**Petition for a Rehearing On Writ Of Certiorari
To The United States Court Of Appeals
For The Third Circuit**

1. ROMIE DAVID BISHOP "PETITIONER", COMES NOW WITH THIS Petition for a Rehearing On Writ Of Certiorari To The United States Court Of Appeals For The Third Circuit .
Petitioner notes that his motion for a in forma pauperis was simply ignored by this court and is still pending. Petitioner states that if the Motion for in forma pauperis were to be denied he will pay the fee and produce the 40 copies of booklets, furthermore Petitioner states he has produced same in a prior filing;
2. Petitioner states as fact the he filed a "CERTIFICATE OF NO OBJECTION TO THE PETITION FOR A WRIT OF CERTIORARI AND MOTION FOR LEAVE TO PROCEED IN FORM PAUPERIS.";

Grounds Briefly and Distinctly

3. Petitioner has a strong belief in the rule of law that will be shattered if he does not get a review of his assertions set forth in the Writ Of Certiorari given the facts:
 - a. The original action was remanded on appeal for violations of the Petitioners civil right to due process. This fact has been concealed from all the dockets. A review of the Original Action after the remand will show the Petitioner was again denied due process, specifically denied the normal time for pre-trial discovery and proceedings. Petitioner filed in the Original Action Objections to the Remanded Justice Scheduling order along with a schedule that was willing to cut all time limits in less than half, the remanded Justice denied same and during the Trial stated that if the Petitioner had not produced an prior appeal to this court Petitioner would have had time to meet his honors schedule, Petitioner disputes this. Please read the trial Transcript it is very revealing;
 - b. The appeal to the Delaware District Court was assigned to a Judge who had been assigned repeatedly to the Petitioners appeals from Orders of the Bankruptcy Court forgoing the rotation system, as was the magistrate who was assigned by the Judge and not the court clerk in the instant appeal. The record of that proceeding is quite a read and on its face a clear violation of the Petitioners rights;
 - c. The appeal was not heard in the Delaware district court et. al., even though the standard of a second appeal of the same action with a claim of civil rights violations

- required the District court to assume Petitioners Appeal was with merits, the standard required the burden be placed on the Bankruptcy Court and the Defense;
- d. The appeal of the Delaware District Court order refusal to hear the appeal was beyond outrageous, placed in an administrative black hole for months, the Third Circuit court of Appeals actions and inactions on it's face was criminal. Criminal acts by extremely powerful persons, including Justices, Clerks and Attorneys. In the end the Third Circuit Court of Appeals also refused to hear the Appeal et al., with the dockets still concealing the standard that was required to be used, no merit panel hearing was ever held even though the record claims to merit panels were selected;
 - e. The Petitioner has stayed with this fight to pave the road for those who may have to follow. The petitioner belief in his lord and that right is might has kept him going during the past 7 years. Only the Petitioner(s) strong belief's directly caused the disbanded of the original law firm and the discovery of the massive theft by attorneys of funds from the proceeds of foreclosures. Unfortunately many of the co-conspirators not only evaded prosecution but have been embolden by the federal courts of the Third Circuit. One Attorney who was the worse was made a Judge in the Delaware District Court;
 - f. This is a rare opportunity for this court to see clearly the federal courts of the third circuit. The third circuit is the most powerful circuit in the nation because of the Delaware Bankruptcy Court, Delaware is the Corporate State of the World. This Petitioner is standing up for himself and others like him, no attorney would set

forth the actions that truly occurred as it would be professional suicide, Please
reconsider and hear this WRIT OF CERTIORARI and if after a real hearing this
Petitioner loses he will be able to move on;

4. Petitioner herein incorporates by reference all claims asserted herein 1-4 into the singular. Petitioner herein incorporate by reference all claims and defenses asserted their Brief in-support of this Appeal, Motion for a Declaratory Judgment, all attachments to all filling in this Court, the Third Circuit Court of Appeals, the Delaware District Court, the Delaware Bankruptcy Court. All Fillings from the lower courts;
5. Petitioner requests that he be reward for his good conduct during the past 7 years, even when provoked repeatedly, face to face, in writings, assignment of the same appeal Justice 14 times in a row, the FBI being sent to his door and following him, late night servings by MORRIS JAMES, LLP henchman sent by now Federal Judge Eric Monzo, being forced to work outside his profession of Mortgages because his Bankruptcy is still ongoing, work for a third of the money or less. Petitioner only has mortal life and apparently was chosen for this fight, please hear petitioners appeal, Petitioner Prays that this court hears this appeal.
