The Petitioner has worked from home as a RN for the last 4 years, and since the middle of February, 2025 a week before the initial deadline of the writ of cert, the Petitioner had become aware in 'real time' computer was actively being cyber hacked, targeting the Federal case and modifying files such as, but not limited to official court documents, N.D. TX Clerk & Respondent email correspondence as well as the current working writ of cert document were being moved and changed live on the Petitioner's computer desktop screen. The Petitioner's electronics have been compromised, and the Petitioner consciously cannot risk patient data, security being compromised, and has been unable to work having no employment income since the computer hack occurred approx. 5 months ago, and the situation has brought on an increased financial hardship, especially raising and being responsible for four biological children. The cyber-attack brought an awareness to the Petitioner that apparently since the Petitioner started representing self in the Federal Civil Rights case in N.D. TX in 2020, court documents have been altered, modified during, and throughout this time by word and pdf files being moved to 'temp folders' and being changed out with the original court files submitted, and the Petitioner has filed an IC3 complaint with the FBI and the Civil Rights case needs emergency attention from the U.S. Supreme Court.

I declare under the penalty of perjury that the foregoing is true and
correct. Executed on July 8th, 2025
