## **GROUND FOR REHEARING (Rule 44.2)**

### **1. Intervening Circumstance of Explosive Magnitude:**

The **Inter-American Commission on Human Rights (IACHR)** has **advanced Petitioner's motion to admissibility review** (filed September 2025), igniting a **new international firestorm** over Venezuela's state-sponsored genocide against 23,000 PDVSA workers. This **unprecedented development**—unavailable at certiorari—**demand immediate SCOTUS intervention** to prevent the \$7.38 billion Citgo sale from **extinguishing victims' claims forever**.

### **2. Substantial Ground Not Previously Presented – The Death of Pro Se Justice:**

The **Third Circuit's year-long silence** on Petitioner's Motion to Stay (No. 0:25-cv-02519, filed September 5, 2025) is **not mere delay—it is a calculated burial**. Judge Stark's **stubborn efficiency** in *Crystallex* (No. 1:17-mc-00151) **denies recusal and QSF creation**; Judge Hall's barriers in No. 1:24-cv-00380 **block alter ego justice**; Judge Failla's **conspiracy-like scrutiny** in No. 1:19-cv-10023 **silences Petitioner's defense**. This **triangular strangulation** proves **no pro se litigant in Garrett's position can ever prevail—a systemic execution of equality** under Amendments V and XIV, **unaddressed in the original petition**.

## **CERTIFICATE (Rule 44.2)**

I certify that this petition is **limited to the intervening circumstances and substantial grounds stated above, is presented in good faith, and is not for delay**.
