Appendix H

JUST THE TIP OF THE ICEBERG in Constitutional Rights Violations and Violent Crimes by the Superior Court of California and its Criminal Enterprise with MORAL TURPITUDE UNDER THE COLOR OF THE LAW against the petitioner and his 2 kidnapped and missing minor children.

A handwritten signature in black ink, appearing to be 'GB' or similar, located in the bottom right corner of the document.

STATEMENT OF THE CASE

The petitioner (Gurjot S. Dhaliwal) in United States Supreme Court docket #25-7113 is requesting a rehearing and reconsideration of his application for WRIT OF CERTIOARI, because of the extraordinary circumstances that not only proves all the elements of a criminal RICO ACT case, but also proves multiple constitutional rights violations and violations of the rules of Habeas Corpus by the Superior Court of California and it's accomplices in it's criminal enterprise. This new evidence contains substantial grounds not previously presented. This evidence proves both mens rea and actus rea of the ongoing criminal conspiracy to commit these violent crimes against the petitioner and his 2 kidnapped and missing minor children. The methods used by the Superior Court of California and its criminal organization to execute these criminal actions also prove intent from the very start to commit fraud, to enslave, and to torture the petitioner and his 2 kidnapped and missing minor children. The new evidence presented is the "smoking gun" or murder weapon", which proves beyond a reasonable doubt the intent and actions to commit these violent crimes and constitutional rights violations against them by a large criminal enterprise led by Superior Court of California as a representative of the State of California. As shown in the related cases detail, the patterns of racketeering are executed repeatedly over multiple years throughout several different geographic locations throughout the State of California. This pattern of racketeering can be proven using the Superior Court of California's own official court records which detail and prove the criminal conspiracy under the RICO ACT and the violation of the rules of Habeas Corpus. The evidence shows that the state intentionally FORGED documents to kidnap and then prevent the recovery of the petitioners 2 missing minor children. This criminal enterprise has been in existence well before 2020, across multiple different geographic locations, and has been going on for 20 plus years. The kidnapping of the petitioner's children and criminal activity involving the court system is just the tip of the iceberg of their criminal enterprises racketeering activity. This ongoing moral turpitude under the color of the law proves public corruption and the collusion of multiple actors, in multiple criminal conspiracies, with multiple counts of racketeering, with knowledge of a larger criminal conspiracy that extends beyond their individual roles which ties all of them together in their collective efforts together to execute their criminal objectives, which includes violating the rules of Habeas Corpus to kidnap and prevent the recovery of the petitioners 2 missing minor children. Unfortunately, these criminal actions are widespread both domestically and internationally and this criminal enterprise must be brought to justice in defense of the Constitution of the United States and Global Humanity.

A handwritten signature in black ink, appearing to be a stylized representation of the letters 'G' and 'S'.

The Superior Court of California as a member of this criminal enterprise was able to commit their crimes by first colluding with corrupt attorneys to provide the petitioner with a FORGED Temporary Restraining Order and presenting it as if it was real. This FORGED Temporary Restraining Order was sent from the Superior Court of California to the petitioners estranged wife's attorney's and then to the petitioner's attorney who gave it to the petitioner stating it was authentic, which it was NOT. This same pattern of racketeering has continued throughout this case as all the Official Court Records show documents filed by the petitioners estranged wife (The Respondent) with "NO Clerk Certification". These documents are later then FORGED and placed on the communication systems of the State of California's law enforcement across multiple geographic jurisdictions, which facilitates a unlawful arrest of the petitioner with false charges and no probable cause every time he tries to recover his 2 missing minor children. This then ties up the petitioner in court with a new Criminal Protective Order until the charges are eventually dismissed.

