ROBERT LAUTER, Plaintiff - Appellant

V

JOSEPH JOHN KATOSKIE, III; KAMALA LANETTI, personally and in her capacity as attorney for the School Board of Va. Beach; GEORGE SCHAEFFER, personally and in his capacity as Clerk for the Circuit Court of Norfolk; CRYSTAL PORTER, personally and in her capacity as Deputy Clerk for the Circuit Court of Norfolk; JOHN VOLLINO, personally and in his capacity as the Deputy Clerk for the Va. Court of Appeals; LESLIE SMITH, personally and in her capacity as former Chief Deputy Clerk for the Va. Supreme Court now just Deputy Clerk of said court; PATRICK FOLEY, personally and in his capacity as Assistant Regional Counsel for the Environmental Protection Agency; ROBERT LOFTIN, former Law Clerk of the Virginia Supreme Court and counsel of record for Glaxosmithkline in the matter of Lauter v Glaxosmithkline; GLAXOSMITHKLINE,

Appeal from the United States District Court for the Eastern District of Virginia, at Norfolk. Arenda L. Wright Allen, District Judge. (2:23-cv -00649-AWA-RJK

Submitted: October 16, 2025 Decided: October 20, 2025

Before KING, AGEE, and RICHARDSON, Circuit Judges Affirmed by unpublished per curiam opinion

Petition for Writ of Certorari

Robert Matthew Lauter
1414 Baychester Ave.
Norfolk Va. 23503

Questions Presented

How could the trial court have had proper jurisdiction to dismiss res judicata when I am required to serve the adverse parties copies of this petition, yet at the trial level not one of them was served a single shred of paper despite my request that the U.S Marshalls be directed to do so?

Are the Courts of appeal really the final authority on procedural posture? If so how did ***Gideon v Wainright***, ***Bush V Gore*** and probably hundreds of other procedural cases wind up on the docket?

Are the inferior tribunals at the federal level aiding and abetting out of control corruption within Virginia's municipal and state court system and in naked defiance of this court as it relates to the overturned "Chevron Deference"?

All the parties are listed in the caption of the case on the cover page.

Petitioner respectfully prays that a writ of certiorari issue to review the judgments below.

Opinions Below

The opinion of the United States Court of Appeals at Appendix A is unpublished and a timely petition for rehearing en banc was denied on December 10th, 2025

Jurisdiction

As previously stated the matter was decided on October 30th 2025 and rehearing denied on December 10th 2025 the jurisdiction of this court is invoked under the provisions of article III with the full knowledge that prior to World War II, there were no robes, no fancy courthouse, no dancing around a chair with John Marshall's Quill and no "discretionary appeals for the court of "original jurisdiction"

Constitutional Provisions.

This matter arises out of the 7th, 14th and 5th Amendments of the United States Constitution most importantly the "due process" provision.

Statement of the Case

The following can be established prima facie either through documentary means or digital imprints saved to drives.

1. December 21 2016 I filed Lauter V Glaxosmithkline 216.CV00716 in U.S district court. The lawsuit alleged that the drug giant as a member of the lobbying group IPAC the international pharmaceutical Aerosol Consortium, successfully lobbied the Obama Administration to ban all non-prescription asthma inhalers in order to combat "Global warming" and as a result of this, owing to a defective Ventolin Asthma inhaler manufactured by the respondent, I suffered a heart attack while using the product shortly after my 41 st birthday. I contacted the office of Congressman Michael Burgess (R) Texas who at the

time was the longest serving medical doctor in congress. He had tried to stop this disastrous Obama asthma inhaler policy before it was put into place but the measure never made it out of committee. I also attempted to find an ambulance chaser willing to take the case, they All passed so I went it alone because I had litigation experience already as a sole proprietor/construction contractor. The case was immediately placed on the docket of Arenda Allen Wright, an Obama appointed judge to the eastern district described by reputable organizations such as the Thomas Moore and Susan B. Anthony Societies, American Center for Law and Justice and Judicial Watch as being an "Activist" Judge. Wright presided in the matter of Bostic V. Schaeffer filed in July of 2013. Schaeffer being Clerk of Norfolk Circuit Court is a party to the above styled dispute and has never been married. Wright infamously struck down Virginia's Gay marriage laws by misstating that "All men are created equal" is present in the U.S Constitution instead of the Declaration of independence. As soon as Schaeffer's ruse was pulled off, he opened a photography chapel in the courthouse and changed his party affiliation to democrat. There is no ambiguity whatsoever in the party position as it relates to the issue of marriage so the proof is in the pudding as to what Schaeffer's true intentions were in pretending to stand up for traditional marriage

2. On March 3rd 2017 Robert Krask Judge Wright's magistrate judge issued an order dismissing Lauter V. Glaxosmithkline WITHOUT PREJUDICE sua sponte owing to lack of Subject Matter Jurisdiction I immediately noted appeal to the 4 th circuit.

