SUPREME COURT OF THE UNITED STATES

CELESTINE G. THOMPSON – PETITIONER

vs.

CHARLES TEEBAGY, et al. – RESPONDENT(S)

PETITION FOR REHEARING FOR A WRIT OF CERTIORARI DENIED MARCH 19, 2018

CELESTINE G. THOMPSON

437 N.W. 19TH COURT

POMPANO BEACH, FLORIDA 33060

PETITION FOR REHEARING FOR A WRIT OF CERTIORARI DENIED MARCH 19, 2018:

Important other substantial grounds not previously presented are as follows:

1. Police Report was never given to me by Broward Sheriff Office to properly complete my claim to help my son in his needs.
2. In 1992 I became ill from a mysterious poisoning of which I suspicion someone close to me through family, or my place of employment of which I was experiencing very bad jealousy from many people in my extended family and at work. I worked hard at pleasing everyone around me but the extreme dislike towards me I could never understand. At that time, I was in process of transferring from Miami, Florida where I was employed with the U.S. Government, to the new office in Fort Lauderdale, Florida. In 2010 I discovered through Internal Revenue Service that someone had phoned me in as deceased in 2007. I then immediately reported the matter to Pompano Beach, Florida police department
3. My son's health depends on your care to see that he gets justice he needs by assigning lawyers to his case to work with all the defendants and myself to clear this matter. From what he had to experience, through my family, school officials, police officers, doctors, all of whom were of hate natured to have harmed my son, all the details I am not aware of due to large payoffs among them all; my son's voice, including my mother's voice was greatly affected to keep from telling me what did happen. This is a major matter that needs investigating to get the help that we need, I am pleading with you. United States District Court Judge Bloom commented that I the cases I filed with the court was without merit due to me not winning them, and the fact that I worked in the Courthouse that I should know how to file claim. I feel a discredit to Judge Bloom for commenting towards me in that manner as I do not work in the courtroom. I completed the documents to the best of my ability in Pro se fashion. I was unable to hire lawyer due to no one

No. 17-7434

assisting me. I have been seriously slandered by many people simply for speaking out on matters of importance. The claim against the defendants are to the best of what I have presented with what I must work with and have witnessed. It has been difficult without the help of Broward Sheriff Office of whom have information but not willing to work with me in what has happened. I feel set up, sabotaged by Broward Sheriff Office, of which a Broward Sheriff Officer was assigned to work within the DHS office where I worked in Fort Lauderdale, Florida. Broward Sheriff Officers stalked me for two or three weekends to a grocery store. The matter had to be reported by the leader of the BSO Officers of Lighthouse Point, Florida. I began to have problems with DHS officials on very serious nature. Doctor Teebagy himself stalked me at the same store the officers stalked me at. All the information reported to Sergeant Willie Jones went against me instead of helping me. Presently, I live in an area of extreme cult activity of Haitian churches, drug dealer, right across street from my home whom has harassed me from the time that he moved into that house. I did report information to Sergeant Jones in this matter. The DHS office where I was employed has link to this case concerning Child Pornography of a managing official charged with this crime, case is now pending in the Court of Appeals, Atlanta, Georgia, Celestine G. Thompson v. Department of Homeland Security, case number 17-10860 GG.

4. The defendants, extended family members, all criminal elements involved in this matter concerning my child was to target me as well has tried to destroy my family. As complexed as the matter, the truth of the matter is extreme hate towards me, my children, racial hatred at its very core.
5. The illegal drugging, Witchcraft processing towards me of my family; the Witchcraft processing towards me of defendant Jermaine A. Sheppard, his family with the help of the local Haitian community helping them with this matter has been of extreme nature, that has caused me to become ill on some occasions. Jermaine Sheppard involvement with school officials to carry out his illegal drug tactics against me and my children. Jermaine Sheppard involvement with Broward Sheriff Officer Willie Jones is of nature that has tried to destroy my family. The Haitian

No. 17-7434

community practicing extreme Witchcraft in this neighborhood now has span of large area of community performing this very sick trade of living, simply to harm others as payoff for someone or simply evil and hateful which is of nature of Jermaine Sheppard. Jermaine Sheppard involvement with Haitian Witchcraft has seriously affected my family and the community. It makes living very difficult in a community with people living this dangerous lifestyle. The Witchcraft that I have seen among Haitian neighbors, including Jermaine Sheppard is of large magnitude which involve many people which include the drug dealing ties, stalking, harassing as is involved with case, Celestine G. Thompson v. Annette Newsome, U.S. Supreme Court case 17-6738; Court of Appeals case, Celestine G. Thompson v. Department of Homeland Security, case 17-10860 GG. All cases, including the Rehearing Request, Celestine G. Thompson v. Charles Teebagy, et al, case number 17-7434 were not given attorney assignment due to my non-payment and of my Pro se status. I have been Blacklisted in Broward County, Florida on falsehoods that have tried to ruin my life by members of my family, the community and country that I have worked for many years in 2003 performing high achievement act within the Department of Homeland Security to save lives of foreign criminals whom were deported from the country; the people trying to ruin my life included hate-filled jealous U.S. Government employees including Department of Homeland Security, Immigration, others. I never did anything intentionally or unintentionally wrong out of character to harm anyone; I have been kind to others and respect the same, but that does not always work, the receive the same back. I will not give up on my cases. These people did wrong on all their practices of what they know took place to bring harm to my son, to me and my family. Payouts to help one another here. For this particular case, Celestine G. Thompson v. Charles Teebagy, et al, it was not heard at all in the District Court due to the Judge disparate treatment towards me of which I feel is totally unfair. Through all this, I may have been drugged against my knowing, I may have been Witchcraft without my knowing by anyone, through the Graces of God, I stand in truth, in truth to complete this matter to finally get

No. 17-7434

the Due Justice that my Family and I deserve to clear our name of any lies, slander and to get the full benefits, respect of the United States of America.