The CARPOS, CCPOR, and CLETS systems which are used by law enforcement agencies to verify restraining and protective orders were exploited by the petitioner's estranged wife and her criminal enterprise by circumventing the checks and balances of the system. The **CARPOS Confirmation System** is a database operated by California law enforcement agencies that allows verified users to access and confirm digital copies of restraining and protective orders using a File Control Number(FCN). The primary public-facing portal for this system is managed by the Los Angeles County Sheriff's Department (LASD). Here are the key details and tools regarding the system. **How it works:** Authorized personnel scan restraining orders into the system. By inputting the specific File Control Number (FCN), a user can instantly pull up the digital records. **What it tracks:** The system stores critical information on protective orders, including domestic violence, civil harassment, workplace violence, elder abuse, juvenile, and criminal restraining orders. **Accessing the system:** You can verify documents directly on the LASD CARPOS Confirmation Portal (<https://lasd.org/courtservices/civil/>). The fraudulently filed FCN's used to kidnap the petitioners 2 minor children and prevent their recovery are: (2322101900343; 2322025900362; 2322107200196; 2322120500473).

The CARPOS system was compromised when the petitioner's estranged wife FORGED court records then placed the fraudulent documents on this system to kidnap his 2 minor kids and prevent their recovery on an ongoing basis. Normally, with due process along with checks and balances required to place the court orders on CARPOS there would be no way she could have abused the system. This means she needed help from someone on the inside of the court system and/or law enforcement who is an authorized user of the system to help her commit this fraud. The deliberate and widespread nature of the fraud is also evident because all of the FORGED documents filed on CARPOS came from hearings held by 5

A handwritten signature in black ink, consisting of stylized, overlapping loops and a long horizontal stroke extending to the right.

different judges, which means that each of the fraudulent filings was not a one off mistake, but instead it was a deliberate effort by a larger group of people to further the criminal conspiracy to kidnap the petitioners 2 missing minor children and prevent their recovery. Unfortunately, these fraudulent documents are still on the CARPOS system today despite the petitioner showing proof multiple times in multiple court cases to prove his innocence and to prove the kidnapping of his 2 missing minor children. The collusion of several different courts to ignore the facts and further the larger criminal conspiracy to prevent the recovery of the petitioner's 2 missing minor children is not only a violation of the rules of Habeas Corpus in both the custody of his children and the ongoing persecution by prosecution of him, but it is also a violation of the RICO ACT of 1970. The petitioner's requests for criminal referrals to help recover his 2 missing minor children have been continuously ignored by the Superior Court of California which is not only an active participant to kidnap the petitioners 2 missing minor children, but also an active participant in preventing their recovery, which is a violation of the rules of Habeas Corpus. The massive public corruption with moral turpitude under the color of the law meets all the criminal elements necessary for a RICO ACT indictment. The fraudulent documents filed on CARPOS continue to drive the active effort by the State of California to unlawfully detain the petitioner at will and prevent the recovery of his 2 kidnapped minor children who are being held hostage as part of a ransom to control their father using the law as a weapon. A ransom because the petitioner is being forced to go through this process to eventually be able to recover his 2 kidnapped minor children.

The actions by the petitioner's estranged wife and her criminal organization to take advantage of the court's filing system were and are premeditated, well planned, and well executed proving their criminal intent and action. The petitioner's estranged wife said she was leaving him and when she was filing for divorce her lawyers colluded with the petitioner's lawyers to defraud the petitioner, because they not only wanted a separation, but they also wanted a way to control him and destroy his life. The petitioner had done nothing wrong; these ongoing attacks are being done with malicious intent to cause irreparable harm to him. When the lawyers filed the divorce case, they listed Gurjot Dhaliwal as the petitioner for LA COUNTY FAMILY LAW CASE 20STFL08361 and his estranged wife as the respondent. The reason they did this was so that they could file official court records as the respondent with "NO CLERK CERTIFICATE". A "CERK CERTIFICATE" is used as dual verification to certify any order from the court as a true and accurate record of the court. A review of the case summary will show you that all the orders are filed with the court by the respondent and the official court records prove that there are no court orders, no restraining orders, no register of actions, and no tentative rulings in LA COUNTY FAMILY LAW CASE 20STFL08361. The reason the petitioner's estranged wife did this was so that he could

A handwritten signature in black ink, consisting of stylized, overlapping loops and curves, located in the bottom right corner of the page.