3.) March 19th after appealing to the 4 th Circuit I filed an identical claim in Norfolk Circuit Court the Honorable Judge Robert Doyle, now retired was serving as chief Judge promptly granted Informa Pauperis and issued a summons which was served on the registered agent Corporation Services Company in Indianapolis Indiana

4.) April 6th ,2017 lead Counsel for Glaxosmithkline Richard Cromwell filed a corporate disclosure form with the fourth circuit court of appeals court. Robert Lofton a party to this dispute only represented the respondent in any capacity at the court he used to clerk at the Va. Supreme Court, not in Federal or Munic Court.

5.) April 7th 2017 Glaxosmithkline went public with a recall of the Ventolin Inhaler putting out a cover story that the product was defective but not for the reasons stated in my claim.

6.) On May 19th 2017 Judge Davide Lanetti of Norfolk Circuit court whose wife Kamala is named as a respondent in this matter, granted a motion to quash Judge Doyle's summons. Despite refusing my motion to enter a scheduling order, he ordered that I had to re-serve the registered agent and include "all evidence". I objected in writing and complied, got Judge Doyle to re-issue a summons, Corporation Services Company in the meantime switched its address in order to duck service but I perfected service with the assistance of the Indianapolis Sheriff's department. When I later appealed this matter, the language of Lanetti's order had been blacked out with a sharpee pen by

Shaeffer and his staff. I however saved the digital imprint of the record showing the redacted order sent to the Virginia Supreme court on a thumb drive and have it available for evidence. Shaeffer also blacked out a motion for summary Judgment I filed as by this time I had learned of the recall and its temporal proximity to the corporate disclosure form

7.) On October 10th 2017, Judge Everett Martin of Norfolk Circuit Court, personally requested to handle the matter by Glaxosmithkline threw out the products liability lawsuit with a published opinion letter. He acknowledged in a backhanded way that "The factual allegations support the claim" but barred it for statute of limitations by substituting the preposition "between" in conjunctions with two dates mentioned in the lawsuit "November of 2014 and October of 2016" with a past tense verb "Occurred" in conjunction with the first date "November 2014" The order did not set a date for tolling, and furthermore put bad precedent as it relates to Virginia's Consumer Protection Act into the public record. I later sent copies to members of the Virginia Assembly who further amended the law to respond to the bad precedent. Martin had previously called me in on a criminal docket and attempted to bully me into signing documentation that I had misnamed the respondent, I refused. I Immediately appealed his holding to the Virginia Supreme Court which had jurisdiction at the time for civil

matters. Robert Lofton, a party to this dispute then materialized as lead counsel for the Appellee Glaxosmithkline

8.) On November 7th 2018 Former Clerk of the Virginia Supreme Court and co-worker of Lofton Patricia Harrington released a fraudulent per curiam with Court Letter Head but no judges' names affixed denying the appeal and stating "no reversible error" This was the same day that the FDA quietly allowed the one over the counter remedy for Asthma, Primatene Mist back on the market for the first time in 7 years. This does not implicate the Trump administration, rather some residual bureaucratic elements within the FDA who were clearly working in collusion with not only this rogue Clerk who quickly "retired" but Glaxosmithkline a party to the dispute. I however did not learn of this for months.

9.) On November 19th 2018 after leaving the doctor's office and taking blood pressure medicine I had never used before in attempt to waylay skepticism about my claim by cooperating with the doctors that were making me ill, I brought my dog and cat to the home of my now deceased mother and her second husband in the city of Norfolk, Knocked on the door and left the pets on porch. After the effects of the medication wore off and reading the side effect disclosure form for the medication, I realized what I had done and demanded my pets back. By this time I had been considering bringing legal action against my mother Jane Katoskie a retired Virginia Beach School Official once I learned that a Child Protective Services investigator Arthur Bracke, who attacked me in an orphanage the Virginia Beach Court sent me to in 1984, after she dumped me off to focus on her career, and who I later identified to investigators in December of 1992 while serving time in a detention facility where another case

