The Connecticut claims commission has violated conn. Gen statue 4-148(A). Northern was investigated For its abuse of inmates. Its abuse program was shut down not the prison by governor Lamont because of this abuse of human beings in 7/1/21, I filed my claim same year 10/16/21. For the abuse I suffered from a Disability I had no control of when denied my medications it was because of me being denied my meds that put me in this abuse program to cover up a crime of outright medical negligence from 1995-1999-2010 like boys who were being violated by priest. Investigated 2001 Boston which was being done for decades and years as was Olympic Coach Larry Nassar violating young girls I was being violated physically mentally medically and legally when put in Northern Correctional Institution abuse program would appreciate your Supreme Court helping me receive the justice I deserve my petition for rehearing it presented in good faith and not for delay rule 44.6 certified

Thank you

You have a lot of human beings who have been brainwashed to believe and think if its not said or done the white way its not right way instead of believing in the human race way the American legal system has been abusing minority's especially black people (human beings) for century's decades years and continuing on into the future there ignoring liberty and justice for all human being we the minority especially black people have been used and seen as an investment for this legal system of liberty and justice for all. When ~~was~~ minority human being go through these legal systems of police, courts, jail, and prisons. It's not for rehabilitation its for the use of racial recidivism or abuse physically mentally, medically and legally made to look like we are the worse human beings on this planet when in reality we all human beings are students who live in the high power (GOD) school of life called temptation. He or she or they might be husband or wife. Who throws temptation your way to see if a human being will use it or abuse it. Temptation are gifts like legal system medial system and all good and bad temptations to see if he or she will throw it your way temptation comes in shapes, forms, and titles. The American legal system is abusing this temptation by only given liberty and justice to one race of human beings I'm no angel and don't pretend to be. But I'am also no one's butt whole I only want the justice I deserve from a sickness I had known control of. When not given meds or denied so employees of the jails, and prisons could have recreation abusing me physically when you have legal system that helps there employees cover up a crime you are giving these human being permission to commit a crime telling them it's okay we got your back which gives this legal system a whole new title, legal crime syndicate especially against human being who have mental and physical disability's you have good and bad Human beings in all races of human beings don't be excessive to just minority human being. Be excessive and abusive to all human beings
Perfect and Pure

There is no human on this earth who is perfect or pure if you find one (him or her) I want to meet them so I can invest in the cure and apologize to the world for not being sure there are no angels upon this earth why? Because we all gave gase pain and suffering upon birth.
This is a poem in my book
