APPLICATION FOR RETIREMENT (Form DB-27)

Notice is hereby given that I apply for retired status, pursuant to Pa.R.D.E. 219(i). In taking this action, I fully understand that after the Supreme Court issues an order transferring me to retired status, I shall no longer be eligible to practice law in Pennsylvania and will be relieved from the payment of the fee imposed by this rule upon active practitioners. I further understand that if I remain on retired status for three years or less, that I may be reinstated by paying the annual active fee for the three most recent years or such shorter period in which I was on retired status.

By signing this form, I acknowledge that I am aware that: 1) under Pa.R.D.E. 201(a)(3), the Supreme Court of Pennsylvania and the Disciplinary Board retain jurisdiction to discipline me for misconduct; 2) if I am convicted of a crime, I have a continuing duty under Pa.R.D.E. 214(a) to report the conviction to the Office of Disciplinary Counsel within 20 days; and 3) if I am disciplined by another court or in another jurisdiction, I have a continuing duty under Pa.R.D.E. 216(e) to report such to the Secretary of the Disciplinary Board within 20 days. I also certify that, to my knowledge, there are no ongoing investigations into any misconduct on my part in this or any other jurisdiction.

time, so as not to prejudice my appeal and civil rights cause or cause additional loss of my fundamental rights due to lack of resources, meaningful opportunity and time to present all my cases, simultaneously.

51. I certify under Local Rules of Civil Procedure, United States District Court for the Eastern District of PA, Rule 7.1 (c) that this motion is uncontested, and thereby is excused from the requirement to file a brief.

52. I face great undue burden, as I attempt to file documents, with limited means, in other courts. Denying a stay would increase the undue burden, and increase the workload on this court unnecessarily.

Wherefore, I pray this court grants this motion.

and 30 (b) Motion in Response to the ODC's Reply to my Motions, my declaration under religious protest, and Exhibits A through C thereto.

It may take me more time to email these documents. I apologize for any lag in time or inconvenience it may cause in this Court's uploading of files, as I email them to paed_documents@paed.uscourts.gov.

I am unclear as to whether additional items are sealed, including the doctored subpoena in Chancery Court Case No 2020-0309, or other items referred to or related to my docket.

I will acquire additional time to determine whether the records are accurate. I am not sure whether the law librarian Galen Wilson will help me with this. I told him about a Lexis's sister service which enables lawyers to see all pleadings on public record. He purchased this at a flat rate with Delaware Supreme Court's law library. He helps the public for free, that includes you should you need assistance. He is the only law librarian with this resource and may be reached at (302) 255-0845, or galen.wilson@delaware.gov.

48. The Court may not require forced indebtedness, through costs, in violation of my religious beliefs because its justification to compel forced violations of my religion is not narrowly tailored in this case. Since, the Court may grant an exemption to prevent the government forced violation of my religious beliefs, from costs.

49. As applied, this Court may not apply costs to compel me into involuntary servitude in violation of the 13th Amendment in my case too. I certainly do not willfully choose to violate my religious beliefs against indebtedness.

Wherefore, I pray this Court grants this Motion.

I also noticed immediately, Exhibits 16 and 17 were uploaded without context. DI 12-4 and DI 12-5. Also Exhibits contained in the same email were filed quite far apart, which creates confusion of the facts. Attached, please find Exhibits BB and Exhibit CC, incorporated herein by reference. I am not done printing out the documents or reviewing them. I must place this case aside as I was told another proceeding for discipline was expedited in bad faith to my response for a stay.

I am in immediate danger of irreparable injury. You may be contributing in placing me there should you deny my motion for rehearing on my motion for a stay to prevent violations to my constitutional rights.

RE: In the Matter of Meghan Kelly/ Case 2:22-mc-00045 / Extension of time to file a for cause motion

October 10, 2022

Dear Honorable Judge Paul D. Diamond:

I respectfully request additional time to respond with a for cause motion, should this court automatically report to all jurisdictions.

I got a flat on my bicycle tire. I am not sure what I will do about transportation. I alerted opposing counsel in my civil rights case and in my Delaware Disciplinary case, per the attached Exhibits incorporated herein as Exhibits A, and B.

To worsen matters, PA-ODC- rejected my request to stay proceedings. Please see Exhibits C and D incorporated herein by reference. I sent out pleadings to PA-ODC by riding my bicycle to the Post office on Friday, October 7, 2022. I seek to stay that case as well.