of statutory rape was being investigated by Virginia Beach Officials, had been convicted of Child Rape, Attempted Murder and Arson, My mother had provided false Brady Material to not only helped keep this man on the streets, but in court accusing other women of being bad parents, so that he could adopt and rape their sons. Despite my outrage I was still on the fence on how to proceed because after all, she was my mother. However, what transpired when I came to collect my pets made my decision for me. Despite having total legal rights of occupancy to the dwelling as my Construction business Prime Cut Paint, a sole proprietorship was and continues to be zoned at that address at the insistence of her then second Husband Joseph John Katoskie III, and total right to my pets, I was denied entry so took a baseball bat out of my work truck, smashed the window sash, entered, handed my mother the bat and went down to greet my dog. My mother threw the bat out of sight onto a couch and her husband then emerged with a firearm, held me at gunpoint, filed a false police report misidentifying me as a "burglar" then proceeded to taunt me with the 22 caliber handgun. When it became clear through Katoskie's own affidavit which made clear he

knew nothing about a baseball bat and that this was a domestic squabble, the police , put the bat back in my truck gave me an emergency protective order and told me to leave.

10.)On November 21st 2018 Mr. Katoskie filed a conflicting affidavit now stating that I was attacking my mother with a baseball bat and he only pulled the gun to protect her, He sought a two year order of protection, which he was awarded in JDR court, I immediately appealed and attempted to file a Counterclaim in circuit court for Intentional infliction of Emotional distress and False Imprisonment against Katoskie as well as a reckless Infliction of mental anguish against my mother, who on the same day I was served the affidavit requesting the two year order of protection for her husband, returned my pets and sent me mocking text messages making fun of what had happened to me in 1984 and 1992 then daring me to sue her. I was obstructed in this effort by Shaeffer's staff, despite it being de novo proceedings and perfectly acceptable. When we made the court appearance in Circuit Court I presented the Honorable Junius P. Fulton, currently serving on the Virginia Court of Appeals and furthermore ex member of the Virginia Beach Schoolboard with an order I authored granting the two year protective order based upon the original affidavit given to the police, not the subsequent affidavit which I characterized as "Augmented cause of action." The judge encouraged Katoskie to seek counsel, but he refused. He then asked Katoskie if the order I had written was changed to an agreement if he would sign it. The Judge then left the courtroom Katoskie agreed, and signed along with myself and Judge Fulton. When he did he confessed to perjury as well as the already established filing a false police report for burglary.

11.)On April 2 2019 Having learned that Primatene Mist had been put back onto the market on the same day Harrington had issued a Fraudulent Per Curiam in the name of the Supreme Court of Virginia, I filed a civil rights action in U.S District Court Lauter V

the Food and Drug Administration, Glaxosmithkline and the Commonwealth of Virginia 2:19 cv00157. Once again Arenda Allen Wright was "assigned" the case. When I asked the clerk why it was going back to her, I was told "pro se cases always get the same judge". In the lawsuit I alerted the court to the recall of Ventolin, the fake per curiam and the overall mishandling of the matter by judges Martin and Lanetti. The case was promptly dismissed by Arenda Allen Wright only WITH PREJUDICE this time without anything even approaching an explanation as to why, Once more I appealed to the 4 th circuit

12.) On July 20th of 2019 in my capacity as a board- certified construction contractor I entered into a contract with Daniel Gillis of Suffolk Virginia to pressure wash and paint his home there. He signed a scope of work agreement and two pages of terms and conditions including a provision stipulating that I do not do abatement work and a ground sight disclosure that stipulated the contract was based on an estimate, and anything not viewable from the ground triggered a de mobilization clause. He paid the deposit in cash which I found peculiar but accepted. I also showed him and had him sign a xerox copy of The Environmental Protection Agency's pamphlet, the Danger's of Lead which is required of all properties built before 1978, at least if you're a contractor or a landlord, the home owner can do whatever he wants. This requirement is also the brainchild of the Obama Administration's, renovate right program, a senseless regulation that is virtually impossible to enforce unless the accused is caught in the act, but is nevertheless is being used to shakedown businesses as can be proven. The provision requires a lead license through the EPA and limits the amount of paint that can be scraped without one. I merely build into my terms that I don't do the work and pass the responsibility on to the home owner to avoid even having to deal with this dysfunctional bureaucracy. After charging north of 1,500 dollars of paint to my commercial account with the Sherwin Williams Company and attempting to complete the work, I discovered that doing so would bring me into conflict with the EPA's renovate right program, demobilized and asked for the amount stipulated in the terms until they could get an abatement contractor to prepare the surfaces. Gillis said he would do it if he could use my ladders so I agreed. Gillis then refused to pay, ordered me off the job, sent me emails demanding I "scrape" paint, then ordered me to return and get my things.

