**RE: *Meghan Kelly v Patricia B. Swartz, et al.* No.:21-3198 Critical documents
unavailable to conceal court misconduct attached hereto to be included in as
Additional documents at 39-2, which is D.I. 4 below, 21-1490**

May 7, 2022

Dear Clerk:

I write to include additional documents, in 39-2. They include some of the most important documents, which I filed on October 25, 2021 in the District Court below. They should have been available to the public on D.I 4 below.

I copied the district Court docket items from a temporary Lexis trial password, and wrongly assumed all of the documents I filed with the Delaware District Court would be exact.

They are not complete. D.I. 4, the big exhibits relating to the complaint are missing the most important documents, including but not limited to my complaint, briefs in *Kelly v Trump*, and most importantly documents entitled A-4 and A-5, as well as the other documents attached hereto. I noticed when I printed them out,

today May 7, 2022. D.I. numbers 2263-3082 at 39-2, DI 4 below, are missing, possibly under seal, despite no motion, no notice or opportunity for me to be heard.

The Delaware Supreme Court took off A-4 and A-5 as well as the two motions contained therein from public record, sealed to conceal the court's misconduct and collusion. Attached, please find these motions. The Delaware Supreme Court's staff, Joanne, stated the missing records, the two motions and A-4 and A-5, were sealed not destroyed. I was not provided or an opportunity to be heard. It appears the state and federal court concealed certain documents to the public to prejudice my case to cover up the Court and its agents' own wrong acts.

A-4 and A-5 are available on the United States Supreme Court's web site, under docket number 21-5522, and are of public record.

These two documents, A-4 and A-5 are the most important documents for the Third Circuit to review, as part of my motion and part of my case. Please include all of the documents, in D.I. 4, at 39-2, as well as the documents therein. These are other documents are critical too, including the docket entrees for Kelly v Trump, compared to the Lexis version, which is missing, Exhibits A-4 and A-5, the *Appellant's Motion for the Delaware Supreme Court to require the recusal of the Honorable Chief Justice Collins J. Seitz, Jr. in this matter*, and *Appellant's Motion for the Delaware Supreme Court to reign in its arms through its agents from unlawfully pressuring Appellant to forgo or impede her case to protect her free*

exercise of religion by relief it deems just. The old docket I filed with the United States Supreme Court includes all entries.

The Delaware Supreme Court mentions the motions in its opinion, as moot. Yet the motions are invisible. Please excuse any errors. I have not slept and I am a nervous wreck at this unconscionable unjust conduct to fix the state and federal proceedings against me, destroying my life.

Dated May 7, 2022

Thank you,

/s/Meghan Kelly

Hello,

Attached, please find an emergency addition to 39-2, which should be included with the big documents. These are the most important documents for consideration.

It appears the state and federal court concealed them to the public to prejudice my case. Please find the lexis document which shows A-4 and A-5 do not have a document link. They are under seal. Also note, two motions are missing,

Very truly,
