Re: No. 18-540, *Rutledge v. Pharmaceutical Care Management Association*

Dear Mr. Harris:

I write on behalf of the Pharmaceutical Care Management Association (“PCMA”), respondent in the above-captioned matter. PCMA requests an additional 17-day extension under Rule 30.4 of the rules of this Court to file a response to the petition for certiorari. PCMA’s first request for an extension of time was granted on November 8, 2018, and PCMA’s response is currently due on January 7, 2019. The Petitioner assents to this request and joins PCMA in requesting that the extension run up to and include January 24, 2019.

PCMA has engaged the undersigned, who was not previously involved in litigating this case below, to serve as counsel of record. The combination of the holidays and the press of other litigation matters necessitates this request. Accordingly, PCMA requests an extension up to and including January 24, 2019.

Thank you for considering this request.

Sincerely,

M. Miller Baker
