Scott S. Harris, Clerk United States Supreme Court One First Street, NE Washington, DC 20543

Re: Syngenta Crop Protection, LLC, et al. v. Douglas Nemeth, et al.

Case No. 24-1190

Dear Mr. Harris,

By this letter and pursuant to Rule 30.4, Plaintiffs-Respondents, Douglas Nemeth, et al. ("Respondents"), respectfully request an extension of 45 days' time in which to file a brief in opposition to the petition for writ of *certiorari* in this case, from June 20, 2025 to August 4, 2025.

On May 19, 2025, Petitioners Syngenta Crop Protection, LLC, et al. filed a petition for writ of *certiorari* with the Court. The petition was docketed on May 21, 2025. Pursuant to Rule 15.3, Respondents' brief in opposition is currently due to be filed on or before June 20, 2025.

This is Respondents' first request for an extension of time to file a response to the petition for writ of *certiorari*. Good cause exists for the requested extension. Respondents are preparing for the first bellwether trial in the coordinated proceedings from which the petition originates to commence at the beginning of August, requiring counsel for Respondents to devote a significant amount of time towards meeting pre-trial deadlines which are also currently set for June 20, 2025. Respondents also expect amicus briefs to be submitted in support of Syngenta's petition, thus requiring further consideration for Respondents' brief in opposition. Additionally, counsel for Respondents have other competing personal and professional obligations in the month of June which, absent an extension, may deprive the Court of the most fulsome and helpful response from the Respondents.

In light of these circumstances, Respondents respectfully request the Court to find good cause to extend the filing deadline for its brief in opposition for the writ of certiorari by 45 days until August 4, 2025. Undersigned counsel has communicated with counsel for the Petitioners regarding this request, and Petitioners have consented to the extension.

Thank you for your attention to this request.