Because of surgery I had as a youth, I am in danger of death if I do not drink gallons of water a certain week of each month. I lose five pounds of water weight each month. I have consistently weighed less a week of each month for more than two decades due to dehydration. Please see the attached Exhibit E, incorporated herein by reference, which includes a medical exhibit and my proposals to improve our healthcare that harms. Healthcare is what has harmed me.

Dehydration is serious and may lead to death in my case. It has led to fainting in my life. I also have serious allergies and get anaphylactic shock. I have bad reactions to medicine, and oppose healthcare and mental healthcare on religious grounds.

I do not have good water. Without tags on my vehicle or money for gas, it is a time-consuming task to bike to the grocery store to buy water. In light of the fact I do not have time to fight 8 law suits simultaneously, I have not been able to drink enough clean water. I used to drink a gallon of water at the gym to prevent fainting and death. Now I do not have the means to go to the gym or to pay for a membership. Delaware prevents me from working as an attorney, and has caused me to focus all my time to address reciprocal law suits, appeals and the civil rights case to remedy their illegal proceedings.

On Friday as I was in line at the post office, I could not stand, my forehead had a cold sweat, I became dizzy, and a customer saved my life by getting me

water. As I sat down to collect strength to stand, the post office staff entered in the postage information on the customer's side, and messed up. I correctly, labeled the PA-ODC's information on my mail parcel. To my horror, on Saturday, October 9, 2022, the Post Office delivered me the package instead of PA-ODC. I talked to my post man, and asked him to look at the address which was a Philadelphia address and asked him to please try to fix the postal mistake. He took the package back after seeing my address was not the delivery address on the parcel. I also called the US post office's number. I spoke with a gentleman named Lionel. He put in a claim to correct the delivery.

The box is rather heavy. I am not sure what I will do if the delivery is not successful since the post office is located too far to walk to.

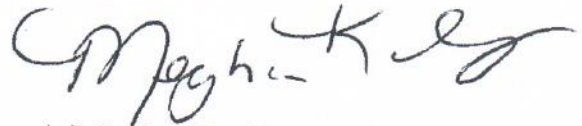

I also am attaching Exhibit F to show you one reason why I filed the law suit against former President Trump to dissolve his establishment of government religion by his attacks against democrats like me as seeking to eliminate the church or the bible, and his use of God, Christianity and the bible for his political vanity. People threatened me with bodily and property harm. A stranger talked about shooting me for my religious-political beliefs. One person shot two bullets in my friend's home based on his perceived religious or political beliefs.

I do not want to be harmed for my religious-political beliefs. I sought safety by the courts, only to be persecuted by the courts based on the members disdain towards my religious-political beliefs or poverty.

Freedoms are not free and are illusion if they require a bartered for exchange, making only those who have something other than their souls to exchange free to exercise First Amendment rights of religious belief, exercise, association, speech and petition.

Thank you for your guidance and consideration.

Respectfully,

Office of Disciplinary Counsel

1601 Market Street 3320

Philadelphia, PA 19103

RE: Report Discipline Order PA Bar No 202268 Retired/Supreme Court No 2913 DD3

September 3, 2022

Dear Anthony Sodroski,¹

On September 2, 2022, I received a letter from the Pennsylvania Supreme Court in Pittsburgh, PA relating to Meghan Kelly, matter No. 2913 DD3.

I also received a notice on my door that I missed a document. I left a voice message with your office concerning this fact.

I am arguing motions, and intend to draft and file a motion in the original disciplinary Court this Tuesday, September 6, 2022.

¹ I have religious opposition to using Mr., Mrs. or Miss, or Ms. I am a Christian, a child of God. I believe Jesus Christ teaches us not to use these titles to categorize people based on marital relationship or sex. See Bible, *Matthew 23:8-11*, also see, *Galatians 3:28* ("There is neither Jew nor Gentile, neither slave nor free, nor is there male and female, for you are all one in Christ Jesus."). I am called to unconditional love and respect others, not based on their relationship status or title as a male or female, as a parent, as married or single. Disparate treatment based on title as opposed to need is unjust.

Additionally, I brought a civil rights case, on or about October 25, 2022, in the Delaware District Court, No 21-1490, appellate Third Circuit Court, No. 21-3198.