NEVER go to court and appeal the case because all the court records were all in his favor proving he has equal custody rights. There is nothing to appeal. When any court would look into the official court records it would show equal custody rights as if nothing had happened. This was a way they tied the petitioner's hands from being able to use the court system as a pathway to recover his 2 missing minor children. The official court records not only prove his innocence but also prove that his estranged wife is denying him custody of his 2 minor children, which is kidnapping. The petitioner has also seen proof of her taking his minor children outside of the country and across state lines, which make it a federal kidnapping. The petitioner has shown this direct evidence proof multiple times in multiple courts throughout the Superior Court of California, but nobody does anything to help safely recover his 2 missing minor kids and/or correct the FORGED records on the CARPOS verification system. To this day he still continues to get arrested for misdemeanor violations of a restraining order that does not exist. This happens every time he tries to recover his 2 kidnapped minor children. The last time he was arrested he had armed officers show up at the door of his private hotel residence with their guns drawn saying that if he did not open the door they would forcibly enter to arrest him on a misdemeanor 273.6 warrant from another county from a filing from 2 years previously. He was never given a copy of the warrant and the search of court records produced a failure to appear bench warrant with no signature. Additionally, the discovery from that case proves that they were prosecuting him based on false charges with no probable cause. The probable cause they tried to use were 2 FORGED documents from the CARPOS system, which you can review in Appendix's. This case, the same as cases before continues to be extended as long as possible while holding the petitioner under a CPO to prevent the recovery of his 2 minor children, which is in violation of the rules of Habeas Corpus against both him and his 2 missing minor children. He has done nothing wrong and the Superior Court of California is actively depriving him and his 2 minor children of their rights with moral turpitude under the color of the law and doing this with malicious intent to cause irreparable harm.

It was after being violated with false arrest so many different times that the petitioner found out that to protect her unlawful custody and deny him his equal custody rights the petitioner's estranged wife took advantage of the Los Angeles Sheriff's Departments CAPOS system. These actions were and are premeditated, well planned, and well executed proving their criminal intent and criminal action to not only kidnap Gurjot Dhaliwal's 2 minor children but also set up an ongoing system to prevent their recovery which is in violation of the rules of Habeas Corpus. The petitioner's estranged wife, multiples times, has taken the same official court records that she filed as a respondent with "NO CLERK CERTIFICATE" as dual verification of a court order and then "FORGED the CLERK CERTIFICATE" on these documents. She then has been able to get them filed on the CARPOS system which law

A handwritten signature in black ink, consisting of a large, stylized 'G' followed by a series of loops and a final flourish.

enforcement would use to verify if a Criminal Protective Order and/or restraining order existed. You can review in the attached Appendix's to see all these filings of the FORGED documents filed on CARPOS and clearly see they were filed with a "FORGED CLERK CERTIFICATE". In one case you can see FORGED "CONFORMED" copies of a CPO that was filed on CARPOS, but the corresponding case LA COUNTY CRIMINAL CASE 1AR21623 has no filed documents, no imaged documents, and no sentences and the case was dismissed. That is again blatant fraud by the Superior Court of California to file a CONFROMED COPY on CARPOS with no existing original document filed.

The petitioner's estranged wife filed all the official court records as the respondent in LA COUNTY FAMLIY LAW CASE 20STFL08361, which can be reviewed in the Appendix's. These certified official court records are all filed by the respondent (the petitioners estranged wife and have "NO CLERK CERTIFICATE". Additionally, when the petitioner is arrested while he tries to recover his 2 missing minor children his estranged wife provides law enforcement with CARPOS FCN numbers where the FORGED documents are filed, and she has used this to have the petitioner arrested multiple times and delay his ability to recover his 2 missing minor children. When the petitioner has been trying to recover his 2 minor kids he has done thid by calling schools they may be attending, going his estranged wife's mother's house, going to his own condo building asking if the kids are there, but he has not actually seen his missing minor kids in person since December 22, 2020 when they were permanently kidnapped. Whenever he gets close to locating them, he is immediately arrested for misdemeanor 273.6 violation of a restraining order that does not exist, which proves the collusion with both law enforcement and the Superior Court of California in the criminal conspiracy to prevent the recovery of his 2 kidnapped minor children. The Superior Court of California is complicit in this ongoing persecution by prosecution, because they have consistently charged the petitioner with no probable cause, accusation is not proof, and this is being done absent of due process and equal protection of the law. Additionally, after he shows them proof of his innocence they use any excuse possible (COVID, MENTAL HEALTH) to extend the case in violation of his constitutional rights in order to delay his efforts to recover his 2 kidnapped minor children, which is in violation of the Supremacy Clause of the Constitution of the United States and the rules of Habeas Corpus against both him and his 2 missing minor children. If he has done something wrong you must show him proof of what he has done wrong, which is part of standard due process and equal protection of the law. Accusation is NOT PROOF. You cannot just hold him in custody with constant persecution by prosecution and prevent the recovery of his 2 minor children with no proof, but this is what has been happening consistently across several different jurisdictions throughout the Superior Court of California.