13.) On September 26 th of 2019 I arrived at Gillis's house to retrieve my equipment and his wife unsuccessfully attempted to have me arrested by Suffolk police for unspecified reasons. The police waited for me to leave at which time I went to Suffolk Circuit Court and filed for In Forma Pauperis which was promptly granted then a lawsuit for breach of Contract as well as a motion for Injunction. By this time Gillis had contacted both the Environmental Protection Agency and the Internal Revenue Service. The IRS quickly dropped it's investigation when I proved I entered the cash Gillis had given me into my business bank account. The EPA continued to persecute me

14.) On November 6 th of 2019 Gillis reached out to me and offered to settle. I agreed, signed the documentation and parted company. On the same day, the EPA Investigator

who had six weeks earlier conducted an in person investigation at my home where I provided him with affidavits, contracts dating back two years, the emails from Gillis, etc, released a false and misleading report stating that I confessed to violating the renovate right program because Gillis had taken out work permits with the city and I thought

being a sub-contractor exempted me from compliance. Meanwhile Gillis entered the agreement I signed in Suffolk Circuit Court and it was dismissed without prejudice despite Gillis foolishly attempting to put language in the document dismissing it With Prejudice probably under faulty guidance by the EPA.

15.) On February 27, 2020 one day before Lockdown which I already knew was going to take place. I filed and paid filing fees for the counterclaim I had previously tried to file against my mother and her second husband in Norfolk Circuit Court for false imprisonment, intentional infliction of emotional distress against Katoskie and reckless infliction of emotional distress and breach of Contract against my mother who had sent text messages which substantiated the claim that I was in fact in both an orphanage in Middlesex Virginia in 1984 with this child rapist and a detention facility in Virginia Beach at her request in 1992 for unauthorized use of her motor vehicle. I had by this time gone to the city of Virginia Beach and filed FOIA requests to get my records. Court Staff and Virginia Beach Social Services were caught red handed providing me with falsified information. For instance a court order from Virginia Beach JDR Court, handwritten and illegible however stating all I had gotten was community service in 1992. The warrant that came with it however proved my mother pressed the charges moreover my high school transcripts which I had obtained over a decade earlier lists my last grade in school, as being a driver education credit I earned exactly 13 days before the arrest warrant. I never returned to school again. The cover up of my childhood by the city of Virginia beach was impeached. With the lawsuit I immediately moved for the recusal of both Judges Martin and Lanetti, for their behavior regarding Glaxosmithkline. I was also aware that Lanetti's wife, Kamala a party to this dispute had been City Attorney for Social Services in Norfolk before transferring to Virginia Beach once her husband got on the bench. At that time she was serving as Deputy City Attorney in Charge of Public Education for the City of Virginia Beach, the very entity that employed my mother for 30 years.

16.) On March 25 2020 in the middle of lockdown, the Virginia Assembly amended the statute for mandatory reporting of child abuse by certain school officials not covered in the old law 8.01-249 (6) Virginia Code, specifically Coaches and Volunteers of which my mother was both, the answer to the lawsuit against my mother was filed in Norfolk Circuit Court on the same day. The attorney that materialized to represent my mother and her husband after our longtime family attorney refused owing to conflict of interest, was Mary Morgan friend of Kamala Lanetti and her Husband David's nominee for Bar Leader award. The Chief Judge of Norfolk Circuit Court at the time was Mary Jane Hall formerly of McGuire Woods the lawfirm representing Glaxosmithkline. Naturally despite

my motion to recuse, she, "assigned" Lanetti the case, The same judge who disrespected Chief Judge Doyle by quashing his summons, the same judge married to the attorney employed to fight of lawsuits against my mother's former employer. The answer to the 35 page lawsuit with 16 page bill of particulars was a demurrer, which pursuant to rule 1.4E of the Virginia Supreme Court means all the facts are acknowledged as truthful. I served both Lanetti and Martin Mandamus through the deputy's office however, the new Clerk of the Virginia Supreme Court Douglas Robelen never notified the attorney General's office or the writ panel as can be proven.

17.) On September 18 2020 The fourth Circuit Court of Appeals Modified Judge Wrights order to in the matter of Lauter V FDA to Without Prejudice. In the order the court held, as it relates to federal rules 56 and 12 (B) that "no matter how frivolous" a lawsuit may be, it cannot be dismissed, sua sponte With Prejudice. It furthermore acknowledged that the trial court "decides" whether or not to exercise jurisdiction. Therefore, the problem from my perspective isn't the lawsuit. It's the judge. The per curiam just issued on October 20 th of this year in the above styled matter collides head on with the court's previous holding and furthermore does so without comment.

