

In The
Supreme Court of The United States

James K. Keel Petitioner

v.s.

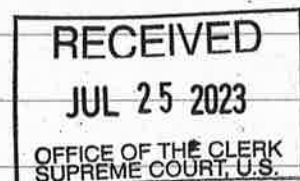

Mack H. Minshew Respondent

From The Supreme Court of Texas No. 22-1134

Application For an Extension of Time

I would like to ask this court for an extension of as much time as this court can grant me, in filling a writ of Certiorari.

Hopefully it will ^{not} take me longer than the usual 60 day request to plan and prepare the forms as I more fully understand the rules of the Supreme Court Book that to my surprise was also included with the forms and instructions that after months of requesting I had finally received.

Knowing the level of difficulty that I have (dyslexic a bit yes, disabled labeled I believe, because common sense just isn't common anymore?) In with putting these things together. Is the main reason that I had requested the forms back in March like 9-days before finishing and filing the motion for rehearing with the Texas Supreme Court in part not only to give Texas Supreme Court the opportunity to reconsider, before once again just pushing it aside, but also to allow myself that time I knew I would need to better prepare what all is required in whatever that timely manner thing means that keeps coming up from time to time? — Please see Attachments A 1 thru 9

... with all that being said. I will spare this court's time as well mine (least for now anyways) with going into any greater detail than all that. Since I also feel that it is an even bigger problem/issue within the lower court systems (or at least it appears to be or maybe just shows its self there more at a different level of or less professional level of being politely rude?) Either way I am sure at some point in time it is another matter that will also have to be drug/pushed off to this court in the future as well?

In the meantime (since there is No guarantee the Clerk of the Courts will get a letter sent to him, Nor act or look in too it?) I do hope that ^{the} powers that be in this Court, will double check up for themselves and see, if it is, all going the way they wish for it to be? (maybe even have some other undercover No account like myself to call in and just see for yourself... might have to wait a few months the Now, since this writing and all they may kind of ^{all be} on the look out? )

Further more I'm pretty sure the following is not what this court is ready hear yet. At least not in its entirety? However I can only hope that in sharing, that it will somehow give this court a little more understanding as to of why I am asking for, as much time as it can grant me. While not only must I (do to the lack of lower courts) continue to juggle and try to figure out away to get all lazy neglectful, corrupt, parties involved in the making of this crazy eviction case in the first place - into court, to be held accountable for there wrong and illegal actions. I must do so while saving what bit of sanity (or the common sense that just isn't common anymore?) I do have left and/or have somehow managed to hang on to during the past 10 years. Please Note: This is not a pity party.

... IF you will ...

Please see Attachments B 1 thru 22

... Also Please Keep in mind That is only a few pages of the past 10 years of pretty well organized documentation That is a product of my continuing to push and pick up on this states, and oh yes, the federal government is also becoming more lazy, slack and neglectful - Above all I feel it is the lack of oversight that is at its all time worse? There really is just so, so much more that I can show, from so many angles.

I do plan to follow through with the writ of certiorari, even though it is in its self pretty much a lost cause (The damage there has already been done. besides I never willingly wanted to live in hell in the first place?) However As I continue to push through this wrongful eviction case (from Hell) Crazy as it may sound, the way this case has come about (starting even 10 years ago in the making) as well as the way it has been handled, all thru out, has become in, what I believe to be a case of its own within its self...?

Because This is not. And it never was just a case about me.

I do hope That you Finest of them all Justices, Great Rulers of the lands of this country. will Please take not only what I have said and shown here so far into consideration, but to also please consider it far beyond this case as well...

Just a few days ago. I had seen something there on the news at Planet Fitness where apparently you all had passed a few more gun laws or bills of sorts (in which couldnt hurt I guess) one of which was in concern of mental health and then they mention The deadly school shooting here in Texas (The state that ranks last in mental health treatment in all 50 states?) so I cant help but to think, hum? what lead to this individual not only wanting to create such a sick crime, but also to go as far as seeking a firearm in the first place? ... what is missing here? when and why did these kinds of mass shootings start and why? ... And then in spite of all the controlling, over policing new laws, ect., ect. There still on the rise?

would it not be truly better for Everyone to just get to the root of the problem and not hear about the shootings that did not happen (like before they started) In stead of letting greedy, lazy, neglectful Agencies continue to profit

From the poor's pain and suffering. Not to mention all the poor innocent victims, that just happened to get caught in the crossfire of politicians need for more votes or more control while leaving us with the delusion and illusion that it's going to somehow all get better... at least until they can find a way to blame it all on the other party as to why it didn't?

Yes I know this all has gone a little beyond the application for extension of time, but life really is just so short, and in all fairness, I did call the clerk's office for the form, she told me to put it on 8x11 paper? 😊

Nonetheless, I would still like to ask this court. That is, if it has the power to do so? To please appoint someone from your federal government with say the next 90 days from today. That I can and will work diligently and professionally along side with in the transferring of about 10 years and around 4 trunks full (6 if you want more) of paper notes and documentation into digital format and loaded into your data base for further use and reference.

I do know that I will take some time and doing - that I am very willing to help do, Because I know very well the value in it to this country.

All I ask in return is to be provided with a copy of it all, as well as a copy of the same, made easily available online to anyone who may wish to view it all for themselves to see?

Because it is my belief that, then and only then can real change and Healing, begin from within this sad, state of this countries mental health systems and beyond...

Thank you all so much, for your time and consideration in this matter.

Respectfully Submitted

Sincerely,

James Keel