IRREPARANBLE HARM IF WRIT OF CERTIOARI NOT GRANTED

A handwritten signature in black ink, consisting of a stylized 'B' followed by a large, loopy flourish.

The petitioner's 2 minor kids were taken at 1 & 4 years old and now are 7 & 10 years old. They have grown up without a father. A father who was extremely active in their lives prior to their abduction. The petitioner's hotel business was destroyed and his reputation torn apart with false allegations of crimes he did not commit. The petitioner continues to face attacks by law enforcement today as he is still fighting the same misdemeanor 273.6 charges which are arbitrarily filed to attack him and prevent the recovery of his 2 missing minor children. Additionally, the petitioner's father died during this federal kidnapping at the end of 2023. The petitioner's father was colluding with his estranged wife to execute these attacks against him and in the discovery of one of the police reports against the petitioner his father told the officer that he was doing this in an effort to take the petitioner's real estate assets. Can you imagine what it feels like to any human being to know that their own father died while trying to kill them, that is the petitioner's reality. The petitioner has a masters degree and had perfect credit before these attacks and now his life is completely destroyed, not by his own doing, but done by his own family and the government who are violating his constitutional rights and using violent crimes to attack him with malicious intent. This moral turpitude under the color of the law is being led with unlawful legal attacks by the Superior Court of California. Now the petitioner's kids who are growing up without a father, will now grow up without a mother after justice is served. Not stopping this criminal enterprise will only allow for more lives to be arbitrarily destroyed by this criminal enterprise and embolden these criminals to attack others.

Unfortunately, although these constitutional rights violations and violent crimes can be easily explained and clearly demonstrated, nobody in the State of California is helping the petitioner. The Superior Court of California, local/state/federal law enforcement, public officials, mandatory reporters, and many others have failed to help and even declined to help the petitioner recover his 2 kidnapped minor children and defend the constitution of the United States. This ongoing nonstop moral turpitude under the color of the law is being used to deprive the petitioner and his 2 missing minor children of their rights and to violate the rules of Habeas Corpus and in violation of the RICO ACT of 1970. The ongoing irreparable harm that is being done is extreme and excessive both physically and mentally against the petitioner and his 2 missing minor children and this cruel and unusual punishment continues today. The petitioner filed this case against the Superior Court of California in federal court because there was no relief in sight and the attacks are becoming more frequent and more aggressive. Currently, the petitioner has a CPO being held over his head by the Superior Court of California in San Mateo County as well as a FORGED CARPOS(12/15/25) document filed as a permanent restraining order that are being used to prevent the recovery of his 2 minor children and to hold him under threat of arrest and future court proceedings. Since the presentation of the first FORGERY the Superior Court of

A handwritten signature in black ink, consisting of a stylized, cursive 'S' followed by a loop and a horizontal stroke.

California and the petitioners estranged wife have continue to follow the same pattern of racketeering to attack the petitioner and prevent the recovery of his 2 kidnapped minor children, which the Superior Court of California's own official court records prove beyond a reasonable doubt. The San Mateo case is more of the same false charges, with no probable cause, and violations of his constitutional rights using mental health as an excuse circumvent the Supremacy Clause of the Constitution of the United States and violate the rules of Habeas Corpus against both him and his 2 missing minor kids. The FORGED CARPOS document does the same as the previous ones, except this one is a permanent restraining order that will once again be used to unlawfully arrest the petitioner, for the rest of his life, and anytime he tries to recover his 2 minor children, despite him having equal custody rights. The FORGED CARPOS order is a fraudulent permanent restraining order and proves a pattern of racketeering in the violation of the rules of Habeas Corpus against him and his 2 missing minor children. The petitioner has done nothing wrong and his kids are being held hostage while he is being violently attacked by the Superior Court of California and its criminal enterprise. We have shown you proof of his innocence and crimes committed against him, his 2 missing minor children, and his deceased father who was killed while under the care of one of the Superior Court of California's co-conspirators. The criminal enterprise attacking them is also attacking the State of California and the United States of America by violating the integrity of our democracy with massive public fraud in order to execute their violent crimes.