18.) On December 21 st 2020 after finally being granted IFP by Judge Wright I filed a civil rights lawsuit Lauter V Shaeffer et al 2:20 cv 00507 and in doing so combined the matter of Glaxosmithkline and my mother which was at that time still in the pendency in Norfolk Circuit Court before Lanetti who six times refused to recuse and peppered me with adverse holdings all of which I objected to.. In that Federal lawsuit aside from Lanetti's wife, my mother, her Second Husband and Glaxosmithkline I named Douglas Brewster Robelen, then Clerk of the Supreme Court and former co-worker of Robert Lofton for obstructing my access to the writ panel on Mandamus, the JDR clerk of Virginia Beach for falsifying court records pertaining to my childhood, the director of social services of Virginia, George Schaeffer for defacing and destroying court records, and Governor Ralph Northam who had signed into law just two weeks after my mother's attorney in Circuit Court Filed her answer, a provision extending the statute of limitations for child rape from two years, to twenty, however inserting the language "for any reason" into said law. This was clearly done to stop me from utilizing it as I was past 38 years old, and furthermore the language eliminates any estoppel that may have accrued during my incarcerations as an adult and when my mother tricked me onto a plane to Israel just before my 18 th birthday and just months after I reported the child rapist in Va. Beach, where I was left on a one way ticket for a total of a year. The federal lawsuit also requested that title 42 U.S.C 300aa-22 (B) granting immunity to

pharmaceutical companies for wrongful death stemming from vaccines be posted on all vaccination centers and doctor's offices. I had by this time sent a copy of the lawsuit I filed against my mother to the FBI field office in Chesapeake and requested an investigation into Judge Lanetti and his wife be opened under the RICO statute. The claim, listed as attachment 3 in the matter of Lauter V Schaeffer, stipulated that my

mother had displayed suicidal tendencies since my youth and had frequently engaged in "feign suicide attempts" involving overdosing on prescription drugs, all of which had been unsuccessful. Lanetti tossed the lawsuit stating "no cause of action" and I appealed this to the Virginia Supreme Court.

19.) In February and April of 2021 Douglas Brewster Robelen, evidently dying of cancer, issued two fraudulent per curiams on Supreme Court Letterhead with no judges' names affixed, which I immediately entered into evidence in U.S District Court to support my claim. One denying mandamus, one denying appeal from Lanetti's final judgment. He then swore out arrest warrants on me with Capitol Police in Richmond for Computer Harassment.

20.) On March 2 2021 a Watchdog Group filed formal ethics complaints against Judge Mary Jane Hall of Norfolk Circuit Court and Chief Judge of the Virginia Supreme Court Donald Lemmons alleging Hall, the same judge that assigned "lanetti" to my mother's case was hearing cases on behalf of her old client Sentara which operates medical facilities, argued by her former law partner at none other than McGuire Woods the law firm tapped to represent Glaxosmithkline. Lemmons, who "assigned" Mary Jane Hall immediately retired unannounced, Hall's holdings on Sentara were overturned and she was allowed to "Retire" when her term was up

21.) On July 23 rd 2021 while on pre-trial release, I was doing a construction job in Gloucester Virginia, The entire arrangement had been set up online and it was clear that not only my email account was being spoofed, but my real estate information network account, my pacer account, even my online banking account were being hacked. While on the job, alone and isolated, I set up a twenty five foot extension ladder about six feet in front of transparent double doors facing out onto the water which were most assuredly closed. While up on the ladder it was pulled out from beneath me, I fell on my back, broke my ribs and spinal column, rolled over onto all fours, looked at the doors, saw that they were now ajar, but given my frantic state disregarded it and instead called my client to seek medical assistance. While I was recovering my lawyer friend told me Doug Robelen had died. When I looked it up on line and saw that he had died on the same day, only then did I remember the opened doors that had been closed before I fell from the ladder and deduce that this had been an attempted homicide.

22.) On November 22 nd 2021 in General District Court in Richmond the first openly Homosexual Judge in Virginia History Tracy Thorn Begland found me guilty of one count of Computer Harassment based only on the unrecorded testimony of Leslie Smith a party to this dispute who evidently received carbon copies of emails sent to Robelen. These emails did not match the date on the warrants which was pointed out, and I brought a witness who will confirm that Smith perjured herself by identifying herself as Chief Deputy Clerk when she had in fact, not only been passed up for promotion, but demoted to Deputy. She is now no longer employed by the supreme Court so on this point alone do I not object to this court's holding dismissing the 1982 against her with prejudice. Her career is over, she will no longer use her job to wrongfully prosecute

appellants, that's good enough for me. Begland also tampered with evidence, and refused to dismiss the matter despite the controlling authority Crawford V Washington being invoked by me repeatedly as well as my right to face the true accuser, Douglas Brewster Robelen in court, who was of course now dead. He sentenced me to three months in jail for supposedly sending copywritten rap music by rap artists Three Six Mafia to a dead man's email account a carbon copy of which was sent to Smith who played the music and got upset. I appealed to circuit court and demanded a jury after being remanded to pretrial release