In addition, there are a total of 6 other potential disciplinary proceedings against me, simultaneously, including the original Delaware proceeding. Reargument has not been decided.

The Delaware Disciplinary proceeding was first brought, informally, in interference with my case against former President Donald J. Trump ("Trump") to impede the outcome of the case, or to cause me to forgo my case, based on the Delaware Supreme Court's and the arms' of the Delaware Supreme Court political-religious animus, or poverty animus.

I brought a RFRA petition against Trump to alleviate a substantial burden upon my free exercise of religious belief, caused by Trump's establishment of government-political-religion, through a series of his identified conduct, and executive orders.

Trump's establishment of government-political-religion incited others to persecute me, socially, economically and physically, including by threatening harm to my property and life.

Someone allegedly shot into the home of my friend, Gregory Layton, almost hitting him and his wife as they sat at the kitchen table as two bullets entered their

home, based on Greg's perceived political or religious beliefs. I sought to safety from the Delaware Courts, only to be punished for asking for help. The Court punished me based on my religious-political beliefs contained in my religious-political-speech in the religious-political-petitions, and to cover up state misconduct.

The Delaware Disciplinary proceeding both informally and formally have lasted beyond a year.

Should this proceeding begin, it will likely last beyond a year too.

I seek to ask the Pennsylvania Supreme Court for permission to stay the proceeding, to allow me to file a "for cause" motion after the conclusion of **both**, my Civil rights case, regarding the disciplinary proceeding, and the original Delaware Bar proceeding before the Delaware Supreme Court, until the proceedings have been concluded, including the appeal to the US Supreme Court has been complete, or the time of appeal has lapsed.

Staying the proceeding will conserve judicial resources. A determination by the US Supreme Court on my appeal of the original discipling court may otherwise conflict with this Court's decision, or may give precedent, which may foreclose my case.

I am also considering appealing the Third Circuit's Reciprocal Disciplinary matter to the US Supreme Court, matter No. 22-8037. It appears those who have

been suspended or disbarred are afforded more Constitutional protections than those labeled “disabled” under the Third Circuit’s rules. (See *Rules of Attorney Disciplinary Enforcement Rules 6 and 16*) Disabled attorneys, unlike suspended or disbarred attorneys, are not permitted to file a “for cause motion” within 30 days of an Order issued reciprocating discipline to contest the original order on procedural defects and Constitutional concerns.

Essentially, the Third Circuit’s disciplinary rules appear to unconstitutionally disparately treat lawyers labeled “disabled,” by eliminating procedural due process protections, while affording more Constitutional protections to all other disciplined attorneys.

It is more advantageous to be disbarred than to be labeled as disabled under the Third Circuit’s rules.

So, I may ask for additional time, should I appeal the denial of receipt of documents for a “for cause” motion in the Third Circuit too.

Could you please let me know your position on my potential motions.

Instituting a case now will interfere with my appeal and civil rights case.

I am impoverished, unable to work at my former law firm, where I would be performing real estate settlements. I have been compelled to turn in my car tags. Car insurance is unaffordable, and I have religious oppositions to debt.

I also have religious oppositions to healthcare and mental healthcare.

This proceeding would cause a substantial burden on my exercise of access to the courts on appeal for the original disciplinary case, and in my civil rights case, by additional costs I am unable to afford, but for the original proceeding.

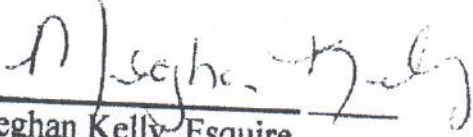

Your case will prejudice the outcome of my other two cases, by preventing me time and resources I require in order to make petitions in those two cases.

Attached, please find orders three jurisdictions who have instituted reciprocal disciplinary proceedings.

Thank you for your time and attention to this important matter.

Guest Column

Representative candidate says health is wealth

By Meghan Kelly, Esq.
Candidate, Delaware House
of Representatives, 38th District

My name is Meghan Kelly, Esq. I am a candidate for the House of Representatives in the Nov. 6 race in the 38th District. I am running, in part, because I have a desire to draft laws to create better health care for Delawareans, and I want to persuade the federal legislators to draft specific legislation to reduce the price of care instead of eliminating care to those who need it most by rendering it unaffordable.