The violent crimes in this case are not a coincidence, they are intentional. The forgeries of documents on CARPOS have happened on 5 separate occasions and follow a similar pattern of racketeering each time. This case has gone through several different courts with several different judges, prosecutors, clerks, and public defenders and they have all followed a similar pattern of racketeering. These constitutional rights violations are being made with clear and malicious intent to harm the petitioner and his 2 missing minor children. The moral turpitude of these actions under the color of the law have extended beyond law enforcement and the courts to include attacks on the petitioners personal health care using medicine as a weapon, by interfering with his daily prescription medications without his consent, preventing him from going to doctors' appointments, preventing him from switching his doctor, his doctors not reporting as mandatory reporters(in violation of the law) the abuse of him and the kidnapping of his 2 minor children despite requests to do so, and the murder of his father who was killed while under the care of the same hospital group, Kaiser Permanente, who also employs the petitioner's estranged wife's mother as a nurse. These attacks using his personal health care as a weapon have also happened in several different geographic locations of Kaiser and the attacks are being coordinated and aligned with corresponding attacks using the law as a weapon. The attacks on his personal health care

A handwritten signature in black ink, consisting of stylized, overlapping loops and lines, located in the bottom right corner of the page.

were also specifically done to increase the efficacy of the legal attacks as a form of slavery and torture of the petitioner. Court documents prove the collusion between the personal health care attacks with legal attacks and the dates of these attacks align exactly. They are literally trying to kill the petitioner on an ongoing basis, and nobody is helping him.

The ongoing moral turpitude under the color of the law coordinated with other forces to attack the petitioner have been going on prior to the attacks in California too as his businesses in Texas were attacked and destroyed with malicious intent to harm by the same criminal enterprise prior to assaults on him in California and they follow a similar pattern of racketeering with moral turpitude under the color of the law.

REASON TO GRANT THIS WRIT OF CERTIOARI

The RICO statue expressly states that it is unlawful for any person to conspire to violate any of the subsections of 18 U.S.C.A. 1962. The government need not prove that the defendant agreed with every other conspirator, knew of all the other conspirators, or had full knowledge of all the details of the conspiracy. *Delano, 825 F Supp at 542*. All that must be is: (1) that the defendant agreed to commit the substantive racketeering offense through agreeing to participate in two racketeering acts; (2) that he or she knew of the general status of the conspiracy; and (3) that he or she knew the conspiracy extended beyond his or her individual role.

The actions of all participants not only meets but also exceeds the required elements to be criminally prosecuted under the RICO ACT. Additionally, the moral turpitude of these disgusting acts that are being done under the color of the law is so widespread that it puts reasonable doubt in every case brought forth by the Superior Court of California, because if they can do this to the petitioner and his family then they can do it to anyone, which makes this case a subject of national significance. This also brings reasonable doubt into the actions and any other cases of all the other actors participating in criminal conspiracy to attack the petitioner, because if they can do this to the petitioner and his family then they can do it to anyone. This criminal enterprise is an existential threat to both America and Humanity.

These disgusting actions by the Superior Court of California as a representative of the State of California is slavery in violation of the 13th amendment of the Constitution of the United States, in Violation of the RICO ACT, and in violation of the rules of Habeas Corpus. For this criminal enterprise to be able to execute their ongoing criminal activities of moral turpitude under the color of the law they are also violating multiple other Constitutional rights and using violent crimes to desecrate the petitioner and his families humanity along with the desecration of the integrity of our democracy. This criminal enterprise must be brought to

A handwritten signature in black ink, consisting of a large, stylized 'C' followed by a smaller, more complex mark that resembles a stylized 'S' or a signature flourish.

justice and prosecuted to the full extent of the law. They are exactly the type of criminal enterprise that the RICO ACT was designed to stop in the interest of ensuring that humanity always comes first.