23.) On December 10th of 2021 my mother Jane Lauter Katoskie was brought to a Hotel on Military Highway in the City of Norfolk, by a woman meeting the general description of a person by the name of Debora Griggs, a real estate broker and non-profit swindler who specializes in "Animal charity". She was wearing a covid mask, The Hotel is located directly across the street from an Animal Adoption Center Griggs set up with the city, and the room my mother was taken to was on the first floor, directly next to the unsecured side entrance to the hotel, A cover story was planted with the front desk that my mother had "cancer". Despite having a history of suicide attempts, one of which resulted in me filing a missing person's report in 2006, my mother's second husband Katoskie made no attempt to do a wellness check. Three days later my mother was found dead in the bathtub of the hotel room with not only Xanax and Valium, but also Delotid and Hydrocodon, pain pills. No vehicle was registered with the room. She had been brought there and murdered. I later Learned that Deborah Griggs would have access to these opioids because in fact it was her, not my mother who had serious medical issues.

24.) On February 23rd 2022 The Fourth Circuit Court of Appeals which had previously affirmed Judge Wrights dismissal of Lauter V Schaeffer et Al Without Prejudice, issued

an order denying a petition for rehearing En Banc. On this same day, Joseph Katoskie my mother's second husband and party to that dispute, materialized in Norfolk Circuit Court and entered a last will and testament in my mother's name executed just days before I appealed to the Virginia Supreme Court, naming himself as executor of a sizeable estate including valuable Commercial and residential real-estate bequeathed by my beloved Grandfather Phil, A real estate developer and friends with Fred Trump father of the president. Listed as alternate executors were Debora Griggs and Ashley Brooks a lawyer who shared the same office space with Griggs in Va. Beach. The will allocates everything to a fraudulent trust, that has no assets, The witnesses to the document refused to put their addresses on the allocated line, there was no video of the proceedings, and I had best evidence of my mother's signature to impeach the signature itself. A personal check made out to the Sherwin Williams Company by my mother which I had saved with my business records. When entering the fraudulent will both Katoskie and Shaeffer's Deputy Clerk Crystal Porter a party to this dispute signed a probate information form stating the proof of death was a death certificate that literally did not exist at the time, Based on this, Porter adjudged it to be "Self proven"

25.) On March 10 2022 2 full weeks after the entrance of the fraudulent will, the bureau of Vital statistics released a death certificate for my mother Jane Katoskie. Cause of death determined to be "Suicide". However at the bottom it clearly states "this certificate can be amended at any time" and as we know, the only entity that can determine homicide is a Jury.

26.) On April 20 th 2022 while still on pre trial release after reaching out to Katoskie and requesting to see the trust documents and being ignored, I filed a motion for injunction of the trust in Norfolk Circuit Court sighting undue influence and lack of testamentary capacity. I naturally demanded a Jury. I did not request service however as I was still being prosecuted.

27.) On April 21 st 2022 Ashley Brooks who prepared the will, rush mailed me a letter pretending to be responding to the emails I had sent her client about the trust documents. It is clear she was tipped off by Shaeffer and his staff

28.) On August 4 2022 in Richmond Circuit Court the charges of Computer Harassment were dismissed when I convinced the prosecutor to bow out rather than be humiliated by a pro se litigant in front of a jury.

29.) On August 15 2022 I filed an appeal of a clerk's order challenging the will ever being declared self proven and demanded a jury. Mary Jane Hall materialized as the judge.

30.) On October 4 2022 I appeared in Front of Judge Hall after mailing Katoskie the appeal of the clerk order adjudging the last will and testament "self proven". When neither he nor counsel showed I moved for default judgment. She refused and ordered me to third party serve the appeal. When I pointed out that under rules of the Virginia Supreme Court an appellant is not required to third party serve the appeal, she still refused. I moved for leave to amend under rule 1.8, she hesitated, when I began to write up the motion she grudgingly agreed.

31.) On October 20 of 2022 I filed an amended petition for appeal of a clerks order incorporating into it a lawsuit for wrongful death, not only against Katoskie my mother's second husband, but Judge Lanetti's wife Kamala owing to her political corruption as a member of the city's risk assessment team. I alleged the city provided my mother and her husband with Mary Morgan and arranged for her husband to toss the case out of fear of a cross claim by my mother against the city for the child rape coverup back in 1992. Under Virginia law only the executor can bring a wrongful death suit, but as there was no will, to me it remained an open question of law. I also served this lawsuit as well as the lawsuit seeking injunction of the trust.

