PDAs, or mobile phones, cameras, computers, musical instruments, toys, puzzles and games. The panel 16 may be provided with a set of mounting positions for receiving and/or mounting the above items (NOT SHOWN"

Claimed connector, pivotal Connection, pivotal interconnecting, interconnector other are REQUIRED BY LAW (MARKSMAN CLAIM CONSTRUCTURE)

Lastly, item like book, puzzle, game are in books and device Your Hon.

Trying to explain to the court what the term pivotal, Connection, Connector, interconnector, pivotal Connection, pivotal interconnecting. Whereas, I found a clear meaning and explanation in the court system.

THE COURT PACER.

the court Pacer is a pivotal, interconnecting or connection through the use of electronic or technology devices. With all respect, Your Hon. you Knows and have use Pacer.

This is exact the pivotal Connection claimed and expressed or illustrated in Fig. 8, page 5, paragraph 2, line 10 and 12. and in Fig. 8, page 5, paragraph 3 of US Patent 7,152,840. It is the same device or CAMERA , from a link network to a

connector in the defendant Buses and vehicles. Please see the claim, page 6, paragraph 3, line 10 and 11.

US Patent 840 have predicted the pivotal connection before the advent of VeriFone Network, that is the dispute, and defendant is liable.