I am uniquely qualified to propose solutions in this area as an attorney who studied the history of medicine at University of Delaware, and health care finance and health care law at Duquesne School of Law School. I even received a small scholarship for healthcare law.

So, I thank you for your kind consideration, as I truly care about serving the people in the community I grew up in, and love and protecting their life and health.

This week, I will write about improving health care concerning the state of Delaware. Next week, I will submit a suggestion to our federal legislators regarding making health care more affordable. Instead of reducing the

amount of care, I respectfully urge our federal legislators to reduce the price of care. Only they have the power to do so, I will not.

In Delaware, I specifically want to draft legislation to improve the quality of health care, instead of merely getting massive bad care. Funding is more easily received when health care entities and professionals are researching cutting-edge techniques, which is dangerous for patients since they are still working out the kinks.

Think of the National Institute of the Health (NIH), charities who accept funding from the army and NIH, and private research or health care entities who make money on analysis. So they can use patient's records to sell alleged health care miracles in bulk, based on data. Part of the HIPPA waiver we sign at each doctor's visit allows our information to be used in this scientific research. So, patients may be lawfully used as lab rats.

I want to draft legislation to prevent the abuses we have seen by doctors like Dr. Earl Bradley, who allegedly molested hundreds of children; repeal the involuntary sterilization statute; and make it easier to prevent doctor and health care abuse of patients for a buck...

I want to prevent doctors from prescribing addictive drugs under the facade of benefiting the patient, but in truth to benefit their own pockets, to keep patients coming back for prescriptions for their addiction, not for good health.

I want to stop doctors like the local Delaware doctor who used cutting-edge treatments, hip replacements, on people, including my father. He said everything was fine for years, despite readily available information to the contrary, to cover his own back, instead of serving the patients like my father, the legendary retired teacher, lifeguard and coach Pat Kelly of Indian River High School.

No care is better than bad care. Thus, I desire to create legislation to ensure our health care providers are taking care of the patients, not taking advantage of the patients for profit. Our laws serve money — not people, not patients.

I want to create laws that penalize health care professionals for drugging the elderly at the elderly homes to make them easier to tend, like vegetables. We need to value and respect our elderly, (not keep them in an institution for our convenience). These institutions should

See KELLY page A15

Kelly

Continued from page A14

be developed to serve and respect the elderly, not take advantage of them for a profit.

Now is the time to value human life and health more than money. Now is the time to hold health care professionals accountable for their bad choices to harm instead of heal patients.

I desire to repeal the involuntary sterilization statute in Delaware under Title 16, Chapter 57 of the Delaware Code. There is too much incentive to sterilize people to use their stem cells for profit and research, instead of alleged need. Besides, the fact is sterilization is barbaric and arguably violates Delawareans' right to life, liberty and pursuit of happiness, despite the United States Supreme Court decision in *Buck v Bell*, 274 US 200 (1927).

I desire to amend the medical mal-

practice act. It is very difficult to correct doctors under this act. In Delaware, a patient has two years from the date of the medical provider's misconduct, if a patient is younger than 6, until the patient's sixth birthday. The time may be extended in limited circumstances — for instance, if a doctor left a foreign object in a patient's body.

In addition to the short statute of limitations, in Delaware, you also need to get another health care professional to give an expert opinion concerning the malpractice of the medical provider. This is very tough to get because doctors do not want to give an opinion against a peer when they know they are capable of mistakes or a sloppy job, too.

The requirements of the expert opinion are also hard to meet. So, a lot of lawsuits are kicked out for failure to adhere to the requirements. For instance, if an expert says the doctor's act was a substantial factor in causing the harm, the opinion will get kicked out. In

Delaware, the expert must state the "but for" the doctor's conduct the harm would not have occurred.

Overall, if a doctor messes up on you, you most likely will be out of luck. The longer you wait to pursue legal relief, the tougher it will be for the attorney to find an expert required to have a case.

It is important to correct doctors, as the treatment they provide may harm other people for life or kill them. Since it's so difficult to sue, it's hard to prevent further harm by showing how certain treatments make people worse off.

That's why we must amend the medical malpractice act in Delaware. We must prevent further patient harm and deaths.

By electing me you will be electing a candidate that will fight for your life and health. You are priceless — more valuable than all the money in the world. By electing me, you will be electing someone who serves people, not greed.