6. The school officials all need thorough investigating in this matter. No one assisted me properly in the concerns of my child. I visited Robert Runcie office to be greeted by his secretary she pushed my hand away when I handed a letter to her for him. Not only did my child become victim of Broward County, I became victim as well when speaking out to get help in my child's matter of the cruel, mistreatment in their attitudes had shown.
7. The setup for my son was to test him at the Dan Marino Neurologic Center without my knowledge, and of tests done on my son at the various Broward Schools that he attended. These tests and what was done has caused harm to my child. Each official that I would ask to please inform me of details of why my son was not feeling well at school and each one would be silent. My child was great before attending Broward County Public School system. My son had no conditions that warranted the school officials whom taunted me with what they thought which is why I hired my personal physician whom had disagreed with the school, Dr. Stuart Brown. Which has brought to light one main thing: My son was not ill, nor did he have a disability: he was intentionally made ill in all ways possible to make someone ill, only that the doctors know of and how to do it – doctors at the schools, ... my son had to suffer at the hands of these uncaring, just knowing that no one would find out what they all had done which makes this case eligible for hearing. All Physicians who went along with this idea in Broward County, the many people involved in all 3 court cases: Celestine G. Thompson v. Annette Newsome, et al, case number (U.S. Supreme Court) 17-6738; Celestine G. Thompson v. Charles Teebagy, et al, case number (U.S. Supreme Court) 17-7434, and Celestine G. Thompson v. Department of Homeland Security, (Ct. of Appeals, Atlanta, Ga.) case number 17-10860 GG. The Director of Education in Tallahassee, Florida, the official up and left the office, resigned, without getting back with me concerning my fears of what was happening to my child. It is very hard to steer a matter when people are withholding important information that can help someone. Broward Sheriff office

No. 17-7434

refuses to help me. As a 100% compliant taxpayer for this country, I am formally requesting that you screen and interview my son to have decision made about his condition. If you do agree on this, please give me all the details to do what I am to do to help in this matter. Since Broward Sheriff Office, the School Board officials of Broward County are being tight lipped about all this, as in all the other defendants as well, I feel the formal request should be granted in this particularly grand matter to include public hearing to help me as a pleading matter in this case; no one wants to tell me what has happened to my child; this is not fair; I pay taxes as everyone else and I deserve to know to get the proper help that he needs. Your consideration to this request will be great appreciated.

8. Charles Teebagy and Broward County School system out of cruelty, discreetly placed my child in a program that did not work for him by setting a condition that my child did not have; my personal physician Stuart Brown confirmed my child did not have diagnosis the school said he had. The conflict began there until this day, wherein Charles Teebagy and then other physicians simply joined in Charles Teebagy in his scheme to have my son set up for tests at the school and the Dan Marino Center without my knowledge or approval. Not only is this a medical crime, but a crime of pure hatred. The concerns were reported to Broward Sheriff office were never brought back to me on how to get the help that I needed to clear the matter. With many top officials involved in this fight, we were never given the proper advice nor help needed in this matter. The Defendants need to all come forward with the truth in this matter because if it were their child, or even the Judges hearing the case now in the U.S. Supreme Court, it should be stressed strongly that something went wrong here, terribly wrong, to play with someone's life like this to cover many criminal elements. I cannot give up this struggle. The Defendants know what has happened here and it is time to get real with it. We deserve pure Justice in this matter. I feel strongly a public hearing is needed to get help from this very strong concern.
9. In sharing sensitive information with Charles Teebagy as my family physician; In sharing sensitive information with Sergeant Willie A. Jones; Dr. Stuart Brown having shown an

No. 17-7434

unprofessional interest in photographs of me and my son, of his strange behavior that made me feel uncomfortable of his request. I disagreed to the photography session request of Dr. Brown, although he was persistent of adding the information for his files I stated no. The non-completion of my case with Broward Sheriff Office has left me almost speechless. I do have the information to share with the Judges if you would allow me to present to your attention only of the sensitive information to Doctor Charles Teebagy and Sergeant Jones.

10. The stalking and threats of harm against me has intensified from my filing of this court case. The most recent of Defendant: Jermaine A. Sheppard of whom has threatened to harm me by coming onto my property when a restraining order was placed on him on two occasions of violence against me filed in the Broward County, Florida Courthouse; Jermaine Sheppard on April 19, 2018 forcefully knocked on my front door, leaving behind torn envelope of Supreme Court copy of document mailed to his address of him being defendant in case matter. The proper way to have handled this was return mail back to the U.S. Postal Service. Jermaine Sheppard has done this before a month ago, shoving document inside crevice of my door. This matter intensified that I had to call the police for further assistance. I feel dangerous Cult activity; some type of gang activity involvement is what is going on around me from what I have observed. The planned stalking against me has made me become more aware of what is happening around me in these threats of clear intimidation. I feel the Broward Sheriff office non-compliant in assisting me with the case and my concerns has made matters more difficult for me to get the assistance needed in my case and fear of safety for me and my family.
