

Certificate of service  
URGENT Note to clerk

There has been no service of process.

Situated in China, I **could not** satisfy Rule 29's requirement "If service is by mail or third-party commercial carrier, it shall consist of depositing the document with the United States Postal Service, with no less than frst-class postage prepaid, or delivery to the carrier for delivery within 3 calendar days, addressed to counsel of record at the proper address." **These are simply not available to me.**

**The fastest courier to America takes weeks, and I've no access to USPS. I also don't have an American visa and am indigent so I can't serve personally.**

ALSO, I simply can't afford international mailing from China, so even if I were allowed to mail by carrier from China, given the costly nature of int'l mail, I couldn't afford to. I can't even afford normal post (surprisingly post is at similar prices to courier service), which takes MONTHS to arrive, when the petition is urgent. Rule 29 does not allow electronic service.

This certificate of service should be filed somewhere in the docket.

Please note as the petition for writ of certiorari is URGENT, **it should be filed with the emergency tag**, and referred to the justices for urgent attention, and should be fully concluded (the full cases) in this term if cert. granted.

ALSO, please note mail to China takes MONTHS to arrive, and this petition is an emergency petition. So if there is any possibility to **email** me updates, please do.

Declared under penalty of perjury  
TAIMING ZHANG