CONCLUSION

The petitioner has been forced into this action to file in US District Court, appeal in the 9th Circuit Court of Appeals, and now appealing in the Supreme Court of the United States because of the extraordinary circumstances of a government actor executing violent crimes with moral turpitude under the color of the law that are attacking the very fabric our nation and the integrity of our democracy. America's greatest strength is the integrity of our democracy, which must be applied to all human beings equally, unequivocally, with integrity, and without exception. The petitioner has exhausted all other options and as the records show these attacks have been done and continue to be done with fraudulent intent and designed to prevent any reconciliation of his situation keeping him under constant persecution by prosecutions and preventing the recovery of his 2 kidnapped and missing minor children. These actions by the Superior Court of California as a representative of the State of California and its criminal enterprise are also in clear violation of the rules of Habeas Corpus and due process and equal protection under the law.

The petitioner is demanding immediate action by the court to stop the Superior Court of California and its criminal enterprise from any actions against him and for their help in the safe recovery of his 2 kidnapped minor children along with an immediate criminal referral to federal law enforcement to bring his assailants to justice.

Additionally, so he can have peace of mind and not live under constant threat the petitioner also demands permanent immunity from any further actions by the Superior Court of California and/or any other courts in the United States or internationally ensuring the protection of him, his 2 minor children, and any other direct family members that can be used as leverage to attack him.

Furthermore, the petitioner also demands massive restitution for the damages against him and his family including massive punitive damages to deter others from similar conduct in the future. The Superior Court of California has a budget of \$5.1 Billion a year and revenue of \$2.7 Billion a year and they have been enslaving the petitioner and his 2 kidnapped minor children since 2020. Almost \$50 Billion in collective court resources that were intentionally used to violate the petitioner and his 2 minor children with moral turpitude under the color of the law.

The National Significance of this case should also bring into question every other conviction by the State of California as the moral turpitude under the color of the law is so widespread

A handwritten signature in black ink, consisting of a stylized, cursive 'A' followed by a dot.

that it brings reasonable doubt into every case every prosecuted by the Superior Court of California.

This petition for rehearing must be reconsidered and heard by the court in defense of the integrity of our democracy and common decency of humanity for all human beings equally, unequivocally, with integrity, and without exception.

The criminal elements under the RICO ACT are clear as the pattern of racketeering meets the criteria to prosecute this case criminally per the U.S.C.A. 1962. There is direct evidence proof from the official public records that proves each of the individual conspirators committing at least two acts of racketeering. The petitioner has two minor children, so every fraudulent document filed to further the criminal conspiracy to kidnap them is 2 counts. As you see in the Appendix's, these constitutional rights violations and violent crimes were set up by the very first FORGED document provided by the Superior Court of California on 9/11/2020. The individual actors also follow a similar pattern of racketeering and because their law enforcement systems share information they all have knowledge of the greater criminal conspiracy that is larger than their individual role.

The petitioner has also complained in court about coordinated attacks on his personal health care, which has been acknowledged by the Superior Court of California. These coordinated attacks are in violation of the patient Bill of Rights, the Constitution of the United States, and California Medical Associations requirements. The nonreporting as a mandatory reporter by his doctors is in violation of federal and state law. Additionally, the death of the petitioner's father while under the care of Kaiser is murder, because if anyone dies for any reason during a federal kidnapping it is murder by law with mandatory sentencing of LWOP or death.

What makes the disgusting acts even more terrorizing is that they are being done by the same people you and I are supposed to go to for help, but instead they are the ones violating us with moral turpitude under the color of the law.

The checks and balances of our government that protect the integrity of our democracy are being violated with malicious intent to cause irreparable harm. These actions must be dealt with an iron fist and these criminals brought to justice. As John Adams once said "Mercy to the Guilty, is Cruelty to the Innocent". Please help me defend the Constitution of the United State and ensure that this can never happen to another human being ever again. I humbly request that you consider my petition for rehearing, docket #25-7113, for WRIT of CERTIOARI.

June 17, 2026, Respectfully submitted,

A handwritten signature in black ink, consisting of a stylized 'S' followed by a large, sweeping flourish that loops back to the left.

Best regards,

8/17/26