Kelly seeks Federal Consideration of Health Care Proposal

My name is Meghan Kelly. I am an attorney running in the November 6, 2018 race for the House of Representatives seat in the 38th District, which includes Bethany Beach, Fenwick, Millville, Frankford, Ocean View, Selbyville and parts of Dagsboro.

I am running, in part, because I discovered I had a deep passion to change the laws to better serve people. I have had the opportunity to review proposed laws for more than ten years, starting at Richards, Layton and Finger, PA. I have proposed comments on legislation to other attorneys in different bar sections, such as Corporate Law, E-Discovery, Personal and Real Property. Each section votes by majority. Unfortunately, I always get voted out since I tend to seek what serves Delawareans better, instead of what is convenient and profitable to our own practice. So, I continued to look at alternative ways to improve the laws.

I made calls to legislators, met with people, sent emails and letters in an attempt to amend the laws. Unfortunately, I was not successful. Yet, every time I observed corruption, abuse or misuse of power, my desire to improve the laws grew stronger. So, I found myself paying the filing fee to run for office. So, here I am.

I am running for a state legislative position. Nevertheless, the point of this letter is to discuss a suggestion relating to affordable health care that I submitted to our **federal legislators and President Trump's Delaware liaison, Councilman Rob Arlett**, in an attempt to gain their kind consideration at the federal level. Only the federal legislators will be able to address this issue, I will not. I am printing parts of some emails I sent to Rob Arlett in hopes the **federal officials** will reduce the price of health care instead of eliminating care to those who need it the most by rendering it unaffordable.

"...President Trump's initial idea was brilliant. Focus on reducing the cost of care instead of indirectly eliminating care, due to the astronomical cost. I understand your concern about appealing to emotion, but I believe people will die if they cannot afford care, just like many did prior to 1986.

Prior to 1986, Emergency Rooms ("ERs"), were turning away pregnant ladies and people in need of immediate care, due to their lack of insurance and inability to pay. Babies had complications, lots of pregnant moms died. It created public outrage.

So, Congress enacted Emergency Medical Treatment & Labor Act (EMTALA) in 1986, by using its power under Article 1 Section 8 of the Constitution, (the spending power), to require all hospitals with Emergency Rooms accept all patients regardless of their lack of insurance and inability to pay. Congress attached strings to such entities, by requiring the ERs accept all patients if they receive **any** Medicare or Medicaid, or be penalized financially.

Similarly, Congress can create price ceilings for drugs or health care for any entity receiving Medicare and Medicaid. This will extend to uninsured people as well.

The National Institute of the Health (NIH), is another vehicle the federal government may use to

implement President Trump's initial plan. This entity provides grants and subsidies for drug research. The Federal Government through basic contract law may condition the acceptance of such money upon the drug company's agreement to price ceilings. Should the drug company not honor such ceiling, they may draft a provision requiring the company to pay all such money back in addition to a penalty." (citation to email omitted). Medical providers may still choose to reduce the price of care to stay competitive. The price ceilings prevent entities from rendering people worthless or too expensive to care for.

"Instead of indirectly taking away care from people who cannot afford it, let's make it more affordable for people. So, like you said, Americans can assume more responsibility and autonomy in their own care.

Artificial entities without hearts care more about the bottom line than those they serve, unless caring will affect the bottom line. Congress has the ability to affect the bottom line to reduce the cost of healthcare instead of eliminating care indirectly by making it unaffordable.

Healthcare is an inelastic good, a necessity, meaning no matter how rich or poor you are, you would probably give all you had, including your home, to pay for care to save the life of your child, a loved one, or even your own life. The demand does not change with price. This is an exception to normal market theories of supply and demand dictating prices. Artificial entities will get as much money as they can, at the expense of lives.

The board members are far removed from those they serve. They most likely are thinking about how they can afford to pay for their kid's schooling instead of the individuals they serve. Since they are focused on the bottom line," please use your power federal legislators to affect the bottom. (citations to email omitted). Only you have the power to do so, I will not.

The federal legislators have Medicare, Medicaid, NIH and other mechanisms of federal funding to use as bargaining chips. They should use the bargaining chips to reduce the price of healthcare (and improve care), instead of threatening to reduce Medicare, Medicaid, or take those chips away. What will they have left to bargain with if they take everything away.

Thank you for your kind consideration.