32.) On November 15 and 21 st both respondents filed Demurrers acknowledging all the

factual allegations including the political corruption of Lanetti. Lanetti was represented by a fellow city attorney not a private one even though I didn't sue her in any official capacity merely as a resident of Norfolk and wife to a judge. Mary Morgan not Ashley Brooks represented the Trust and the Will, she furthermore filed a defective counterclaim seeking attorney's fees.

33.) On January 5 2023 I filed a line item answer to the allegations by the Environmental Protection Agency which had gone strangely dormant until I was acquitted of criminal charges. In the answer I challenged jurisdiction of an administrative court over me and demanded a jury in U.S District Court to determine whether or not I violated the Clean Air and Water Act. I stated there was no foundation to the photographs taken by the investigator in Suffolk as by the time he arrived, I had not only left the property but sued in Circuit Court, furthermore that the regional counsel PATRICK Foley a party to this dispute had offered to drop the charges for a 2 thousand dollar bribe. And that he had turned over the scope of work agreement for the job, but withheld the two pages of terms and conditions literally mentioned in said agreement, and that I had saved what he had submitted to the court on a thumb drive.

34.) On February 14 th 2023 Judge Hall issued an order sustaining the demurrer' against the trust, which I did not object to, however dismissed the lawsuits for injunction and wrongful death with prejudice while calling another hearing for the will. I did object to the dismissal against Katoskie but not against Lanetti as I had by this time investigated Debra Griggs, furthermore, the City had corroborated my allegations of corruption which triggered standing for federal cause of action. Hall ordered me to pay attorney's fees, called the lawsuit against my mother when she was alive a "pejorative" then, despite claiming at the first hearing I had to third party serve the appeal of Porter's order on the will, now told the other side that they didn't have to show up at all. It should be noted that Mary Morgan's former law firm in Richmond by this time had filed for Chapter 11 Bankruptcy protection. Hall even made sure that the order didn't get released until Morgan had set up her new firm.

35.) On February 22 2023 I filed notice of interlocutory appeal with the cashier of circuit court paying the clerk fee with a debit card. The transaction was voided out by Crystal Porter who told me on the phone, I was not allowed to appeal. She furthermore mislabeled the fraudulent probate information form she had prepared with the will which I resubmitted as evidence, as being merely "letter regarding the will" in the Virginia Data Base

36.) On April 26 2023 I filed a motion to strike the answer as I alleged "This will is a Fraud" in the lawsuit and upon Demurrer, the estate agreed pursuant to rule 1.4 E which states any allegation not implicitly denied is considered acknowledged unless the party indicates that they don't know the answer.. I re-iterated my demand for a jury. I was shut down. The lawyers for the estate showed up to ask for more fees, Judge Hall refused. I immediately filed appeal on procedural grounds, specifically rule 56 and 12 b of the

federal rules binding on state courts pursuant to rule 2:302 of the Virginia Supreme Court as it relates to summary judgment without the parties present and not so much as an affidavit on file accept the lawyers for attorney's fee, also on the grounds that I had already one by default at the first hearing. I also used Bush V Gore the controlling authority on injunction as precedent.

37.)On November 28 th 2023 John Vollino Clerk of the Court of Appeals of Virginia which had just recently received jurisdiction over civil appeals released a fraudulent per curiam in the name of the court with no judges' names affixed which did nothing to address procedure but merely stated "The will is self proven" On the same day Administrative Judge of the Environmental protection Agency Susan Brio dropped her order finding me in "Default" and owing to "indigence" ordered me to pay in excess of six thousand dollars in penalties to the EPA. The order did nothing to address the jurisdictional challenges I put forth in my answer which law firms from around the country have contacted me about.

38.)On December 13 th 2023 the second year anniversary of my mother's death, I filed the matter currently under consideration naming Lofton and Katoskie under the Federal Conspiracy Statute, Vollino Porter, Foley, Smith and Lanetti under Color of Law and Glaxosmithkline for products liability

39.)On February 5 th 2024 I petitioned for Informa Pauperis in Norfolk Circuit Court to press the matter against Griggs, Katoskie and their lawyers under Virginia's fraud and abuse of process statute. I was ordered to attend an evidentiary hearing to establish my poverty and was denied without comment. A new Judge Robert Rigney conducted the hearing, but Jones issued the dismissal order without prejudice two weeks later because I couldn't give them their precious filing fees.

