I write to you with a plea for justice on behalf of Rodolfo Vela Sr.who has spent more than 20 years searching for answers about the death of my son, Arturo "Tippy" Vela died on July 5.2001 in valley view ,Cooke County, Texas under circumstances that were never fully or properly investigated. his death was quickly ruled an accidental overdose, despite significant physical evidence indicating he was the victim of a violent assault and Homicide.

For over two decades the Vela Family has knocked on every door determined to find the truth instead of receiving help they

were repeatedly dismissed ignored or turned away by local authorities. Even when they presented compelling evidence from an independent autopsy showing clear signs of blunt force trauma and defensive injuries, no further investigation was conducted, Vital crime scene photographs and evidence were suppressed for years. leaving the family to endure unimaginable grief without answers.

A. Story of Persistent injustice

Tippy's death was a tragedy compounded by the failures and indifference that followed. The initial autopsy by the Dallas County Medical Examiner concluded that Tippy died from the Toxic effects of Cocaine and methamphetamine. However, A private autopsy performed by Dr. Juan Luis Zamora M.D. revealed something far more sinister. Multiple blunt force injuries brain hemorrhaging and defensive wounds -injuries consistent with violent assault.

Key Findings from the Private Autopsy:

- + Blunt Force Trauma: Significant brain hemorrhaging In five sections consistent with repeated Trauma.**
- + Head and Neck injuries Several Abrasions, Blunt force injuries to the forehead and nose and contusions on both sides of the neck suggesting strangulation or violent contact**
- + Defensive Wounds Lacerations on the fingers a broken fingernail and contusions on both hands indicating that Tippy**

fought for his life.

Shockingly, none of these injuries were included in the official Autopsy report for the Vela Family. the discrepancies between these finding have always been imposssible to ignore yet, despite their persistence local authorities refused to reconcile the conflicting evidence or reopen the investiigation.

not only has it been arduous, the velas seach for the truth has come at a steep cost in what appeared to be an effort to silence Mr, Vela Sr. local police once arrested both him and my son Rodolfo Jr. -who is deaf and mute -because Rodolfo Jr. was unable to respond to their questions. This deeply traumatic experience left the family intimidated and fearful of law enforcement, yet they refused to gives up.