40.)On September 19 th 2024 Arenda Allen Wright Granted IFP and issued a show cause in the above styled matter.

41.)On September 24 th 2024 I filed the current amended Complaint under review in U.S District along with a notice of objection to the length of time the IFP order took and furthermore a motion for the recusal of Arenda Allen Wright a rank partisan in every sense of the word. I then returned to Norfolk Circuit Court re-filed the fraud claim against Katoskie and petitioned for IFP . I included with the petition Judge Wright's order finding me indigent as well as Judge Brio of the EPA.

42.)On September 25 th 2024 Judge Everett Martin again denied IFP. As justification he stated I was "Contemptuous" for moving for his recusal. The lawsuit itself had a motion to recuse for judges Hall, Lanetti, Martin, Rigney and Jones already built into it. Despite this allegation no formal contempt of court charges were brought. I immediately

appealed this decision to the Virginia court of appeals despite already suing Clerk

Vollino in the above styled matter.

43.) On May 30th 2025 Judge Arenda Allen Wright dismissed the lawsuit With Prejudice, without so much as mentioning any of the respondents with the exception of Katoskie, she did not invoke rule 12 (B) and state there was no relief for the claim, merely rule 56. I immediately appealed.

44.) On June 23rd 2025 I received paper work from the 4th Circuit Court of appeals announcing August 10th 2025 as the deadline for my informal brief in the above styled matter. Unlike the Per Curiam on February 23rd , 2022 the day my mother's will was entered, this was not a public record, it was sent to me via first class mail.

45.) On August 11th , One day after my informal brief was due in the 4th Circuit Court John Vollino of the Virginia Court of Appeals released what appears to be a valid per Curiam this time in that it has three judges names affixed to it. The order dismisses the appeal without prejudice and states I can't file interlocutory appeals for in forma pauperis despite a total lack of precedence procedurally, statutory or otherwise. I immediately appealed to the Virginia Supreme Court and sent a copy of this per curiam to this court requesting Judicial Notice.

46.) On October 20th , 2025 the Fourth Circuit entered a stock order affirming Wrights Dismissal of the civil rights lawsuit With Prejudice, siting, "no reversable error" more importantly. It denies the Request for Judicial Notice which indicates collaboration between a member of the fourth Circuit Court of Appeals staff, and not only John Vollino of the Virginia Court of Appeals, but Also George Schaeffer and Crystal Porter in February of 2022 when the fake last will was entered.

47.) On December 10th 2025 The fourth Circuit Denied petition for Rehearing.

48.) On February 3rd 2026 Muriel Pitney, the most recent Clerk or the Virginia Supreme Court issued a fraudulent per curiam having one of her deputies sign for her. There are once again no judges names affixed beneath the caption. It states that "the assignments of error are insufficient"

Reasons for Granting the petition.

The bill of particulars in the statement of the case speaks far more to the reality than anything I could hope to add. These clerks of court in the commonwealth are completely out of control and Judge Arenda Wright Allen thus far refuses to do anything. They write up fake court orders, enter fake wills, destroy evidence and involve themselves in influence operations. The beneficiaries of this corruption are not the Pharmaceutical Giant

Glaxosmithkline which was killing people including me until I stepped in and sued, or Joseph John Katoskie, an old, alcoholic with lots of money and no family or relations. They both spent hundreds of thousands in attorney's fees and Glaxo had to recall the product. The beneficiaries of this corruption are the officers of the court that traffic in this nonsense and think that they are entitled to treat the rest of society as some sort of host for there parasitic whims.

Conclusion

I had hoped to file a simple procedural appeal pointing out that the judge never served the other parties therefore lacked jurisdiction to dismiss RJ. But I am told that this is essential a De Novo proceeding so I was forced to expand the scope significantly.

Based upon the above style, petitioner prays a writ of Certiorari shall issue.

Respectfully submitted.

Robert Lauter

In the Supreme Court of the United States.

Robert Lauter

Vs. Joseph John Katoskie Et Al

Proof of Service.

Even though the respondents were never served at any level in the inferior courts which is the true essence of appeal, out of an abundance of caution I Robert Mathew Lauter do affirm under penalty of perjury on this Date of February 25th, 2026, as required by rule 12^g completely ignored by the trial court, that I have served Motion to leave to proceed in Forma Pauperis which is totally beyond the scope of their involvement, and the Petition for a Writ of Certiorari on each party to the proceeding as there was no counsel of record, by depositing an envelope containing the above documents in the United States Mail, Properly Addressed to each of them with first class postage pre-paid.
